Print Form

Date of Interruption/Closure: Dec 8, 2016

Time(s): 6:00am - 7:00am and 5:15pm - 6:15pm

Building(s) Affected: #1 Graphic Services Building (GSB)

#2

#3 Advanced Facility For Avian Research (AFAR)

#4

Areas/Rooms Affected Alternate Route/Service:

The entire Graphics building will be "Closed" and without power including emergency power to facilitate temporary power connections to the building during times listed. The alternate source of power after connections are made, will be the AFAR emergency generator.

Service to be interrupted: #1 Electrical Power

#2

#3

#4

Description/Reason for Project:

This project will make available 4160 volt feeders from the West Substation. Cable installed will support future North Substation maintenance activities by providing alternate sources of supply to existing loads during those times when the North Substation is taken off line for maintenance. The buildings are Lambton Hall, Saugeen, Bayfield, Beaver/Ausable, Graphics Service, Avian Research and Support Services.

Notes: There will be a short period of time during each of the two outages where the AFAR generator will not be available for emergency power to AFAR. Each of these periods will be kept to a minimum (approximately five minutes or less).
