

BUILD AN AMBITIOUS ACADEMIC VISION AND STRATEGIC PLAN
Chair/Chief of the Department of Medicine

The Schulich School of Medicine & Dentistry, The University of Western Ontario, London Health Sciences Centre and St. Joseph's Health Care London

If effecting change on a larger scale is part of your career plan, here is the opportunity to advance academic and clinical programs on multiple fronts with three world-class healthcare institutions. As Chair of the Department of Medicine at The University of Western Ontario's Schulich School of Medicine & Dentistry, your experience and insight will underpin the creation of an all-encompassing strategic vision for the future. You will also assume a senior medical leadership position at two academic health sciences centres, the London Health Sciences Centre and at St. Joseph's Healthcare, to extend your strategic academic vision into a clinical environment.

The Department of Medicine at the Schulich School has 175 members representing fifteen Academic Divisions responsible for \$30 million in annual research expenditures. The globally-recognized researchers are active in both clinical and basic research at the hospitals and their affiliated research institutes. Through its focus on academic excellence in research and education, The Department of Medicine has created advanced programs in Experimental Medicine and Centres of Excellence in Translational and Patient Oriented Research. The hospitals, which have a total of 1100 inpatient beds on four sites, provide a full range of inpatient and ambulatory services to the City of London and Southwestern Ontario, a population of more than 1.5 million people.

Along with your credentials in a senior medical leadership role and track record in research, patient care, teaching, and academic leadership, you are an accomplished clinician (with FRCPC certification or equivalent) and are eligible for licensure in the Province of Ontario. If you're ready to share your academic and clinical vision on a larger scale, the City of London, the Province of Ontario and Canadian healthcare systems will look to you for a healthier future for all.

Details about the Schulich School of Medicine & Dentistry can be found at www.schulich.uwo.ca; The University of Western Ontario at www.uwo.ca; London Health Sciences Centre at www.lhsc.on.ca; and St. Joseph's Health Care at <http://www.sjhc.london.on.ca>.

To explore this opportunity further, please contact Penny Mirams, Partner or Jessa Chupik, Consultant at Odgers Berndtson at 416-366-1990 x325, or confidentially by e-mail to jessa.chupik@odgersberndtson.ca. Review of applicants will begin after February 3, 2011.

Positions are subject to budget approval. Applicants should have fluent written and oral communications skills in English. All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority. The University of Western Ontario, London Health Sciences Centre and St. Joseph's Health Care London are committed to employment equity and welcomes applications from all qualified women and men, including visible minorities, aboriginal people and persons with disabilities.
