# QUESTIONS OF THE DAY

Monday, Wednesday 1:30 - 2:30, plus tutorial

---

Develop your ability to approach disputed questions by seeing them from both sides so that you reach your own view after respecting a range of arguments. Six questions will be considered, among them:

What is cultural appropriation and is it always bad?

How open should the Canadian border be to refugees, new citizens, or temporary workers?

Should the government classify people according to their sex or gender on official identity documents?
