

In early 2017, Parking & Visitor Services changed the process of how Retiree permits were administered.

What's Changing?

Permits for retirees no longer need to be renewed, ever!

When is this effective?

These changes came into effect earlier this year. There is no action required on your part at this time.

What does it mean for me?

**Save time!** You no longer have to renew your parking permit or visit the Parking Services office this Fall. Your permit is valid for as long as you would like to have it.

Changes to vehicles information, addresses and email addresses can be made using our online portal. Maintain your account at [www.uwo.ca/parking](http://www.uwo.ca/parking).

Do I already have an updated permit?

If your current parking permit looks like the permit pictured below, then you already have a new parking permit and there is no need for you to visit the Parking office.

If your permit does not look like the permit pictured below, please visit our office to obtain an updated permit.

Please contact our office if you require assistance at [wparking@uwo.ca](mailto:wparking@uwo.ca).

Thank you for your support,

Your Western Parking & Visitor Services Team
