 Print Form

Date of Interruption/Closure: **Revised: Aug 8 - 30, 2016** Time(s): 7:00am to 5:00pm

Building(s) Affected: #1 Lambton Hall Residence (LHR) #2 Saugeen-Maitland Residence (SMHR)
 #3 #4

Areas/Rooms Affected Alternate Route/Service:
 It is proposed that a horizontal drilling rig will be set up at the corner of Western Road and Wellington drive. Pedestrian traffic may be affected during this time. Construction barricades will be in place. Road restriction will be intermittent during the drilling operations with drilling rig support equipment moving in and out of the site. See attached map.

Service to be interrupted: #1 Road restrictions. (single lane access). #2 Side walk
 #3 #4

Description/Reason for Project:
 This project will be installing 2-5" ducts to make available 4160 volt feeders from the West Substation. Cable installed will support future North Substation maintenance activities by providing alternate sources of supply to existing loads during those times when the North Substation is taken off line for maintenance. The buildings are Lambton Hall, Saugeen, Bayfield, Beaver/Ausable, Graphics Service, Avian Research and Support Services.

Notes: Single lane traffic will be maintained throughout this project. Vehicular and pedestrian traffic will experience congestion during parts of this work but access will be maintained.

Stecho HVC will be installing a new section of duct bank between MH-28 and MH-122 as shown. The majority of this work will be performed by way of horizontal directional drilling.
