The Department of Medicine, Division of Cardiology, Schulich School of Medicine & Dentistry, at Western University, London Health Sciences Centre and St. Joseph’s Health Care is seeking a physician for full-time clinical academic appointment to Western University. Applicants should be certified, or eligible for certification, in Cardiology by the Royal College of Physicians and Surgeons of Canada, or equivalent. Candidates must have an MD, or equivalent, and must be eligible for licensure in the province of Ontario. The successful candidate will hold a limited term clinical academic appointment at the rank of Assistant Professor.

Western University delivers an academic experience second to none. Western challenges the best and the brightest faculty, staff and students to commit to the highest global standards. Our research excellence expands knowledge and drives discovery with real-world application. Western attracts individuals with a broad worldview, seeking to study, influence and lead in the international community. Since 1878, The Western Experience has combined academic excellence with life-long opportunities for intellectual, social and cultural growth in order to better serve our communities.

The Schulich School of Medicine & Dentistry at Western University is one of Canada’s preeminent medical and dental schools. Established in 1881, it was one of the founding schools of Western University and is known for being the birthplace of family medicine in Canada. For more than 130 years, the School has demonstrated a commitment to academic excellence and a passion for scientific discovery. Throughout its history, Schulich Medicine & Dentistry has helped educate generations of physicians, dentists, scholars and scientists whose collective work has transformed the practice of medicine and dentistry, here in Canada and around the world. Faculty, students and alumni continue to fulfill their responsibilities as global leaders by sharing their knowledge and expertise for the benefit of all.

The Division of Cardiology is seeking to expand its imaging capacity, therefore prior experience in establishing or operating novel collaborative imaging programs is preferred, with experience in imaging quality assurance being an asset. Preference will be given to candidates with Level 3 accreditation in echocardiography (including transesophageal echocardiography), cardiac MRI and CTA. Prior experience at consultant level supervising general and subspecialty cardiology trainees is highly desirable. The successful candidate will also have demonstrated commitment and aptitude for teaching, training and will be expected to teach at undergraduate and graduate levels and to supervise graduate trainees. In particular, training and experience as an assessor for competency based medical education (CBME) is expected of the successful candidate. In addition, the successful candidate will have demonstrated interest and experience in collaborative clinical trial research with a focus on applied applications of advanced imaging (3D echocardiography, strain imaging) and would be expected to participate in research activities. Prior experience working collaboratively with specialists in other disciplines (such as Radiology and Cardiovascular Surgery) and assistance in teaching trainees in other disciplines would be an asset.

Consideration of applicants will include an assessment of previous performance in research and teaching, qualifications and experience and candidates that have demonstrated ability in the identified areas of opportunities will be given priority.

Compensation for this position(s) will be commensurate with qualifications and experience and will primarily include fee for service, alternative funding plan and academic salary.

Those interested in applying for this position should forward a Letter of Interest/Statement of Academic Qualification, Curriculum Vitae, at least three letters of reference, and also complete, sign and include the form at the following link:
