Effective September 1, 2007, the Area of Concentration: Business Law will be amended to read as shown below, in the Faculty of Law (p. 117 of the 2007 academic calendar)

BUSINESS LAW

Designed for students interested in business law, the objective of this area of concentration is to allow students to develop knowledge and expertise in business law and policy. Students who complete the Area of Concentration: Business Law within the LL.B. program will have the notation "Area of Concentration: Business Law" included on their transcripts. In order to receive the designation on his or her transcript, a student must inform the Director of the area of concentration by the end of the add-drop period of the spring semester in third year of his or her intention to complete the program. It is envisioned, however, that students would preliminarily declare their interest to the Director before the end of the fall term add-drop period of second year. Students will be given no registration priority in respect of the courses in the Area of Concentration: Business Law and must bid sufficient points to gain entry into the appropriate classes. There is no limit on the number of students eligible for this area of concentration.

All students in the Area of Concentration: Business Law are required to complete a research paper in the area that meets the criteria for the standard writing requirement necessary for graduation. The topic of the research paper must be approved by the Director. This research paper need not be in addition to the standard writing requirement.

Students may, with the approval of both Directors, complete a single paper that satisfies the writing requirements in two areas of concentration, but the paper must be worth at least 3 credits; it cannot, therefore, be worth only 50% of a 4-credit course.

In addition to these requirements, all students in the Area of Concentration: Business Law are required to complete the following courses:

Module One: Mandatory Courses

All of the following:

403. Corporate Law -- 4 credits

438. Income Taxation -- 4 credits

PHYSICAL ACTIVITY SKILLS AND COACHING COURSES

Kinesiology physical activity Skills and Coaching courses refer to Kinesiology quarter (0.25) courses 2202-2224Q/R/S/T, 3302-3322Q/R/S/T.

Each of Kinesiology 2202Q/R/S/T-2224Q/R/S/T, 3302Q/R/S/T-3322Q/R/S/T is a quarter-course, 5 lecture/lab hours per week for a 6-week term. The 6-week term is designated with the suffix Q, R, S, or T. **A maximum of four Physical Activity quarter-courses (or equivalent) must be selected in each of second and third year. One quarter course per 6-week term, may be taken during any academic year.** No more than twelve 0.25 (or equivalent) activity courses are allowed in any Kinesiology degree. Special permission will be required for any activity courses selected beyond the required maximum of eight 0.25 courses (or equivalent).

Prior to graduation, a student must complete a minimum of eight 0.25 courses (or equivalent) in all Kinesiology degree programs, unless designated otherwise. A student must complete one Kinesiology quarter-course as follows.

For details go to http://www.uwo.ca/fhs/kin/courses/activity_skills_coaching_courses.htm

- one aquatic activity
- one racquet activity course
- one individual-based activity
- one team-based activity

Some of these activity courses may require additional expense by the student.

A maximum of one full or equivalent Dance course from the selection of Dance 2275A/B, 2276A/B, 2277A/B may be combined with or replace Physical Activity Skill or Coaching courses. For example: Dance 2275A (Sept. to Dec.) and Kinesiology 2205S + 3305T (Jan. to April).

Effective September 1, 2007, the course prerequisites for Kinesiology 377F/G: The Canadian Sport System, will be changed to read as indicated below by the Faculty of Health Sciences.

Kinesiology 377F/G: The Canadian Sport System

The central purpose of this course is to examine current issues in the sport, physical activity and recreation systems in Canada. An overview of Canada's sport system will be presented, including, governments and sport (federal, provincial and municipal), sport and education, national sports organizations and commercial/professional sport and recreation.

Antirequisite(s): Kinesiology 471b, if taken in 2003-04, 2004-05, or 2005-06

Prerequisite(s): Kinesiology 250a/b or 263F/G.

3 lecture hours, 0.5 course

Effective September 1, 2007, Kinesiology 430F/G: Exercise Physiology: Muscle, will be revised by the removal of the Co-requisite, and will read as indicated below.

Kinesiology 430F/G: Exercise Physiology: Muscle

This course will focus on the structure and function of skeletal muscle with a particular emphasis on muscle plasticity and the adaptive response to exercise.

Prerequisite(s): Kinesiology 230a/b

2 lecture hours, 1 tutorial hour, 0.5 course.

Note: Priority to BSc(Hon) Kinesiology students

Effective September 1, 2007, Kinesiology 489a/b: International Sport Management, will be introduced by the Faculty of Health Sciences.

Kinesiology 489a/b: International Sport Management

This online Web CT course provides an international perspective on sport management through detailed case studies delivered by instructors at partner universities. The case studies present topics and issues that have global relevance. This international learning opportunity is provided through collaboration with students in other countries.

Antirequisite(s): Kinesiology 473a/b, if taken in 2003-04, 2004-05, 2005-06, 2006-07.

Prerequisite(s): 1.0 course from: Kinesiology 298a/b, 398F/G, 399a/b.

All aspects of the course are administered through Web CT. Therefore, there are no designated lecture, lab, or tutorial hours, 0.5 course

Effective May 1, 2008, Kinesiology 2032A/B: Research Design in Human Movement Science, will be introduced by the Faculty of Health Sciences.

Kinesiology 2032A/B: Research Design in Human Movement Science

An introduction to the basic aspects of reading, interpreting, evaluating, and presenting research in order to better understand the research process in physical activity. Measurement and data collection techniques from physical and social science areas of kinesiology will be examined using both quantitative and qualitative research designs employed in movement science.

Antirequisite(s): The former Kinesiology 332a/b

Pre or Co-requisite(s): Any 1.0 or 0.5 statistics course

2 lecture hours; 2 laboratory hours every three weeks, 0.5 course

FACULTY OF SCIENCE***EARTH SCIENCES***

Effective September 1, 2007, Earth Sciences 240F/G: Catastrophic Events in Earth History, will be modified and the prerequisites be removed.

Earth Sciences 240F/G: Catastrophic Events in Earth History

Study of events so catastrophic they left evidence in the geologic record and threatened survival of life on Earth. Included are: extraterrestrial impacts, gigantic volcanic eruptions, mega-earthquakes and tsunamis, dramatic atmospheric oxygen changes. Interpretation is based upon knowledge of current natural processes. Philosophy of interpretation of science is reviewed.

Antirequisite(s): Earth Sciences 241a/b, or the former 240a/b

The equivalent of 3 lecture hours per week. Offered only on-line (see Western Distance Studies); 0.5 course.

Effective September 1, 2007, Earth Sciences 261a/b: Biospheric Interactions Through Time, will be revised by removing the prerequisite and adding the Co-requisite shown below.

Earth Sciences 261a/b: Biospheric Interaction Through Time

This course explores the significance of life on Earth, past and present. Topics include ecological revolutions, mass extinctions, roles of life in the mediation of physical and chemical processes in the lithosphere, hydrosphere and atmosphere, controls on global biodiversity patterns, and case histories of selected invertebrate and vertebrate groups.

Corequisite: Earth Sciences 200a/b, or permission of the Department.

2 lecture hours, 2 laboratory hours, 0.5 course

Effective September 1, 2007, the antirequisites for Earth Sciences 281b: Geology for Engineers, will be revised and the course will be available in either a- or b- term.

Earth Sciences 281a/b: Geology for Engineers

Introduction to physical geology with emphasis on the engineering oriented aspects of the Earth Sciences. Topics include: minerals and rocks; mass movements; interpretation of aerial photographs, topographic and geologic maps; surficial processes and their manifestations; surface and ground water; structural geology and subsurface processes; and earth resources.

Antirequisite(s): Earth Sciences 022a/b, 081a/b, 123a/b, or the former Earth Sciences 020, 082a/b

Prerequisite(s): Registration in second, third or fourth year Civil and Environmental Engineering, or permission of the Department.

2 lecture hours, 3 laboratory hours, 0.5 course.

Effective September 1, 2007, Earth Sciences 423a/b: Applied Seismology, and 425a/b: Global Seismology, will be revised by removing the antirequisite and revising the prerequisites.

Earth Sciences 423a/b: Applied Seismology

Advanced concepts in the application of seismic-reflection and refraction techniques for exploration of the subsurface. Topics include: elastic wave propagation fundamentals; prestack and post-stack data processing and analysis; deconvolution of time series data; seismic migration; inversion of travel time data; amplitude-versus offset analysis; 3-D seismic interpretation.

Prerequisite(s): Earth Sciences 220a/b, 222a/b or the former 322a/b; Calculus 251a/b or 281a/b.

2 lecture hours, 3 laboratory hours, 0.5 course.

Earth Science 425a/b: Global Seismology

Advanced concepts in earthquake rupture dynamics and seismic analysis of global earth structure. Topics covered will include: seismic wavefield theory; seismic sources and source parameters; synthetic seismograms; global seismic tomography; methods of teleseismic data analysis.

Prerequisite(s): Earth Sciences 220a/b, 222a/b or the former 322a/b; Calculus 251a/b or 281a/b.
2 lecture hours, 3 laboratory hours, 0.5 course.

Effective September 1, 2007, the the admission requirements and module courses for the following will be revised (pp. 153 -155 of the 2007 academic calendar):

HONORS SPECIALIZATION IN GEOLOGY

Admission Requirements

Completion of first-year requirements with no failures. Students must have completed 3.0 principal courses, with a minimum of 60% in each and a minimum average of 70%.

At least 2.0 courses from Chemistry (020 or 023), Physics (021, 024, or 028a/b and 029a/b), and Biology (022 or 023) plus 1.0 additional course (to make the total of 3.0 courses).

Additional requirements (which may be counted towards the 3.0 principal courses)

1.0 courses from: Mathematics 030 or Calculus 050a/b and one of Calculus 051a/b, 081a/b, 091a/b, Linear Algebra 40a/b, Statistics 024a/b. This requirement must be completed by the end of second year.

Module

10.0 courses:

8.0 courses: Earth Sciences 123a/b, 200a/b, 201a/b, 206a/b, 230a/b, 250y, 260a/b, 265a/b, 310a/b, 313a/b, 314a/b, 315a/b, 340a/b, 350y, 370a/b, 400a/b

1.0 additional course in Earth Sciences at the 300 level or above

1.0 course: Earth Sciences 490E with a mark of at least 70%

Note: If Earth Sciences 023a/b has been taken, Earth Sciences 123a/b cannot be taken.

HONORS SPECIALIZATION IN GEOPHYSICS

Admission Requirements

Completion of first-year requirements with no failures. Students must have an average of at least 70% and no mark less than 60% in the 3.0 principal courses listed below:

Calculus 050a/b and 051a/b or 081a/b; or Applied Mathematics 026

Physics 020 or 024 or the former Physics 022 or 025

At least 1.0 course from: Earth Sciences 022a/b, 023a/b, 081a/b or the former Earth Sciences 020, Chemistry 020, 023, 024a/b, Linear Algebra 040a/b

Notes:

At least a 0.5 course in Earth Sciences is recommended in first year.

If not taken in first year, Linear Algebra 040a/b must be completed before the beginning of third year.

Module

9.0 courses:

1.5 courses: Earth Sciences 200a/b, 220a/b, 222a/b or the former 322a/b

0.5 course from: Earth Sciences 201a/b, 206a/b

0.5 course: Differential Equations 215a

1.0 course: Physics 259E

1.0 course from: Calculus 250a/b and 251a/b, or 280a/b and 281a/b

0.5 course from: Applied Mathematics 315a/b, Statistical Sciences 241a/b, 243a/b

MINOR IN ADVANCED STUDIES IN EARTH AND PLANETARY SCIENCES

This minor in combination with a Honors Specialization module is recommended as preparation for graduate school and professional geoscience accreditation.

Admission Requirements

Enrolment in an Honors Specialization in Geology, Geophysics, Geology and Biology, Environmental Geoscience, Planetary Science, or Material Science

Module

4.0 courses:

3.0 courses in Earth Sciences at the 300 level or above which are not being used towards any Honors Specialization in Geology, Geophysics, Geology and Biology, Environmental Geoscience, Planetary Science or Material Science module

1.0 additional course at the 300 level or above from any faculty

Note:

Students enrolled in the Honors Specializations in Geology and Geology and Biology must include Earth Sciences 450y; students enrolled in Honors Specializations in Geophysics and Environmental Geoscience should include Earth Sciences 451y in their selection.
