NEW FOR 2017 - 18

Philosophy and Climate Change

Philosophy 2356G
Tuesday 10:30 - 11:30
Thursday 10:30 - 12:30

Explore the issues related to climate change, including problems of knowledge in climate science; making choices when outcomes are deeply uncertain; international justice in climate policy; weighing harms to future generations and to non-human nature; the moral significance of risk of human extinction; and revision of cultural values.
