- **1.0 elective course** (Must do 1.0 of Category A or B requirement)

### Points to Consider:
- Biology, Chemistry, Computer Science, and Math are included in the 4.0 principal courses. Need a 70% average on 4.0 principal courses with no mark less than a 60%.
- Biology 1201A with a mark of at least 70% may be used in place of Biology 1001A, and Biology 1202B with a mark of at least 70% may be used in place of Biology 1002B.
- This module concentrates on the computational aspects of bioinformatics, while at the same time providing students with enough background in the biosciences to appreciate the contexts in which computation is applied. The Honors Specialization in Bioinformatics leads to a degree that is accredited by the Computer Science Accreditation Council, the academic arm of the Canadian Information Processing Society, under its interdisciplinary program criteria.
