The ICS Program is designed to foster community development by providing grants and awards to individuals and organizations for the purposes of:

• Aiding research and knowledge translation activities where the circumstances fall outside of CIHR's current suite of funding programs.
• Supporting individuals and organizations whose goals are consistent with CIHR and its Institutes' vision, mandate and strategic directions.
The Institutes' contributions to these activities helps to fulfill their role and the role of CIHR in raising awareness of the importance and value of health research to the health of Canadians, to strengthening the health system, and to contributing to the economy.

**Eligibility:** The ICS Program is not intended to support the direct cost of research (e.g., pilot projects, feasibility studies or operating grants), principal and co-investigator salaries or research equipment. Global Health Research and International Research Collaboration are eligible.

**How to Apply for IDRC funding (outside the competitions)**

IDRC supports research on the following themes: Agriculture and environment, Information and communication technologies for development, Social and economic policy. We also work with Canada’s development research community to examine and address important global issues. Our programs include: Canadian Partnerships, Development Innovation Fund, Canadian International Food Security Research Fund, Fellowships and Awards, Global Health Research Initiative, IDRC Challenge Fund.

Steps:

1. **Share our vision:** Before approaching us, we recommend that you familiarize yourself with our approach and priorities. You can do this by reviewing our website or reading the **IDRC Strategic Framework 2010-2015**.
2. **Propose your idea:** Have a great research idea you want to pursue? First, contact the relevant program officer who can advise you about regional and thematic priorities. Please consult our Programs Page to see a list of programs and program staff.
3. If we’re interested in your idea, we will follow up with you within 12 weeks to invite you to submit a full proposal.
4. **Write a detailed proposal:** If your idea is accepted, you will be asked to write a detailed proposal. For more information, review our How to apply for a research grant document, or our detailed guide to writing proposals.

For more information including assistance with development process contact: Melanie Katsivo PhD at extension 87970 or [mkatsivo@uwo.ca](mailto:mkatsivo@uwo.ca)

---

**The MacArthur Foundation:** Focus of support includes improving the sexual and reproductive health of women and young people, advancing human rights, and strengthening universities and scholarly infrastructure in India, Mexico, Nigeria, and Russia.

No fixed application deadlines

Steps:

1. Submit a Letter of Enquiry about the work being proposed.
2. Full proposal upon acceptance of Letter of Enquiry.

FULBRIGHT CANADA SPECIALISTS PROGRAM

Bring the expertise of a senior U.S. scholar to your institution through a short-term Fulbright Specialist Grant!

The Fulbright Specialists Program is designed to provide U.S. and Canadian faculty and professionals with opportunities to collaborate on curriculum and faculty development, institutional planning and a variety of other activities. Canadian universities who are interested in having a U.S. faculty member on-campus for two to six weeks are encouraged to apply. International travel costs and an honorarium are funded by the Fulbright Program. Participating host universities cover grantee in-country expenses or provide in-kind services. A continuously expanding roster of American faculty and professionals has been developed in order to respond effectively to requests from Canadian institutions for Fulbright Specialists.

Specialists may engage in any of the following activities at their Canadian host institution:

1. Conduct needs assessments, surveys, institutional or programmatic research
2. Take part in specialized academic programs and conferences
3. Consult with administrators and instructors of post-secondary institutions on faculty development
4. Present lectures at graduate and undergraduate levels
5. Participate in or lead seminars or workshops at overseas academic institutions
6. Develop and/or assess academic curricula or educational materials
7. Conduct teacher-training programs at the tertiary level
