2011-12 Scholarship Report
2011-12 FACULTY OF HEALTH SCIENCES LEADERSHIP TEAM

W. James Weese, PhD
Dean
Jan Polgar, PhD
Associate Dean (Scholarship)
Kevin Wamsley, PhD
Associate Dean (Programs)
J.B. Orange, PhD
Director, School of Communication Sciences and Disorders
Marita Kloseck, PhD
Director, School of Health Studies
Greg Marsh, PhD
Acting Director, School of Kinesiology
Mary-Anne Andrusyszyn, PhD
Director, Arthur Labatt Family School of Nursing
Angie Mandich, PhD
Director, School of Occupational Therapy
Tom Overend, PhD
Director, School of Physical Therapy
Pamela Houghton, PhD
Chair, Graduate Program in Health & Rehabilitation Sciences

ABOUT THE FACULTY

The Faculty of Health Sciences was established in 1997 when the Faculties of Nursing, Kinesiology and Applied Health Sciences merged to become the Faculty of Health Sciences. The result was a dynamic and exciting new faculty comprised of five Schools and two interdisciplinary programs.

Today, the Faculty includes six schools – Communication Sciences and Disorders (Audiology, Speech-Language Pathology), Health Studies, Kinesiology, Nursing, Occupational Therapy and Physical Therapy – as well as one interdisciplinary graduate program – Health & Rehabilitation Sciences.

Our mission is “to lead in the generation and dissemination of knowledge in the areas of health and health care, rehabilitation, physical activity and sport”. We are also committed to offering the best student experience among Canada’s leading research-intensive universities.

STATISTICS

- Undergraduate students: 3,246
- Graduate students: 734
- Full-time faculty members: 133
- Full-time staff: 87
- Graduate and undergraduate degrees, modules, diplomas and certificates: 64

RESEARCH CENTRES

- National Centre for Audiology
- Canadian Centre for Activity and Aging
- International Centre for Olympic Studies

SCHOOLS

- Communication Sciences and Disorders
- Health Studies
- Kinesiology
- Nursing (Arthur Labatt Family School of)
- Occupational Therapy
- Physical Therapy

INTERDISCIPLINARY GRADUATE PROGRAM

- Health & Rehabilitation Sciences

ACTIVITY-BASED PROGRAMS

- Western Sport & Recreation Services
  - Mustang Athletics
  - Campus Recreation

Physical Therapy

W. JAMES WEESE
Dean
I am extremely proud to share with you the 2011-12 Faculty of Health Sciences Scholarship Report. This document gives us a chance to reflect on our research accomplishments but also provides a glimpse into the future.

The research being generated by our faculty members is as strong and comprehensive as ever and serves as a foundation for our graduate and undergraduate programs, which continue to attract the best and brightest students each year. These students play a key role in our discoveries. We are privileged to work along side them and value their contributions to the academy.

Research funding from agencies like SSHRC, NSERC, CIHR and CFI are the backbone of our research programs and our researchers are competing favourably for this support. Our members are also earning Western’s most prestigious research and teaching awards in addition to being recognized by agencies around the country for their contributions to health and wellness.

Success like this is not possible with a strong group of professors, associate deans, staff members, postdoctoral fellows and students, all committed to moving our faculty forward. I extend my most sincere thanks to all for their hard work and dedication.

Yours in Health Sciences,

HELENE BERMAN
Associate Dean (Research)

As is evident throughout the pages of the 2011-12 Faculty of Health Sciences Scholarship Report, our faculty members continue to pave the way in ground-breaking health sciences research.

This publication provides an opportunity to tell the story of how our efforts are significantly impacting the lives of individuals, families, and communities, locally and globally.

Our interests are diverse, the questions we ask are varied, the strategies and methodologies we use to generate new knowledge are innovative, rigorous, and profoundly important. Collectively, we continue to have tremendous success, obtaining prestigious grants in a highly competitive funding landscape, publishing our work in leading journals, and engaging in a wide range of activities designed to translate research findings into practice and policy.

I extend my deepest appreciation to all of my colleagues who continue to set the highest of standards in the pursuit of research excellence, and to the many people who provide ongoing support to the research efforts of our faculty, most notably Gordon MacDonald. Your efforts, individually and collaboratively, help to make Western Health Sciences an internationally recognized faculty – and a great place to work, study, learn and grow.

It is a true privilege to be a part of this team.

Yours in Health Sciences,

Helene Berman, RN, PhD
Associate Dean (Research)
Faculty of Health Sciences
Faculty Member Publications

“How do we hear in three dimensions with only two ears? How can we improve impaired spatial hearing by understanding how acoustics, anatomy, physiology, and psychology interact in this process?”

Ewan Macpherson, PhD

“Some children struggle to learn at school for no apparent reason. In the Language and Working Memory Lab, we’re investigating how weaknesses in a child’s working memory or language skills impair learning, and how targeting these areas in intervention may improve learning.”

Lisa Archibald, PhD

“We are dedicated to improving the health and wellbeing of people who have swallowing problems. This is a critical area of health research since lower respiratory infections, which are associated with swallowing impairment, are the third leading cause of mortality worldwide.”

Ruth Martin, PhD

MAY BETH JENNINGS

II ORANGE

Jennings MB, London, UK, Bologna, IT: MEDIMOND.

My qualitative research with men and women who experience multiple of social marginalization focuses on understanding their lived, health and gender-related experiences as they are produced by broader political and structural forces as well as the complex exigencies of everyday life.

Treena Orchard, PhD

My research focuses on improving caregiving relationships through enhanced communication, identifying ways to enhance personhood for individuals with dementia, and uncovering the mechanisms by which caregiver interventions are effective.

Marie Savundranayagam, PhD

Compete or collaborate? We are exploring the instructional value of competition-based elements as motivational learning devices in higher education. Using a novel, online tournament-based learning system, students report the added excitement of competing against their peers has increased their preparation time for examinations.

JIM WEESER

Research to support people who have had a mental illness/addiction feel part of our community. Specific related topics include housing/homelessness, poverty, supportive relationships, and effective models of mental health care.

Cheryl Forchuk, PhD

My research is focused on homelessness and health, including such factors as poverty, housing, addictions, and mental health.

Abe Oudshoorn, RN, PhD

My research program uses cameras, photos, and interviews, and explores the complexities, needs, and resources of rural women’s health. Aging, curling, health care, policy, and power in rural contexts have formed the basis of my work and led to the publishing of my book, Rural Women’s Health, which is the first book in Canada on this topic.

HELPING PEOPLE WITH DISABILITIES AND PERSONS WITH CHRONIC PAIN TRANSITION INTO WORK THROUGH INVESTIGATION OF INTEGRATIVE SERVICES, SYSTEMS, POLICIES AND KNOWLEDGE TRANSFER.

Lynn Shaw, PhD

“My work highlights ways that social, economic, political and cultural contextual factors impact the various types of societal groups – such as persons aging with chronic disabilities, aging persons, persons experiencing long-term unemployment and First Nations youth – have to do what they want and need to do to contribute to individual, familial and societal well-being.

Debbie Laliberte Rudman, PhD

“My research centres on the experiences of immigrants to Canada and attends to the structural factors shaping their integration into the host society, including systemic barriers to their social inclusion and their development of a sense of belonging. Particular attention is paid to the shifting relationship between identity, occupation, and place that stems from international mobility among French-speaking immigrants living in London’s Francophone minority community.

By integrating knowledge from across a variety of disciplines, the Pain and Quality of Life Integrated Research Lab aims to improve the lives of Canadians living with pain, and to prevent chronic pain in those at risk.

Dave Walton, PhD

Researchers in the Wolf Orthopaedic Biomechanics Laboratory and Fowler Kennedy Sport Medicine Clinic are studying a combination of rehabilitative and surgical treatments to lessen the load on the knee during walking.

Trevor Birmingham, PhD

The focus of my work is to optimize a range of outcomes for children with cerebral palsy aged 18 months to 12 years by developing a surveillance program to monitor many aspects of development. Supportive interventions can then be tailored to each individual child, depending on how they are developing (as ‘expected’, ‘better than expected’ or ‘more poorly than expected’). Results will enhance both efficiency and effectiveness of rehabilitation services.

### Successful Grant Applications

#### Funding Breakdown by School (July 1, 2011 to June 30, 2012)

- **School of Kinesiology**
  - **External Grants**
    - **Faculty Member**
    - **PI**
    - **Co-PL, Co-A, Etc.**
    - **Agency**
    - **Title**
    - **Amount Awarded**
    - Beltrgy G  
      - Goodman Z, Murray J, Bechard O, Nosta V  
      - Ontario Ministry of Health Promotion and Sport Research Program in Applied Sports Sciences (RMSS)  
      - The effect of differing 2k pace strategies on rowing 2k performance, VO2, muscle hemoglobin status, and energy system contributions  
      - $10,000
    - Dickey J  
      - Dragunas A  
      - Ontario Ministry of Health Promotion and Sport Research Program in Applied Sports Sciences (RMSS)  
      - Contribution of the rear foot in swimming track starts  
      - $6,620
    - Dickey J  
      - Eger T, Beauchemin S, MacPherson E  
      - WSIB Proof of Principle  
      - Assembly of an Immersive Virtual Reality Simulation for Heavy Equipment Vehicles  
      - $30,000
    - Forsyth J  
      - Forsyth J  
      - ERA  
      - More than sports and games: Physical culture at Indian residential schools and Aboriginal conceptions of health  
      - $150,000
    - Hall C  
      - Rodgers W, Hall C, Berry T, Blanchard C  
      - CHIR Operating Grant  
      - You can’t always get what you want: A self-determined based examination of the differences between implicit and explicit outcome expectations and their influence on exercise adherence  
      - $668,405
    - Heath M  
      - Heath M  
      - NSERC Discovery Grant  
      - Visual and cognitive control of action  
      - $235,000
    - Motolla M  
      - Adamo K, Senikas V, Dodd J, Duggan M, Sharma A, Motolla M et al  
      - CHIR Planning Grant  
      - Obesity Prevention from Conception: a workshop to guide the development of a pan Canadian trial targeting the gestational period  
      - $21,634
    - Praepavessis H  
      - Norsz K, Welsch E, Praepavessis H, Siabrouk JA, Fraser D, & Eagleson R  
      - Academic Medical Organization of Southwestern Ontario  
      - The impact of a structured lifestyle intervention on body composition and exercise capacity in obese children with operated heart defects.  
      - $60,000
    - Shoemaker Jr  
      - Hughson RL, Shoemaker Jr, et al  
      - Canadian Space Agency  
      - Structural and functional cardiovascular adaptations with long duration space flight  
      - $300,000

- **Internal Grants**
  - **Faculty Member**
  - **PI**
  - **Co-PL, Co-A, Etc.**
  - **Agency**
  - **Title**
  - **Amount Awarded**
  - Danylchuk K  
    - Nambakhsh C  
    - The Stiller Centre for Technology Communication, Western  
    - UGI, Software application development for a virtual personal training solution  
    - $20,000
  - Heath M  
    - Heath M  
    - Faculty Scholar Award  
    - Faculty Scholar Award  
    - $14,000
  - Misener L  
    - Misener L  
    - SSHRC Travel  
    - Leisure Studies Association Conference  
    - $2,000

- **Arthur Labatt Family School of Nursing**
  - **External Grants**
    - **Faculty Member**
    - **PI**
    - **Co-PL, Co-A, Etc.**
    - **Agency**
    - **Title**
    - **Amount Awarded**
    - Forchuk C  
      - Forchuk C  
      - Human Resources and Skills Development Canada  
      - Screening and Selection of Sites for a Veteran’s Transition House - Horizontal Pilot Project  
      - $35,075
    - Ford-Gilboe M  
      - Ford-Gilboe M  
      - CIHR Operating Grant  
      - Effectiveness of an internet-based decision aid in enhancing safety behaviors, reducing exposure to violence and improving mental health among women experiencing intimate partner violence  
      - $959,650
    - Laschinger HKL  
      - Laschinger HKL  
      - CIHR Partnerships for Health System Improvement  
      - New Graduate Nurse Retention: A National Study of Factors Influencing New Graduate Nurses’ Job and Career Transition in the First Two Years of Practice  
      - $581,784
    - Oudshoorn A  
      - Oudshoorn A  
      - SSHRC Travel  
      - Using Narrative to Explore Systemic Determinants of Poverty  
      - $4,500
    - Regan S  
      - Regan S  
      - Donelle L  
      - Primary Health Care Systems Program Seed funding  
      - Integrating primary health care and home care through health information technology: Implications for policy, planning, and practice  
      - $12,122
    - Ward-Griffin C  
      - Ward-Griffin C
