London’s Research Row is a new concept used to illustrate a geographical band that is home to a large number of London’s research-based institutions. The Row, which employs nearly 2,000 researchers and conducts more than $330 million in research annually, runs in a notional straight line from Western’s Research Park south to the London Health Sciences Centre’s Victoria Hospital campus and includes all of London’s hospitals, Lawson Health Research Institute, National Research Council, CSTAR, Children’s Health Research Institute and The University of Western Ontario.

London’s research assets include the following:

1. WORLDiscoveries™
2. The University of Western Ontario
3. Robarts Research Institute
4. Lawson Health Research Institute
5. London Health Sciences Centre
7. Children’s Health Research Institute
9. Canadian Surgical Technologies and Advanced Robotics (CSTAR)
10. Western’s Research Park, London
11. The Biotron Experimental Climate Change Research Centre
12. Surface Science Western
13. Schulich School of Medicine & Dentistry
14. Boundary Layer Wind Tunnel Laboratory
15. Particle Technology Research Centre
16. The Stiller Centre for Technology Commercialization
17. London Economic Development Corporation
18. TechAlliance
