Notes:

The contractor will be lifting large concrete precast panels into the area of this pedestrian pathway. Due to the inherent danger to pedestrians we will be closing the path while this work is being done. As soon as the overhead risk has been eliminated, the path will be reopened. We understand that this path provides barrier free access to and from the UCC building through the parking lot area. The contractor will provide safe passage through the pathway to those requiring barrier free access to and from UCC.
