

Effective September 1, 2017, Parking Services is changing the process of how Motorcycle permits are administered.

What's Changing?

Motorcycle permits will now be sold as an annual permit (12 month period). Monthly permits are no longer available.

When is this effective?

These new changes go into effect ***September 1, 2017***

What does it mean for me?

No more stickers! Our new, annual permit will be a virtual permit with no sticker or hang tag required. No trip to the Parking office is required.

Existing vehicle permit holders can add a motorcycle to their permit for free! If your permit is paid for through annual payroll deduction, you never have to renew.

Motorcycle permits not linked to an existing vehicle permit will need to be renewed annually.

Add your motorcycle to your existing account by logging into FlexPort, selecting "View Your Permits", selecting your permit and click the "add vehicles to permit" button.

Please contact our office if you require assistance at wparking@uwo.ca.

Thank you for your support,

Your Western Parking & Visitor Services Team
