Research Participants Needed

We are looking for working women who have a hearing loss, and are over the age of 18 to participate in a research study.

The study is designed to better understand the experiences of, and use of resources by women who are working and have a hearing loss.

The study will be conducted at the National Centre for Audiology at Western University and will require one interview lasting approximately 90 minutes as well as up to 2 follow-up interviews lasting approximately 30 minutes each.

If you would like further information about the study and how to participate, please contact
