

CIHR Applicants

- Canada Graduate Scholarship-PhD
- Doctoral Research Awards
- Strategic Training Grants
- CIHR Fellowships

CIHR scholarship or fellowship salary payments to departmental graduate students are administered through the Department of Epidemiology & Biostatistics, unlike NSERC, SSHRC and OGS/ST which are administered through FGS.

As a result, an internal form called the [Research Data and Approval Form or RDAF \(the electronic version of this form is referred to as a ROLA\)](#) is required for the application to be processed. Please provide the RDAF form in hard copy.

The RDAF (ROLA) must be completed with the Chair of the Department listed as the Principal Investigator (otherwise referred to as a "*Chair Award*") and the student applicant listed as the Co-Investigator.

NOTE: The Chair signs both as the Principal Investigator (PI) and as the Chair of the department on the RDAF form. Students DO NOT sign the RDAF form.

A hardcopy of the following documents, in addition to the completed hard copy RDAF (ROLA), must be submitted to the Research Coordinator (room K201D) prior to the application deadline:

- 1) Signature page of the application (2 pages in total)
- 2) Cover page of the application (routing slip)
- 3) Summary page (a brief outline of your research objectives)
- 4) Budget and budget justification
