ACADEMIC DEVELOPMENT FUND - NEW RESEARCH AND SCHOLARLY INITIATIVE AWARDS

Small grant - Spring 2010 - Sucessful Projects by Group

Appendix 2

ADF No.		Project Title	Director / Academic Unit	Awarded
Biosciences				
SG10-10		The Effect of Peri-Defect Bone Grafting on Calvarial Defect Healing	Damir Matic / Department of Surgery	$8,440
SG10-11	*	Sepsis Severity is Related to Host Immunogenetic Variation	Tina Mele / Department of Surgery	$8,460
SG10-12	*	Novel approaches to assess epigenetic and genetic changes associated with human pancreatic disease	Christopher Pin / Department of Paediatrics Terry Ponich / Department of Medicine	$8,387
SG10-14		The Role of MMP-3 in Acute Lung Injury and Multiple Organ Failure	Cory Yamashita / Department of Medicine	$7,796
SG10-18		Is there a trade-off between immune function and flight performance in migratory birds?	Christopher Guglielmo / Department of Biology Silke Nebel / Department of Biology	$8,447
SG10-28	*	Can cortisol in saliva and hair predict recovery following acute musculoskeletal trauma?	David Walton / School of Physical Therapy Joy MacDermid / Department of Orthopedic Surgery	$8,481
SG10-4	*	Imaging the attentive cerebellum	Sandrine de Ribaupierre / Clinical Neurological Sciences Christopher Striemer / Department of Psychology Mel Goodale / Department of Psychology	$7,910
			Total for Biosciences:	**$57,921**
Physical and Mathematical Sciences and Engineering				
SG10-17		Interacting Particle Systems and Monte Carlo Simulation	Adam Metzler / Department of Applied Mathematics	$8,325
SG10-24		Mechanistic understanding of processes controlling the state of beaches on the Great Lakes	Clare Robinson / Department of Civil & Environmental Engineering	$8,500
SG10-26		Flowability testing of pharmaceutical powders	Lauren Briens / Department of Chemical and Biochemical Engineering	$3,325
			Total for Physical and Mathematical Sciences and Engineering:	**$20,150**

* *indicates that Ethics Approval is required and* + *indicates that External Application Outcome is required.*
