

Bachelor of Medical Sciences (BMSc) Information Series

If you are a **first-year student** interested in studying the basic medical sciences by completing a BMSc degree, come to an Information Session.

The basic medical sciences include:

- anatomy and cell biology
- biochemistry
- epidemiology and biostatistics
- medical biophysics
- microbiology and immunology
- pathology
- pharmacology
- physiology

Find out:

- how to “build” a degree (and, specifically, a BMSc degree)
- which modules are offered by the basic medical science departments and which modules can only be completed within a BMSc degree
- what is needed to be admitted to Year 2 of the BMSc program

When and Where (attend one session):

Date	Time	Location*
Wednesday, November 2	12:30 – 1:30	MSB 282
Wednesday, November 2	2:30 – 3:30	MSB 282
Friday, November 4	10:30 – 11:30	MSB 282
Thursday, November 10	9:00 – 10:00	MSB 384
Tuesday, November 15	2:30 – 3:30	MSB 384

*MSB: Medical Sciences Building
