Syllabus for HS 3630a: Sexuality, Gender & Health

Instructor: Dr. Treena Orchard
Class: Wednesdays
Time: 12.30-3.30
Room: SSC-3006
Office Hours: 3.30-5.00 pm Wednesdays or by appointment, Rm 208 HS Bldg.
E-Mail: torchar2@uwo.ca
Cell: 519-639-9722

Course Description
This is an advanced undergraduate course in health sciences that explores how sexuality, gender, and health are experienced, valued, and socially constructed. The materials selected provide a sound overview of the basic concepts and theoretical approaches related to these three issues and also introduce students to some of the newer fields of research that are emerging. The more traditional areas of concentration include the body, heterosexuality and gender, reproductive health practices, HIV/AIDS, and health and healing in post-colonial settings. Topics that could be considered more cutting-edge include sex and gender among gay men and transgendered individuals, bio-technologies and the redefinition of life and death, structural/symbolic violence, and the ethical and emotional challenges of conducting fieldwork. By examining classic and modern contributions to these diverse fields of study, students will be equipped with foundational theoretical and methodological skills as well as a critical awareness of how health is experienced, embodied, and impacted by larger factors of economy, politics, gender, and sexuality.

Class Schedule and Format
The course is held once per week and runs for three hours. The basic format for each class will be as follows: an overview of class objectives, student presentations of readings, interactive lecture by myself, a break, group work, and class discussion. Although I am going to lecture and lead the discussions on the assigned readings and some additional contextual information, students are encouraged to participate and share their perspectives on the respective themes as much as possible. Indeed, a significant portion of the evaluation for this course depends upon you being able to demonstrate your comprehension of the materials through oral presentations, weekly reading responses, and the formulation of the applied assignment.

Evaluation
Class Attendance 5%
Write-ups on weekly readings (n=4) 20%
Mid-Term Exam 25%
Applied Assignment 20%
Final Exam 35%

Details
Class Participation and Attendance (5%)
Given the relatively small size of the class (n=60), the focus on group work, and the marks allotted to attendance, you must take part in every class. Regular, punctual class attendance is critical and any absence, along with repeatedly late arrivals to class, will affect your mark. Everyone is expected to have the four readings assignments done before class.
Reading Write-Ups (20%)
During the course of this class you will write four critical summaries based on in-class readings of your choosing, and each one is worth 5% of your total mark. While this may seem like a lot of writing, in an upper year class like this illustrating how you understand and apply aspects of the readings is very important. This approach also helps ensure that you are completing the assigned materials and allows for feedback on your writing skills and analytical development. Each assignment should be 2 double-spaced pages and no more than 500 words. Use APA style for in text citations and references (2-3), which can be on a separate page. Two are due before the mid-term (September 29th and October 13th) and two are due after the mid-term (November 10th and December 1st). An outline of what I am looking for in the write-ups will be posted on Web CT.

Mid-Term Exam (25%)
The exam will cover the first half of the readings and will consist of 10-15 short answer questions and your choice of 1 of 2 possible essays. I will provide you with an outline of the content of the essay options to help you prepare and organize your responses.

Applied Assignment (20%)
“Reading” the different messages about sexuality, gender, and health in popular media (i.e., Internet, television, music, magazines, other forms of advertising), health-related settings (i.e., health clinics, hospitals, student health services, the gym), or university environments (i.e., on-campus groups, pubs and restaurants, seasonal advertising, courses offered) is important to the development of your understanding of how ideas that pertain to these important issues are produced within our society. Select one of the three public domains listed above and examine how it shapes the representation, production, and/or communication of 2-3 of the key issues that we have discussed in class. Some examples: ‘The representation of teenage sexuality in contemporary vampire movies/series’; ‘Representations of gender and health in men’s magazines’; ‘Silenced sexualities: representations of lesbian and gay experiences in mainstream health settings.’ This assignment is not a formal research essay, but you are required to describe your project, summarize some of the main findings within your general topic area, discuss the primary themes that shape your analysis of the 2-3 key issues you focus upon, and provide a brief summary of the significance of your selected topic in relation to the broader issues of sexuality, gender, and health. The assignment should consist of 8-10 written pages, including references (6-10 academic references, not including Internet sources unless that is the domain you are focusing on), and be double-spaced.

Final Exam (35%)
The final examination is comprehensive and will consist of short answers and a broad range of essay questions. Together we can discuss some of the most pertinent topics from which to draw the essay questions, which will constitute 75% of the final.

Grading scheme:
I use the format provided below for grading, which is the university-wide scale that has been approved by the UWO Senate:

A+ 90-100 Exceptional
A  80-89 Superior work, above average.
B  70-79 Good work, meeting all requirements, and eminently satisfactory.
C  60-69 Competent work, meeting requirements.
D  50-59 Fair work, minimally acceptable.
F  below 50 Fail
Your contributions regarding class evaluation
At the end of the course you will complete the formal evaluation materials distributed by the University. However, finding out what did and did not appeal to you at the end of the class does not leave much room for change. For this reason, half way through the course you will be asked to jot down your thoughts on what you like about the class, what could be improved, and so forth.

Policies
Late assignments
All assignments must be turned in on time and only hard copies will be accepted. If you have a medical reason for not being able to complete an assignment or an examination a note from your Physician indicating the severity of your condition must be submitted to the Faculty of Health Sciences Dean’s office. You may visit Western’s Policy on Accommodation for Medical Illness at: https://studentservices.uwo.ca/secure/index.cfm for further details. If you have a non-medical reason for handing in a late assignment 3% will be deducted per day, including week-ends.

Electronic devices
Cellular phones must be turned off during class and lap-top computers will only be allowed to be open if your work on them pertains to class. You will learn more if you are fully engaged in the materials presented and the discussions.

Plagiarism
The Applied Assignment may be subject to submission for textual similarity review to the 'commercial plagiarism detection software under license to the University for the detection of plagiarism. All assignments submitted for such checking will be included as source documents in the reference database for the purpose of detecting plagiarism of papers subsequently submitted to the system. Use of the service is subject to the licensing agreement, currently between The University of Western Ontario and Turnitin.com. See the following site for more details: http://www.turnitin.com.

Student Inquiries
If you have any questions or comments regarding the class you may raise them during class or privately through e-mail. If you require information regarding Student Support Services or the Student Development Services, see their Web site: http://www4.registrar.uwo.ca.

Creating a “healthy” classroom
Teaching and learning is a two-way process and to ensure the best and most productive experience for us all I ask that we all be considerate of the following: arrive on time, do not be disruptive, respect one another, and be willing to challenge yourself.

REQUIRED Materials: available in the UWO Bookstore

Reading Package
First class, September 15, 2010: Introduction to the course and to one another. Viewing of the film *Quinceanera* and class discussion.

**Topic 1, September 22, 2010: Overview and Key concepts**

**Topic 2, September 29, 2010: The Body**

1ST WRITE UP DUE

**Topic 3, October 6, 2010: ‘Other’ Sexualities and Genders: Experiences of Gay Men and Transgendered People**
Schilder, Arn; Treena Orchard; Christopher Buchner; Mary Lou Miller; Kim Fernandes; Steffanie Strathdee; and Robert Hogg (2008). ‘It’s like the treasure’: Beliefs Associated with Semen Among Young HIV-Positive and HIV-Negative Men Who Have Sex With Men. *Culture, Health & Sexuality*, 10(7), 667-679.

Bauer, Greta; Rebecca Hammond; Robb Travers; Matthias Kaay; Karin Hohenadel; and Michelle Boyce (2009). “I Don’t Think This Is Theoretical; This Is Our Lives: How Erasure Impacts Health Care for Transgender People”, *Journal of the Association of Nurses in AIDS CARE*, 20(5), 348-361.

**Topic 4, October 13, 2010: At the Intersection of Sexuality, Gender, and Health: Sara’s Story**

2ND WRITE UP DUE
Topic 5, October 20, 2010: Reproductive Health Practices and Moral Dilemmas: Male and Female Circumcision

-Informal class evaluation

Topic 6, October 27, 2010: In Class Mid-Term Examination

Topic 8, November 10, 2010: Doing Ethnography and the Challenges of Fieldwork

3RD WRITE UP DUE

Topic 9, November 17, 2010: Health and Healing in Post-Colonial Settings

*Applied assignments due.* This date is somewhat flexible based on your other course requirements.

Topic 10, November 24, 2010: Violence, Everyday and Gender-Based

**Topic 11, December 1, 2010: Bio-Technologies and the Redefinition of Life, Death, and Human Value**

4th WRITE UP DUE

**Week 12, December 8, 2010: Summary of course, discussion of final exam essay questions, and viewing of the film *Hedwig and the Angry Inch*.**
