

# VETERINARY SERVICES 2010-2011 PRICE LIST

## Services Available

### CONTRACT FUNDED RESEARCH PROTOCOLS

Projects funded by a contract arrangement will be subjected to a specific pricing agreement so that all direct costs are recovered. This will be done on a case-by-case basis by ACVS. Please discuss the details with the Director ACVS to receive a quote.

### TECHNICAL SERVICES AND PROCEDURES

Our veterinary and technical staff can provide various technical services. Many investigators find it economically advantageous to contract work out to ACVS rather than hire their own staff. Please contact Veterinary Services for a quote.

**SERVICES** – Straight rent-a-tech charges are \$41.00/hr (minimum one hour) or we can provide a ‘project quote.’ A project quote will reduce your cost while still providing access to expert technical assistance. Complete studies can be conducted by the staff at ACVS from ordering animals to surgery and intervention to histopathology.

<b>Anesthesia services</b> <b>Antibody production</b> <b>Post-procedure patient care</b> <b>Drug and agent administration-</b> PK studies, gavaging, injections, etc.	<b>Surgical Monitoring</b> <b>Patient monitoring</b> <b>Specimen Collection</b> <b>Sample collection-</b> blood, tissue, etc.
--	--
