CLINICAL ACADEMIC POSITIONS (3) – DIVISION OF INFECTIOUS DISEASES

The Department of Medicine, Division of Infectious Diseases, Schulich School of Medicine & Dentistry, at Western University, St. Joseph’s Health Care London, and the London Health Sciences Centre are seeking three Infectious Diseases Physicians for full-time limited term or continuing clinical academic appointments to Western University. Applicants should be certified, or eligible for certification, in Infectious Diseases by the Royal College of Physicians and Surgeons of Canada, or equivalent. Candidates must have an MD, or equivalent, and must be eligible for licensure in the province of Ontario. The successful candidate will receive an academic appointment at the rank of Assistant Professor, Associate Professor or Professor depending on qualifications and experience.

The Schulich School of Medicine & Dentistry at Western University is one of Canada’s preeminent medical and dental schools. Established in 1881, it was one of the founding schools of Western University and is known for being the birthplace of family medicine in Canada. For more than 130 years, the School has demonstrated a commitment to academic excellence and a passion for scientific discovery. Throughout its history, Schulich Medicine & Dentistry has helped educate generations of physicians, dentists, scholars and scientists whose collective work has transformed the practice of medicine and dentistry, here in Canada and around the world. Faculty, students and alumni continue to fulfill their responsibilities as global leaders by sharing their knowledge and expertise for the benefit of all.

The Division of Infectious Diseases provides secondary and tertiary care for the City of London, Southwestern Ontario and beyond. Successful candidates will have a commitment to, and demonstrated aptitude for teaching, within a very active clinical practice and will be expected to promote and contribute to excellence in trainee education. There will be ample opportunity for clinical and basic research within the Division and collaboration with other members of the Department of Medicine including basic science researchers. Preference will given to candidates with research and teaching interests in Infection Prevention and Control.

Compensation for this position will be commensurate with qualifications and experience and will be primarily composed of fee for service, alternative funding plan and academic salary.

Those interested in applying for this position should forward curriculum vitae along with at least three names of references and also complete, sign and include the form at the following link:
