

In early 2017, Parking Services changed the process of how Service/Emergency permits were administered.

What's Changing?

Service/Emergency permits no longer need to be renewed. Permits will remain active as long as they are required.

When is this effective?

These changes took place earlier this year. No action is required on your part, at this time!

What does it mean for me?

If you currently have a Service/Emergency permit, you are no longer required to do anything to renew your permit. Renewals are now done automatically.

Service permits will be monitored and departments will be contacted if there is indication that they are no longer being used.

If you have any questions regarding your Service/Emergency permit, please contact our office at wparking@uwo.ca.

Thank you for your support,

Your Western Parking & Visitor Services Team
