HS 3630F Fall 2016  
Instructor: Dr. Treena Orchard

**Syllabus for HS 3630F: Sexuality, Gender & Health**

**Instructor:** Dr. Treena Orchard  
Class: Mondays 12.30-2.30 + Wednesdays 12.30-1.30  
Room: HSB-240  
Office Hours: 2.30-4.30 pm Mondays or by appointment, Rm 216 HS Bldg.  
E-Mail: torchar2@uwo.ca  
Teaching Assistant: TBA

**Course Description**  
This is an advanced undergraduate course in health sciences that explores how sexuality, gender, and health are experienced, valued, and socially constructed. The materials selected provide a sound overview of the basic concepts and theoretical approaches related to these three issues and also introduce students to some of the newer fields of research that are emerging. The more traditional areas of concentration include the body, heterosexuality and gender, reproductive health practices, HIV/AIDS, and health and healing in post-colonial settings. Topics that could be considered more cutting-edge include sex and gender among gay men and transgendered individuals, bio-technologies and the redefinition of life and death, structural/symbolic violence, and the ethical and emotional challenges of conducting fieldwork. By examining classic and modern contributions to these diverse fields of study, students will be equipped with foundational theoretical and methodological skills as well as a critical awareness of how health is experienced, embodied, and impacted by larger factors of economy, politics, gender, and sexuality.

**Class Format**  
The basic format for each class will be as follows: an overview of class objectives and an interactive lecture led by me with significant class discussion and involvement. Although I lead our lecture and discussions of the assigned readings and some additional contextual information, students are encouraged to participate and share their perspectives as much as possible.

**Evaluation**

<table>
<thead>
<tr>
<th>Component</th>

<td>Applied Assignment</td>
<td>35%</td>
</tr>
<tr>
<td>Final Exam</td>
<td>40%</td>
</tr>
</tbody>
</table>

**Details**

**Class Participation and Attendance (5%)**  
Given the relatively small size of the class and the marks allotted to attendance, you must take part in every class. Regular, punctual class attendance is critical and any absence, along with repeatedly late arrivals to class, will affect your mark.

**Write-Ups (20%)**  
During the course of this class you will write two critical summaries based on in-class readings of your choosing, and each one is worth 10% of your total mark. While this may seem like a lot of writing, in an upper year class like this illustrating how you understand and apply aspects of the
readings is very important. This approach also helps ensure that you are completing the assigned materials and allows for feedback on your writing skills and analytical development.

Each assignment should be 2 double-spaced pages or between 500-600 words, and if you exceed this limit marks will be deducted. Each write-up must contain an introductory paragraph, which introduces the topic of the assignment, a description of the 2-3 main points or themes to be explored from the readings, and a concluding sentence that clearly articulates the importance of your topic in relation to the broader subjects of sexuality, gender, and/or health. The next portion of the write-up, the body section, is where you discuss your perspectives regarding the 2-3 points that constitute the focus of the assignment. I recommend that 1-2 well-organized paragraphs be used to analyze each point to be discussed. In academic writing, one paragraph consists of 5-7 sentences, and this rule must be adhered to. Each assignment must wrap-up with a concluding paragraph, which summarizes the main points examined and reiterates the importance of your topics with respect to sexuality, gender, and/or health. This paragraph must contain original writing and not be cut and pasted from the introductory paragraph. Use APA style for in text citations and references (2-3), which can be on a separate page. ONLY paper copies handed in class will be accepted.

**Applied Assignment (35%)**

Representations of sexuality, gender, and health are produced in a myriad of different ways depending upon the contexts, cultures, and time period in which they are based. They are also experienced in a myriad of different ways depending upon the issues being explored. For this assignment, each student will select a specific issue and/or population related to sexuality, gender, OR health that are of specific interest to you. I want you to do your own independent research on this issue or population and to examine how these issues and/or groups are represented or thought about in mainstream society and how that differs from their lived experiences—which you will learn about through your research into the qualitative, ethnographic, and critically-informed research literatures. I also want you to discuss how the issues you have focused on have informed or complicated how you understand sexuality, gender and/or health (i.e., 1 or 2 pghs as part of the Conclusion). Some examples: ‘Comparing social discourses on the masculine body among gay men in movies and research’; ‘The importance of love: how women’s ideas about love in magazines compare to their lived experiences’; Silenced sexualities: FGM in popular discourse and real women’s lives.’

Each student is required to describe the selected topic, the specific issues in relation to the topic that will be examined in the assignment, situate the issues to be examined within the published literature on the area(s), analyze (not describe) the main themes for the assignment, and provide a concluding discussion regarding the significance of your selected topics/issues in relation to your broader understandings of sexuality, gender, and/or health. The assignment should be 8-10 pages, including references (8-10 academic references, no Internet sources unless this is your selected “context”), and be double-spaced. Specifics with respect to paragraph structure, introductory and concluding sections, and APA referencing and in-text citation are the same as the guidelines for the write-ups described above. I will post examples on Sakai to give you a sense of how this assignment has been approached by other students who have taken our class. It is advisable to arrange a brief meeting with me before you begin your research, to make sure that you are on the right track.
Final Exam (40%)  
The final examination is comprehensive and will consist of short answers (30%) and 2 essay questions (35% each). The short answers are primarily from the first few lectures and I will hold a vote towards the end of class, during which you indicate the top 6 lectures from the term. I will then devise the essay questions based on these lectures. The essay questions are very open-ended, which gives you ample room to answer them in your own voice.

Grading scheme:  
I use the format provided below for grading, which is the university-wide scale that has been approved by the UWO Senate. It should also be noted that I DO NOT round grades up and a 79% is a 79% and not an 80%.

<table>
<thead>
<tr>
<th>Grade</th>
<th>Percentage</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+</td>
<td>90-100</td>
<td>Exceptional</td>
</tr>
<tr>
<td>A</td>
<td>80-89</td>
<td>Superior work, above average.</td>
</tr>
<tr>
<td>B</td>
<td>70-79</td>
<td>Good work, meeting all requirements, and eminently satisfactory.</td>
</tr>
<tr>
<td>C</td>
<td>60-69</td>
<td>Competent work, meeting requirements.</td>
</tr>
<tr>
<td>D</td>
<td>50-59</td>
<td>Fair work, minimally acceptable.</td>
</tr>
<tr>
<td>F</td>
<td>below 50</td>
<td>Fail</td>
</tr>
</tbody>
</table>

Policies:  
Late assignments  
This class is evaluated primarily through examinations, which must not be missed unless in the case of a medical condition, family emergency, or other unforeseen circumstances. A note from your Physician indicating the nature of your condition must be submitted to the School of Health Studies Main Office, and only upon receipt of such a letter will I reschedule an examination. You may visit Western’s Policy on Accommodation for Medical Illness at: https://studentservices.uwo.ca/secure/index.cfm for further details. With respect to the written assignments, nothing past the due dates will be accepted without a Doctor’s note, and the extended deadline will only be up until 1 week after original due date.

Electronic devices  
Cellular phones must be turned off during class and lap-top computers will only be allowed to be open during lectures if you are making notes regarding lecture materials.

Student Code of Conduct  
The purpose of the Code of Student Conduct is to define the general standard of conduct expected of students registered at The University of Western Ontario, provide examples of behaviour that constitutes a breach of this standard of conduct, provide examples of sanctions that may be imposed, and set out the disciplinary procedures that the University will follow. For more information, visit http://www.uwo.ca/univsec/board/code.pdf.

English Proficiency for the Assignment of Grades  

Accommodation for Medical Illness or Non-Medical Absences  
http://www.uwo.ca/univsec/handbook/appeals/accommodation_medical.pdf  
The University recognizes that a student’s ability to meet his/her academic responsibilities may, on occasion, be impaired by medical illness. Illness may be acute (short term), or it may be
chronic (long term), or chronic with acute episodes. The University further recognizes that medical situations are deeply personal and respects the need for privacy and confidentiality in these matters. However, in order to ensure fairness and consistency for all students, academic accommodation for work representing 10% or more of the student’s overall grade in the course shall be granted only in those cases where there is documentation indicating that the student was seriously affected by illness and could not reasonably be expected to meet his/her academic responsibilities.

A UWO Student Medical Certificate (SMC) is required where a student is seeking academic accommodation. This documentation should be obtained at the time of the initial consultation with the physician or walk-in clinic. An SMC can be downloaded under the Medical Documentation heading of the following website: https://studentservices.uwo.ca/secure/index.cfm. Documentation is required for non-medical absences where the course work missed is more than 10% of the overall grade. Students may contact their Faculty Academic Counselling Office for what documentation is needed.

Whenever possible, students who require academic accommodation should provide notification and documentation in advance of due dates, examinations, etc. Students must follow up with their professors and their Academic Counselling office in a timely manner. Documentation for any request for accommodation shall be submitted, as soon as possible, to the appropriate Academic Counselling Office of the student’s Faculty of registration. For BHSc students, you may go to the School of Health Studies Office in HSB room 222.

Scholastic Offences
Scholastic offences are taken seriously and students are directed to read the appropriate policy, specifically, the definition of what constitutes a Scholastic Offence, at the following website: http://www.uwo.ca/univsec/handbook/appeals/scholastic_discipline_undergrad.pdf.

Additionally,
1. All required papers may be subject to submission for textual similarity review to the commercial plagiarism detection software under license to the University for the detection of plagiarism. All papers submitted for such checking will be included as source documents in the reference database for the purpose of detecting plagiarism of papers subsequently submitted to the system. Use of the service is subject to the licensing agreement, currently between The University of Western Ontario and Turnitin.com (http://www.turnitin.com).
2. Computer-marked multiple-choice tests and/or exams may be subject to submission for similarity review by software that will check for unusual coincidences in answer patterns that may indicate cheating.

Support Services
There are various support services around campus and these include, but are not limited to:
1. Student Development Centre -- http://www.sdc.uwo.ca/ssd/
2. Student Health -- http://www.shs.uwo.ca/student/studenthealthservices.html
3. Registrar’s Office -- http://www.registrar.uwo.ca/
4. Ombuds Office -- http://www.uwo.ca/ombuds/
Creating a “healthy” classroom
Teaching and learning is a two-way process and to ensure the best and most productive experience for us all I ask that we all be considerate of the following: arrive on time, do not be disruptive, respect one another, and be willing to challenge yourself.

REQUIRED Materials: available in the Bookstore
- Course Reading Package: available in Bookstore

First class, September 12 & 14, 2016: Introduction to the course and to one another. Viewing of the film Quinceanera and class discussion

Topic 1, September 19 & 21, 2016: Overview and Key concepts

Topic 2, September 26 & 28, 2016: The Body

Topic 3, October 3 & 5, 2016: ‘Other’ Sexualities and Genders: Experiences of Gay Men and Transgendered People
**FIRST WRITE-UP DUE October 3
Schilder, Arn; Treena Orchard; Christoph Buchner; Mary Lou Miller; Kim Fernandes; Steffanie Strathdee; and Robert Hogg (2008). ‘It’s like the treasure’: Beliefs Associated with Semen Among Young HIV-Positive and HIV-Negative Men Who Have Sex With Men. Culture, Health & Sexuality, 10(7), 667-679.
