Re: President’s Report to the Board

For the September 26, 2017 Board of Governors meeting, I’m pleased to provide the following update on important developments and achievements since the last meeting of the Board on June 22, 2017.

**Welcoming our newest students:** Western has welcomed a new incoming undergraduate class of nearly 5,100 first-year students, along with our returning upper-year undergraduate and graduate students. As we have seen in recent years, more than 10% of our first-year cohort has arrived on campus from countries other than Canada, this year most predominantly from China, India, Republic of Korea, United States, Pakistan and Syrian Arab Republic.

**Federal response to “Naylor Report”:** On August 17, federal Minister of Science, Kirsty Duncan, released a formal response to the report submitted to her last spring by an expert panel chaired by former University of Toronto president Dr. David Naylor, whose mandate was to review the federal system of supports for “extramural” research — defined as research conducted by scientists and scholars employed outside of federal, provincial, or territorial government departments and agencies. That report, titled *Investing in Canada’s Future: Strengthening the Foundations of Canadian Research*, concluded that Canada’s research competitiveness has eroded significantly in recent years, and the panel offered a wide-ranging list of recommendations aimed at repositioning our country as one seriously committed to global leadership in science and scholarly inquiry.

Minister Duncan’s response to the Naylor Report affirmed the importance of science as the foundation of innovation and praised the expert panel for the scope of its consultation and the rigour of its final recommendations. Her response also confirmed that the government plans to:

- establish a new advisory council on science and innovation, reporting to the Ministers of Science and ISED, with emphasis on openness and accountability;

.../2
• create a new coordinating board for the granting councils to improve harmonization and sustainability, for example by enabling researchers to apply for infrastructure and operating grants using a single application;
• separate the management and governance roles within CIHR’s senior leadership.

In solidarity with Universities Canada, Western welcomes these initial steps and will continue to advocate with other research-intensive universities for further government support in the next federal budget.

**Western scholars recognized for research excellence**: August and September brought an impressive list of prestigious accolades and financial awards for colleagues across a diverse range of disciplines:

• **Terry Peters** (Medical Biophysics) and **Patrick Mahon** (Visual Arts) have been named Fellows of the **Royal Society of Canada**, which represents the highest Canadian honour scholars can receive in the arts, humanities and sciences. Prof. Peters is an internationally recognized pioneer in medical imaging whose body of work spans four decades, while Prof. Mahon’s three decades as an artist and curator, in addition to his 25 years as a scholar and academic leader, have established his reputation on the national and international stage.

• **Lisa Saksida** (Physiology & Pharmacology, Psychology), **Mikko Karttunen** (Chemistry), **Clare Robinson** (Civil & Environmental Engineering), and **Haojie Mao** (Mechanical Engineering) have each been awarded **Canada Research Chairs**. As the Tier 1 CRC in Translational Cognitive Neuroscience, Prof. Saksida aims to develop novel treatments for neurodegenerative and neuropsychiatric disorders that diminish the quality of life for millions around the world. As the Tier 1 CRC in Computational Materials & Biomaterials Science, Prof. Karttunen is designing computer simulations capable of modeling bio-based materials with potential applications that include the treatment of cancer and other diseases. As the Tier 2 CRC in Water Quality, Prof. Robinson is developing knowledge and assessment tools for managing and mitigating pollution that contaminates coastal waters. As the Tier 2 CRC in Head Mechanics, Prof. Mao collaborates with neuroscientists and fellow engineers to develop computational and experimental methods to improve our understanding of the biomechanics behind traumatic brain injury.

• **Laura Huey** (Sociology) and **Sharon Sliwinski** (FIMS) have both been named to the Royal Society of Canada’s **College of New Scholars, Artists and Scientists**. Prof. Huey is an internationally recognized researcher in criminology, policing, surveillance and homeless, while Prof. Sliwinski is an interdisciplinary scholar whose work bridges the fields of visual culture, political theory and psychoanalysis.

• **The Canada Foundation for Innovation** has awarded nearly $1 million to four Western projects through the **John R. Evans Leaders Fund**. Recipients included **Mathias Dietz** (Communication.../3
Sciences and Disorders) for bilateral hearing assessment of cochlear implant subjects; **Alan Getgood** (Surgery) for mechanobiological solutions to joint injury and degeneration; **Patrick Lajoie** (Anatomy and Cell Biology) for an integrated platform for modeling neurodegenerative diseases; and David Bourget (Philosophy) for PhilNet: A Research Tool for Digital Philosophy.

- Four Western PhD candidates have been awarded **Vanier Canada Graduate Scholarships**, each receiving $50,000 annually for up to three years. They include **Christy Caudill** (Geology and Planetary Science), **Leanne Grieves** (Biology), **Marat Slessarev** (Medical Biophysics) and **Charles Yin** (Microbiology and Immunology).

- Indigenous Liaison Admission Coordinator **Erik Mandawe** has been named by the London Arts Council as our city’s first-ever Artist in Residence. A member of the Cree First Nation who, Erik is a recent graduate and Gold Medalist (BA, Music’17) and has now enrolled to continue his studies in the Schulich School of Medicine & Dentistry.

- On September 15, local MPs **Kate Young** and **Peter Fragiskatos** visited campus to announce the **2017 NSERC Discovery Grants & Scholarships** through which several Western researchers were awarded $20.6 million — the largest sum ever awarded to Western by NSERC.

- For the third year in a row, Western students competing in the Undergraduate Awards program sponsored by Trinity College in Dublin have ranked second in the world for the number of “highly commended” papers. All told, 39 Western students submitted a total of 43 highly commended papers — two of which (Bridget Murphy in Earth & Environmental Sciences, and Amy Lewis in Nursing, Midwifery & Allied Healthcare) have been recognized as global winners.

**Changing leadership at MAESD:** On September 6, the provincial government announced that Advanced Education & Skills Development Deputy Minister **Sheldon Levy** is stepping down from his role November 1 to assume a new role as CEO of Next Canada. Since the former president of Ryerson University was appointed deputy minister in December 2015, he has helped to lead several key funding, quality and student success initiatives. We wish Sheldon well in his new venture and look forward to working with his successor, **Greg Orencsak**, who has served in various senior government roles including Associate Deputy Minister of Finance, Deputy Minister of Government Services, Chair of the Public Service Commission and Deputy Minister of Treasury Board Secretariat. Most recently, Greg has been a partner in the Ernst and Young Canadian government and public sector practice.

**Western leadership update:** On June 22, Board of Governors Chair Hanny Hassan and I were pleased to announce the appointment of **Kathleen Kwan** as Western’s new University Secretary. Kathleen comes to Western from the University of Hertfordshire in the UK, where she has served as Director of Legal Services and University Solicitor since 2010. In her past role, Kathleen was the principal legal advisor to
senior university administration and Board of Governors on legal and governance issues, which included providing strategic advice and negotiation support on a wide range of operational and academic matters. For 10 years prior to her arrival at Hertfordshire, Kathleen was a solicitor in private legal practice with Mills & Reeve LLP in Cambridge, UK. While in private practice she advised over 40 Universities in the UK on a wide range of issues. Before that, she served as Secretary of Academic Council at Ryerson University and Judicial Officer at the University of Guelph. Kathleen holds a BSc (Psychology and Anthropology) and LLB from the University of Toronto, and she is currently Vice Chair (Chair Elect) for the Association of University Legal Practitioners in the UK.

On June 23, Lynn Logan was named Western’s new Vice-President (Operations & Finance). Lynn joined Western in 2006 and has served as AVP (Finance & Facilities) since 2013 and acting CFO, reporting to the President, since September 2016. In her new portfolio, Logan has overall responsibility for Financial, Hospitality, Retail and Campus Community Police Services, as well as Western’s Housing, Internal Audit, Legal Counsel, and Facilities Management & Capital Planning portfolios. Her portfolio encompasses more than 1,700 leaders and staff including oversight of Western’s financial activities of approximately $1 billion. The Facilities Management responsibilities include the development, maintenance and daily operations of the 93 building that are on campus and $300 million of projects under construction. Logan currently chairs the United Way Elgin & Middlesex board, is a member of Western University Research Parks board, and past executive member and past chair of the University Committee of Ontario Financial Officers). In 2016, Logan received the Distinguished Leadership Award from her Ontario peers.

On August 10, Laurie Arnott was named Western’s new Director of Faculty Relations. An alumna of Western Law, Laurie comes to us from the University of Waterloo where her most recent position was Employee and Human Rights Legal Counsel. Before then, she served the University of Guelph in the roles of Human Rights Consultant and Faculty Relations Consultant. Laurie’s career path and experience has run parallel to many aspects of the portfolio she oversees at Western, including advising on collective agreement and policy interpretation, employment contracts, grievances, collective bargaining, and other matters relating to the relationship between the University, faculty and other academic staff.

Meanwhile, the work of selection committees for the Provost & Vice-President (Academic) and the Deans of FIMS, Science, and the Ivey Business School continues. Finally, I was recently honored to be elected Chair of Council for the Association of Commonwealth Universities, the world’s oldest international university network, established in 1913. The ACU champions the vital role higher education plays in addressing global challenges and leading positive social change through a range of campaigns and initiatives. The ACU Council meets at least twice a year, and I look forward to representing Western as a member of this UK-registered charity whose membership includes over 500 member institutions in more than 50 countries.

The Unanimous Consent Agenda

The Board’s parliamentary authority -- *Sturgis Standard Code of Parliamentary Procedure* -- explains the consent agenda:

Organizations having a large number of routine matters to approve often save time by use of a *consent agenda*, also called a *consent calendar* or *unanimous consent agenda*. This is a portion of the printed agenda listing matters that are expected to be non-controversial and on which there are likely to be no questions.

Before taking the vote, the chair allows time for the members to read the list to determine if it includes any matters on which they may have a question, or which they would like to discuss or oppose. Any member has a right to remove any item from the consent agenda, in which case it is transferred to the regular agenda so that it may be considered and voted on separately. The remaining items are then unanimously approved *en bloc* without discussion, saving the time that would be required for individual votes.

A number of Canadian university Boards have employed the consent agenda format to include not only routine approval items, but also information items. One reason for using this format is to allow the Board to focus on major items of business. While approval of an omnibus motion saves time at Board meetings, Board members will want to review the agenda materials carefully in order that they properly discharge their responsibilities.

**How it works:**

The Secretary identifies action and information items that are routine and/or likely non-controversial. In so doing, she may consult with the Chair of the Board, the relevant committee chair, and principal resource persons. In each Committee’s report, these items are noted in the list of items at the beginning of the report. Action and information items on the agenda and in committee reports that are *not* noted on the consent agenda will be presented singly for discussion and voting (when appropriate).

When members receive their Board agendas, they should review all reports in the usual manner. **If any member wants to ask a question, discuss, or oppose an item that is marked for the consent agenda, he or she can have it be removed from the consent agenda** by contacting the Secretary of the Board of Governors prior to the meeting or by asking that it be removed before the Chair calls for a mover and seconder for the motion to approve or receive, by unanimous consent, the items listed.

At the Board meeting, before the unanimous consent motion is presented for approval, the Chair of the Board (1) will advise the Board of items that are to be removed from the list, based on prior requests from Board members; and (2) will ask if there are any other items that should be removed from the list. The remaining items are then unanimously approved *en bloc* without discussion, saving the time that would be required for individual presentation and voting. Those matters that have been struck from the consent agenda will be handled in the usual way as each Committee’s report is presented.

The minutes of the Board meeting will report matters approved as part of the consent agenda as "carried by unanimous consent". Information items received as part of the consent agenda will be reported as received.

REPORT OF THE GOVERNANCE & BY-LAWS COMMITTEE [Appendix III]

Amendments to By-Law No. 1

It was moved by P. Jenkins, seconded by J. Toswell,

That the revisions to By-Law No. 1, shown in Annex 1a, be approved.

P. Jenkins said that the changes to By-Law No. 1 clarify Board processes including the election of the Chair and Vice-Chair for a two-year term rather than a one-year term to provide stability. Revising the term of office was a suggested recommendation from the Governance Review Task Force.

During the discussion of the revisions additional amendments were suggested:

- Section C. 3: Membership on the Board. A member asked why the Warden of Middlesex County is not included in the list.
- Section I: Delegation of Authority. A member questioned why the Senior Policy & Operations Committee is authorized to approve appointments.
- Section M: Channels of Communication. A member questioned the need for the second sentence which seemed redundant.
It was moved by J. Toswell, seconded by P. Bishop,

That By-Law No. 1 be referred back to the Governance & By-Laws Committee for further consideration in light of the suggestions presented.

The motion to refer was called and CARRIED

**Information Item Reported by the Governance & By-Laws Committee**

- Board Orientation Process Update

**REPORT OF THE SENIOR POLICY & OPERATIONS COMMITTEE**

**“We Speak” Faculty & Staff Engagement Survey Results**

J. O’Brien, Associate Vice-President (Human Resources) and A. Fuller, Director, Learning and Development Services, provided an overview of the “We Speak” Faculty & Staff Engagement Survey Results detailed in Appendix IV, Annex 1.

- Response rates were up. Almost 4000 Western faculty and staff members took part in the survey with a response rate that increased from approximately 40% to 45% from 2012 to 2017. Full-time staff had a 78% response rate and full-time faculty had a 44% response rate. The overall part-time response rate was 24.9%.
- Western had notably high Organizational Engagement scores (74.2%), compared to the Metrics@Work database average (69.3%) and the Post Secondary Sector database of 69.1%.
- Overall, Organizational Engagement and Faculty/Division Engagement scores are slightly lower than 2012, while Work Engagement is slightly higher.

Appendix V, the Report of the Fund Raising and Donor Relations Committee, contained the following item that was received for information by unanimous consent:

- Fund Raising Activity Quarterly Report to April 30, 2017

**ITEMS REFERRED BY SENATE** [Appendix VI]

**Naming of the DAN Department of Management & Organizational Studies**

It was moved by A. Chakma, seconded by P. Bishop

That the Department of Management and Organizational Studies within the Faculty of Social Science be named the DAN Department of Management & Organizational Studies.
Dr. Chakma said that in January 2006, the Management and Organizational Studies program was officially named the Aubrey Dan Program in Management and Organizational Studies, in recognition of a gift of $5 million from Aubrey Dan, BACS ’85. This gift continues to provide significant support to faculty and students through the establishment of endowments for a professorship, faculty fellowships, a research fund and a large number of student awards. The naming of the DAN Department of Management & Organizational Studies recognizes the significant donor support of Aubrey Dan and clarifies that the program and the department are essentially the same. Ms. Cole said that Aubrey Dan is engaged and passionate about the program. There is no concern about interference in the academic activities from Mr. Dan. Ms. Cole noted that Western would not accept any donation without considering whether the donor is a fit. The naming was debated and approved by the department, the faculty, SCUP and Senate.

The question was called and CARRIED.

Revisions to MAPP 2.10 – Student Scholarships, Awards and Prizes Policy

FOR APPROVAL

Recommended: That MAPP 2.10 – Student Scholarships, Awards and Prizes policy be revised effective September 1, 2017 as shown in Appendix 1.

Background

Employment represents a tremendous opportunity for students to gain valuable experience. It is reasonable to give consideration for a donor or donor representative to be engaged in the process of selecting award recipients if the award is connected to an offer of employment, and such a request is expressed by the donor. Rather than continue to deal with donor engagement related to employment as exceptions to policy, an amendment to MAP 2.10 would allow for future such awards that enrich the student experience.

Currently, there are examples of approved awards where employment will be offered. The details of each past, current and future award connected to an offer of employment will differ. Therefore the language of the policy allows for flexibility to accommodate variability in areas such as details around the donor, the gift, student award, employment opportunities and selection committee processes.

Decisions will be made on a case by case basis through the regular process of developing a donor agreement and award terms involving the Registrar’s Office and Graduate & Postdoctoral Studies, the Vice-Provost, the relevant Dean/Chair and other consultation as needed, including CRA considerations with regard to charitable receipting implications. All other relevant policies will continue to apply, such as Gift Acceptance.

The proposed amendment is specific to gifts that are connected to offers of employment. The preceding statement about non-donor involvement remains in effect for all other gifts.

I. PURPOSE

The purpose of this policy is to define:

- the types of awards for undergraduate and graduate students
- the responsibilities and accountabilities associated with establishing new scholarships, awards, bursaries and prizes
- the responsibilities and accountabilities associated with revising the terms of existing scholarships, awards, bursaries and prizes

II. DEFINITIONS

1.00 Types of Awards for Undergraduate Students

Scholarship: A monetary award having a fixed minimum value, based on general academic excellence (normally a minimum "A" (80%) average), or on excellence in a specific subject or group of subjects, and in some cases also on non-academic criteria.

Award: A monetary payment given on the basis of a combination of academic and non-academic criteria. Normally, a minimum “B” (70%) average is required for undergraduate students.

Bursary: A monetary award/payment based primarily on demonstrated financial need.

Prize: A monetary award or non-monetary award (or a combination of both), normally $500 or more, based on general academic excellence or on proficiency in a specific area of study or competition.

External Award: An award given to a student of the University by an external agency. Normally the University's role or responsibility is only to advertise the existence of the award to the University Community, however, in some cases: 1) pre-screening of applications is done by the University and/or 2) records of award recipients may be maintained.
2.00 Types of Awards for Graduate Students

Scholarship/Award: A monetary payment having a fixed value, based on general academic excellence, or on excellence in a specific subject or group of subjects, and in some cases also on non-academic criteria.

Bursary: A monetary payment given to a graduate student to assist them in pursuing their education based on demonstrated financial need.

III. POLICY

In accordance with provisions of The University of Western Ontario Act and Senate and Board Committees’ Terms of Reference, new scholarships, awards, bursaries and prizes are approved by the Senate Committee on Scholarships and Awards (SCAPA) on behalf of Senate, and by the Property and Finance Committee on behalf of the Board.

A donor or a representative of the donor may not be involved in the selection of an individual for an award, scholarship or prize that has been funded by the donor.

However, consideration will be given to donor or donor representative involvement in the selection process for awards or scholarships connected to offers of internships, co-op or other types of employment, in recognition of the importance of facilitating employment opportunities for students.

Donor or donor representative involvement will be dependent on the intent of the donor, details of the gift and award or scholarship, and the employment opportunity. A donor or donor representative will be provided only with student information that is necessary for the selection of the applicant, will agree to maintain Western’s privacy policy, will represent a minority position on the selection committee, and will be at an arm’s length relationship with all applicants considered by the selection committee.

Amendments to the terms (changes in value, number, effective date or discontinuation) of existing scholarships, awards, bursaries and prizes are within the authority of the administration to approve. If the proposed amendments would change the original intent of the award or substantially change the terms, these will be considered under the approval process established for new scholarships, awards and prizes. The University Secretary, or designate, will determine if this is warranted for any of the proposed amendments.
SUNCOR CHAIR IN ENERGY POLICY - EXTENSION

FOR INFORMATION

At its meeting of September 19, 2017, the Property and Finance Committee approved a proposal that the Suncor Chair in Energy Policy be extended for an additional three-year term with academic appointment in the Ivey Business School.

**Donor and Funding:** In 2012, Suncor Energy Foundation committed a gift of $1.125 million in support of a chair in energy policy, undergraduate student awards, program outreach, case-writing and research, a portion of which established the Suncor Chair in Energy Policy at Ivey. A new gift of $555,000 has been committed to support the extension of the Suncor Chair in Energy Policy at Ivey for a period of three years.

**Effective Date:** July 2017

**Purpose:**

The Purpose and the Criteria will continue as per the 2012 approved terms and Professor Guy Holburn will continue in this role.

The Suncor Chair in Energy Policy will align with the Energy@Ivey faculty research group, whose vision “is to be the leading forum for discovering and disseminating new knowledge about energy issues facing business, government and society. By thinking beyond traditional approaches, we can cultivate innovative, effective and responsible policy solutions”.

The Suncor Chair in Energy Policy will enable Ivey to continue on the path of becoming a world leader in energy policy research, through the development of a comprehensive program around energy policy initiatives. The Chair would expand opportunities for research and case writing, and host events to promote greater engagement between students, faculty and practitioners on a global scale.

**Criteria:**

This expendable Chair will have academic appointment in the Ivey Business School.

The Candidate will be internationally recognized for his or her energy-related research and thought leadership. The Chair will be responsible for developing and implementing an innovative research and teaching agenda within Ivey. Through the teaching and research conducted and stimulated by the holder of the Chair, the School will distinguish itself in Canada as the primary source of relevant, applied research in energy issues facing business, government and civil society.

Appointment to the Suncor Chair in Energy Policy will be conducted in accordance with the relevant policies and procedures of the University based on the recommendation of a selection committee, which will include a representative of the Dean’s office of the Ivey School of Business.

The appointment of the chair will be for three years.

**Reporting:**

The University, through the Ivey Business School, will report from time to time to the donors regarding the progress and advancement of the Chair’s work.
The attached report shows the non-endowed fund quarterly activity from 1996/97 to the end of the first quarter of 2017/18 (July 31). At July 31, 2017 the 12-quarter moving average of non-endowed investments to the obligations of the portfolio was 1.83 (column 10), well above the target ratio of 1.08.

- Net returns (column 1) amounted to $0.7 million for the quarter.
- Allocations to accounts (column 2), represents income distributed to the non-endowed funds. The rate is adjusted quarterly and is applicable to non-endowed fund balances with the exception of Robarts. The non-endowed rate for the period July 1 to September 30 is 0.10%. In the case of Robarts, in accordance with the operating agreement, the long term portion of their fund balance will earn the rate of return generated by the Operating & Endowment portfolio.
- The allocation to the operating budget (column 3) for fiscal 2017 is zero as approved by the Board.
- The non-endowed investments decreased $4.8 million (column 6) during the quarter.
- The total market value of the non-endowed fund’s portion of the externally managed portfolio at July 31, 2017 amounted to $574.97 million (column 7).

**General notes:**

For 1995/96 through to 2008/09 the figures are the average for the four quarters.

Columns (1) to (6) refer to changes during the quarter, column (7) to (10) refer to the end of each quarter.

All figures are millions of dollars, except columns (9) and (10). Column (9) is the ratio of column (7) to column (8). Column (10) is the average of the ratios in column (9) over 12 quarters (i.e. over 3 year period).

**Notes:**

(1) Net investment returns, including changes in unrealized capital gains, net of consulting and investment management fees. This total includes returns on internally managed funds and other sundry investment earnings less overdraft interest and interest paid to employee benefit accounts.

(3) Allocations to the Operating budget.

(4) In April 2014 a special allocation of $10.0 was made to capital. The amount was netted by a cost recovery of 3.6 million associated with year end adjustments related to the debenture and the new residence financing.

(5) The April 2015 amount is related to a year end mark-to-market value adjusted on the RBC SWAP interest agreement.

(6) The April 2016 amount is related to a year end mark-to-market value adjusted on the RBC SWAP interest agreement as well as the cost to carry related to unused debenture proceeds.

(7) The April 2017 amount is the net of the year end mark-to-market value adjusted on the RBC SWAP interest agreement and the cost to carry related to unused debenture proceeds.

(8) The change in the amount owed to other funds for the quarter is the net cash flows into the accounts less any transfers to Western’s bank account.

(9) Quarterly net change, is the sum of columns (1) to (5) and is the change in the value of the fund in column (7), which is the change in the market value of Investments during the quarter.

(10) Total non-endowed externally managed funds. Endowed funds are not included.

(11) Total of the non-endowed externally managed funds that are owed to University accounts and other creditors.

(12) The ratio of column (7) to column (8).

(c) A resolution approved by electronic mail ballot permitted by the Chair of the Board and passed by a majority of the Board members shall have the same force and effect as if passed at a regularly constituted meeting of the Board.

7. All dissenting votes at the level of the Board of Governors which relate to issues that may incur personal liability as a result of statutory regulation shall be recorded in the Minutes if requested by the dissenting member at the time the vote is taken. Members absent from a meeting may submit to the Secretary of the Board notice of dissent not more than 7 days after receipt of the Board Minutes. Notices of dissent so submitted will be retained on file by the Secretary of the Board, but shall not affect the outcome of the vote nor be recorded in the Minutes.

8. Members of the Board shall observe strictly the confidential nature of business dealt with in closed session and it shall be their responsibility to ensure that such information is not divulged to unauthorized persons. At the commencement of a closed session the Chair shall remind members of their obligations in respect to confidentiality, by reading or directing their attention to the following caution:

Members are reminded that discussions entered into and the decisions made during the closed session of this meeting are carried out in confidence and are not to be repeated or discussed outside the Board Room. Any material provided for the session will be retained in confidence afterwards, or may be returned to the Secretary at the end of the meeting.

Decisions reached during the closed session which are to be announced after the meeting will be made public by official announcement or press release only and such publication does not free members of the obligation to hold in confidence the discussions which took place in the meeting or the material involved.

The continued presence of a member in the room shall indicate acceptance of these conditions.

9. Should a member declare an intention of noncompliance with the conditions of confidentiality and refuse to leave the room when requested to do so, the Chair shall, subject to a resolution of the Board supported by a majority vote:

(a) inform the offending member that, pending assurance to the effect that henceforth the member shall abide by the rules of the Board in respect to the confidentiality of information, the member shall be barred from attendance at any meeting of the Board or its Committees at which business of a confidential nature will be dealt with and shall not be sent any notices or material in respect to them; or

(b) adjourn the meeting, after having informed members that it will be reconvened at a time and place of which the offending member will not be notified.

10. (a) Permission to address the Board is normally restricted to those members of the administration or other invited guests presenting items of business for the Board's consideration. In special circumstances, and with advanced notice, the Chair may grant speaking privileges to others.

(b) Spectators (including representatives of the news media) attending the Open session of a meeting are not permitted to address a meeting, communicate with individual members during the meeting, or disturb the conduct of a meeting in any way. Spectators must remain in their assigned seats while in the meeting.
room.

(c) Space permitting, members of the press may video record a meeting provided that they have made arrangements in advance with the University Secretary and the Associate Vice-President (Public Relations & Community Affairs). Placement of cameras within the meeting room will be at the direction of the University Secretary.

(d) Recording is not permitted, except with the permission of the Chair.

(e) Space permitting, and with the approval of the Chair, placards or signs may be brought into the meeting room provided that they are of a size that will not obstruct doorway, or the view of others in the room, and are made of materials that could not be used to harm individuals or damage property. Placards or signs that have been permitted in the meeting room or been brought in without permission must be removed if so ordered by the Chair at any point in the meeting.

11. Spectators may obtain copies of the agenda and the non-confidential portion of the supporting material from the University Secretariat’s website.

12. The Official Minute Book shall be open to the inspection of any member of the Board at any time during regular office hours in the office of the Secretary of the Board, but such inspection shall not be permitted by other persons.

(a) The Secretary shall be responsible for safeguarding the confidentiality of the Minutes of closed sessions of the Board meetings but shall have discretion to furnish extracts therefrom to authorized officers of the University or in satisfaction of a reasonable request.

(b) The Minutes of the open sessions of the Board’s meetings shall be published electronically by the Secretary.

11. Unless provided otherwise in the Rules of Procedure or the Board’s approved parliamentary authority, all questions at a meeting shall be decided by a majority of the votes of the members present and voting. Each voting member of the committee present at a meeting, including the Chair, shall be entitled to one vote and any motion on which there is equality of votes shall be deemed to have been defeated. A resolution approved by electronic means permitted by the Chair of the committee and passed by a majority of the voting committee members shall have the same force and effect as if passed at a regularly constituted meeting. A report of decisions taken electronically between meetings shall be provided for information at the next available meeting.

Equity & Human Rights Services (EHRS) is available to all members of Western’s community.

The role of EHRS is to facilitate the development, implementation and ongoing management/coordination of Western’s policies and programs relating to discrimination and harassment.

EHRS offers the following services:
- Confidential consultation, support, and information available to all Western students, staff, faculty and postdoctoral scholars
- Support, education and advice to Administrative leaders and Academic leaders
- Culture and climate reviews, as appropriate
- Workshops and presentations

This Annual Report is prepared by EHRS as per the Non-Discrimination/Harassment Policy, (MAPP 1.35), section 12.

CONTACTS

Over the past academic year, EHRS recorded a total of 406 contacts. 177 of these were from individuals who believed he or she had been subjected to, or had witnessed, behaviour that may fall under the Policy. The remaining 229 contacts were: requests for assistance from 107 Academic or Administrative Leaders (i.e., those with the authority and responsibility to address concerns); requests for information and/or assistance by 67 third-parties (often friends, coworkers or persons in non-authority roles seeking assistance to support others); and, 55 general requests for information. Beginning with this year’s report, requests for training or resources relating to the Policy and other diversity issues are being recorded separately. This is because all such requests are now coordinated through the Diversity and Accessibility Coordinator. See section “Education and Outreach”.

INDIVIDUAL CONTACTS

Tables I and Ia display the number of consultations by issue for the 177 individuals who contacted EHRS in relation to a concern they were directly experiencing. Table II displays the role at Western of those individuals contacting our office. Individuals may contact the office in relation to more than one ground.

All individuals reporting concerns to EHRS are provided with advice. If the matter falls under the Non-Discrimination/Harassment Policy, individuals are given the option to request alternate resolution or file a formal complaint and request investigation. However, it is common for individuals, having had the opportunity to voice their concerns and seek advice from EHRS, to attempt to resolve the situation themselves.

In the 2016-17, EHRS offered some form of alternate resolution in relation to 16 matters. Alternate resolution includes mediations, facilitations, educational sanctions (in coordination with Housing), and EHRS-led inquiries to support the proper application of the Policy.

The office of the Associate Vice President (Human Resources) receives and administers formal complaints. This past year, 21 complaints were received and 17 investigated (2 are outstanding) under the Non-Discrimination and Harassment Policy.

ACADEMIC OR ADMINISTRATIVE LEADER SUPPORT

Western’s Policy requires Academic or Administrative Leaders to report any incidents which may be related to harassment and discrimination to EHRS, as well as to involve EHRS in any unit-based attempts at resolving or mediating potential harassment.

Table III displays the top issues reported by the 107 Academic and Administrative Leaders who contacted our office during the past year. Understanding the issues our leaders are facing assists us to determine where our office’s focus should be in designing and delivering support and resources.

A note regarding conflict

Some form of conflict is present in most – if not all – concerns that come to the attention of EHRS. Conflict may be present along with harassment and discrimination concerns. However, some concerns do not fall within the scope of the Policy and present as interpersonal issues, misunderstandings about role or job clarity, or organizational structure. EHRS recognizes the significant detrimental effects the unresolved conflict can have in the work and academic setting as well as to one’s own well-being and thus, when appropriate, EHRS will offer various strategies, including facilitated discussions, coaching or referrals to other supports (including EAP, Rehab Services, Ombudsman, etc.).

A note regarding safety

EHRS is consistently mindful of concerns relating to potential violence or threats to individuals’ safety. When appropriate, we refer or report such concerns to Campus Police (CCPS). EHRS referred to or contacted CCPS on 3 occasions this past year.

EDUCATION AND OUTREACH

EHRS conducts workshops, provides materials and other education and outreach assistance to various colleagues and groups across campus. This year, we received 52 resource-related requests and provided training to over 2000 Western members. We continued our successful lunch and learn Diversity Series and coordinated training on sexual violence disclosures (along with the SVPEC office) as well as offered several newly developed workshops on diversity and inclusion.

TRENDS AND HIGHLIGHTS

Western continues to review its policies relating to academic accommodation. Achieving consistent and well-understood practices across all campus departments should be a priority in the coming year(s). One area of further consideration is the accommodation of students who leave the main campus for their studies (for example, students on placements, field work, internships, etc.). We also suggest further review of best practices in accommodation for graduate students in thesis-based programs.

EHRS continues to provide significant consultation on sexual violence. Working with our campus partners, we wish to ensure Western’s policies and procedures are clear, consistent, and survivor-centric. Further training will be delivered this year to staff and faculty on understanding trauma-informed approaches in responding to disclosures of sexual violence.

We are seeing an increase in matters relating to gender identity and gender expression. As of result of concerns we’ve heard, EHRS strongly encourages a review of Western’s policies and practices in relation to gender. As part of this, the development of a clear and straightforward practice that allows individuals (whether employees and/or students) to seamlessly navigate their various roles at Western using the name that reflects their identity is needed.

Again this year, we note the need for a broader cross-campus strategy in support of diversity and inclusion. EHRS hopes to work with key stakeholders and partners to develop an approach that recognizes the intersectionalities and diverse needs of our community.

CONCLUSION

EHRS wishes to express our appreciation to all those we interact with in an effort to assist with resolution of matters. We look forward to continuing to support all students, staff and faculty members on a campus which respects, accepts, nurtures, and celebrates its diversity.

FOR INFORMATION

1. **Summary**

This report covers the calendar year January 1, 2016 to December 31, 2016. The Academic and Administrative Staff Pension Boards are responsible for the administration and oversight of two pension plans (the Academic Staff Pension Plan and the Administrative Staff Pension Plan). This report provides an overview of the plans, reviews the changes made to the plans in 2016 and describes the projects under way at the end of the year.

2. **Plan Overview**

*Asset Values, Membership and Investment Returns*

The combined plans include about 6,800 investors and assets with an approximate market value of $1.1 billion. The assets were transitioned on September 30, 2016 from a master trust structured previously held at Northern Trust Company of Canada to a Group Annuity Contract with Sun Life Assurance Company of Canada as the custodian of the assets. As defined contribution pension plans, members direct the investment of both their contributions and the University’s contributions among 15 different investment options. The fund options are designed in tiers, in an attempt to match the level of education or willingness to make independent diversification decisions. The fund offerings remained the same for members as of October 1, 2016 under the Sun Life custody although the pension board directed the change in some of the underlying fund managers upon transition, to take advantage of more streamlined administration and efficiency on fees for similar mandates. The funds are outlined below:

Communication and Education

Members have access to various reports and material to assist them in the monitoring of their retirement funds. These resources now include online access to detailed investment performance and analysis through the partnerships Sun Life Financial has with Morningstar. An annual investment report is produced each year and regular newsletters have been distributed. The Joint Pension Board is reviewing their communication strategy and tactics to determine whether this material should continue or not under the new Sun Life client service model. These resources are in addition to the personalized member statements and retirement planning/projection tools that support more customized and relevant information for the individual member.

Various information sessions, workshops, guest speakers and planning sessions are also available to assist members with their investment and retirement decisions. A total of 34 group information sessions and workshops were attended by over 1495 members and/or spouses in 2016.

Most of these workshops are facilitated by an external provider, Morneau Shepell, Western’s pension and benefits consultant. They have been the facilitator of the full day pre-retirement and financial planning workshops offered several times per year to members approaching retirement. Feedback on these workshops and the presenter remains highly positive. Attendees appreciate that content was holistic and addressed all sources of retirement income: CPP and OAS as well as defined benefit pensions, and LIF/RRIF and annuity options for their Western pension. The budgeting tools, tax information and income splitting details have been identified as helpful content. In addition, Sun Life Financial Education Consultants are on campus regularly to deliver information regarding the pension plan provisions, contribution levels, investment choices and income options. These Sun Life delivered sessions have been designed to coincide with other activities including Financial Literacy Week in November and our Staff and Leaders conference in February each year. We have also had Sun Life senior leadership and research specialists speak at our annual pension plan members’ meetings.

Pension Governance and Operations

Each of the pension boards consist of 7 members: 4 elected by the membership and 3 appointed by the University. These boards work jointly in the design of investment, communication and administrative policy (Joint Pension Board). The design and implementation of policy is completed with significant assistance from staff in human resources and financial services. The board and staff rely on the expert advice of external service providers and Sun Life Financial to fulfill their duties and implement changes.

The Operations of the pension plans were fully transitioned on January 21, 2017 – when Sun Life Financial began servicing members including record keeping, investment reporting, transaction implementation and other educational and member services. Prior to transition, the costs of operations, excluding investment management and custody expenses, was about 0.22% of assets. We have not yet finalized all the costs post-transition but we are confident that the operational costs will remain the same or lower under the new operational structure.

Prior Defined Benefit Program

Prior to July 1970 (Academic) and March 1974 (Administrative Staff), the University pension plans were a defined benefit design: annual pension income at retirement was promised based on a formula. The liabilities for the defined benefits are now substantially underwritten by annuity contracts with The Canada Life Assurance Company (annuity provider, part of the Great-West Life Assurance Company). There remain 8 active employees in the Administrative Staff Pension Plan who are entitled to the better of a defined benefit pension or what can be purchased with their defined contribution plan balance at retirement. The University’s actuaries continue to monitor the liability and the assets available to support these potential defined benefits. As at December 31, 2016 there remains a surplus of assets over projected liabilities in the administrative plan of approximately $150,000. Further there is a surplus of assets remaining in the Academic plan of approximately $900,000. The surplus assets are currently invested in short term money market securities. The surplus, once all liabilities are settled, is available to be used to fund operational expenses of the respective pension plans. Before using the surplus for this purpose, we will seek the approval of the Board of Governors, through the Audit committee.

_Wrap of the Restructured Notes that originated from the illiquid Asset Backed Commercial Paper_

As expected, the Restructured Notes held in the **Liquidating Trust** fund will mature in 2017. The majority of notes matured in January 2017 with a small exposure in less quality holdings remaining. In order to move all members out of the Liquidating Trust and close the fund, the Academic Pension Board was asked to hold the small remaining amount in the General Account (which is currently pure surplus) until the remaining holdings of about $3,500 become liquid. In partnership with Sun Life, a comprehensive communication and investment advisory plan was developed and deployed to over 3,000 holders of the Liquidating Trust – to ensure members were aware of the fund wind up and their options. **September 2017 Update:** All members have had their assets moved to other investment options and movement has been confirmed by June 30, 2017. There remains $2,100 market value of restructured notes which is held by the Academic Plan General Account.

**Review of Canadian Equity Greystone Managed Investments**

Concern has been expressed by the University’s investment consultant and through other sources regarding the ability of Greystone Managed Investments to add value over their Canadian Market benchmark. The Joint Pension Board considered replacing Greystone Investment Management (Growth Manager) in the Canadian equity portfolios. They also reviewed for potential replacement as the money market manager and investment advisory firm supporting the Liquidating Trust. **September 2017 Update:** As of March 2017 the Joint Pension Board approved the termination of Greystone Managed Investments and realigned the Canadian Equity portfolio allocations to a varied mandate for Connor, Clark and Lunn (Core to Growth manager) and Beutel Goodman (Value manager).

**Review of Fixed Income Strategies**

Consistent with the Joint Pension Board mission and documented investment beliefs, the fixed income strategies offered to members were reviewed in the first quarter of 2017 to identify opportunity to improve returns within an acceptable level of risk. Any new strategies identified would be applied to the Diversified Bond Portfolio, which in turn would impact the Balanced Fund portfolios. Strategies researched included real return bonds, preferred shares, high yield debt, emerging market debt, corporate bonds and commercial mortgages. **September 2017 Update:** In May 2017 the Joint Pension Board approved a change in the mandate for active fixed income manager AB Investments to the **Core Plus Advanced** fund, applicable to the Diversified Bond Portfolio. This AB Fund includes increased exposure to high yield, emerging market debt and non-Canadian bonds.

**Review of Social Responsible Investment Options**

Consistent with the June 2016 decision to appoint MFS Investments on the Sun Life Financial platform as an interim measure, the board reviewed other available managers to confirm that MFS is the appropriate long term strategy. **September 2017 Update:** after consideration of other available options, the Joint Pension Board has confirmed MFS delivers an appropriate long term strategy for the Social Responsible Investment portfolio.
We appreciate the opportunity to present this report to Audit Committee and welcome and comments or questions you may have.

FOR INFORMATION

We began the 2016/17 academic year with three solo thesis exhibitions for Department of Visual Arts’ graduate students. Michael Farnan’s (Toronto) video installations featured Indigenous artists Lori Blondeau and Adrian Stimson in a discourse about colonialism and interpretations of Canadian wilderness. Artist of colour Mina Moosavipour (Tehran, Iran) uses traditional representational painting strategies to comment on contemporary social and political issues in the middle east. Jason Stovall (Edmonton) explores the complex relationship of masculinity, gay male desire, and homophobia in large, figurative paintings. *Portraits, Self and Other (it’s complicated)* examined the ubiquity of portraits in the age of the selfie through the work of 20 contemporary artists mostly from London. It examined the complex relationship between artists and their subjects, and the ways in which notions of “self” and individual identity have become increasingly elusive and diffused in contemporary culture. The inclusion of many regional artists ensured a large and receptive audience for this exhibition and related events.

In November we examined the effect of globalization on the economies, geographies, and inhabitants of two regions: British Columbia’s lower mainland and the industrial heartland of the Great Lakes region. *Below the Belt: Video/Film from the Great Lakes Region*, which presented the work of Canadian and American artists who inhabit and reclaim broken and abandoned urban environments in our region.

For the past five years, Department of Visual Arts Professor Kelly Wood has documented the shopping carts used by Vancouver’s marginalized communities. Her critique of gentrification looks at the role of the art community in displacing disadvantaged local communities. The 178 page catalogue, which was launched at Art Toronto 2016, features essays by Max Haiven (Halifax), Clint Burnham (Vancouver) and Kirsty Robertson (London).

In recognition of Canada’s Sesquicentennial and McIntosh Gallery’s 75th anniversary in 2017, we organized a series of exhibitions and programs that provided alternative perspectives on the overlapping histories of the gallery, the role of women in the London art scene, and Canadian art and popular culture during the First and Second World Wars.

*A Driving Force: Women of the London, Ontario Art Community 1867-2017*, A new online, interactive database will document the critical (yet largely overlooked) role women have played as artists, patrons, curators, donors and volunteers in London’s art scene over the past 150 years since confederation. Funded in part by the London Arts Council, Project manager Luvneet Rana and a collaborative, intergenerational team of content providers are conducting research and making oral history videos for the website to be launched in January 2018.

To honour the thousands of Indigenous troops who fought during the First World War, our first Canada 150 exhibition will be *Battlefields of My Ancestors* by Mohawk artist Shelley Niro (turtle clan) featuring...
sites of conflict from the colonial period to the Battle of the Somme and Vimy Ridge where many First Nations men died.

With generous funding from Western 150, we organized *Behind the Lines*, which presented the work of artists who documented Canada’s home front war efforts, with an emphasis on the rapidly changing role of woman during the period. *In the Beginning* McIntosh Gallery’s reunited many First World War paintings from our first exhibition in 1942. Our Canada 150 celebrations culminated with the 2017 McIntosh Gallery Distinguished Lecture given by retired Canadian General John de Chastelain CC CMM CD CH.

A 300-page commemorative publication documents and expands upon our Canada 150 exhibitions. It will be launched in November 2017 during Remembrance week. It features essays by fourteen authors, twelve of whom are Western Faculty or graduate students.

The Academic Colleagues met in Toronto on 23-24 August 2017. The following items were discussed.

**Strategic Engagement Campaign:** the final report for the Engagement Campaign is currently being drafted and will be released sometime this fall. The report reviews how universities can be more engaged with the public and meet public concerns. It will also be used to provide information to all political parties in preparation for the June 2018 election.

**Internationalization:** MAESD has expressed renewed interest in this file after an extended period of inactivity. It is unclear whether this is related to the SMA process and corridor funding; that is, given that domestic enrolment is effectively capped, universities may be looking to increase international enrolment to provide a new source of revenue growth. MAESD also seems concerned about how/when tuition increases are communicated to international students, who may be adversely affected when significant increases are announced mid-way through their programs.

**Sexual Violence and Campus Climate Survey:** Bill 132’s reporting requirements will be moving forward this fall. Universities will be required to report on the common metric of formal sexual violence complaints filed. In addition, the Campus Climate Survey will be piloted this fall and then rolled out to all students in higher education (universities, colleges, and private career colleges) in February 2018. The survey instrument will soon be available for review. The survey is being administered by a consulting firm and the data will be owned by MAESD.

**Bill 148 (Fair Workplaces, Better Jobs Act):** COU has conducted a cost impact analysis of this legislation with 7 volunteer universities, and has estimated that the changes would cost the sector over $175 million annually. These costs were estimated using full-time teaching faculty as a comparator for sessional instructors (for the “equal pay for equal work” provisions of the act). Other new costs include those relating to the $15 minimum wage, 3 weeks paid vacation after 5 years of service, public holiday pay and emergency leave entitlements.

COU is seeking clarification regarding interpretation of the legislation and is asking the government for ongoing funding to help universities offset these increased costs.

**Highly Skilled Workforce:** COU has been working with MAESD to develop a definition of “experiential learning” for the purposes of reporting and accountability, and has been pressing for a definition that extends beyond work-integrated learning (co-op). The government’s decisions are still pending.

MAESD has also announced a $68 million “Career Ready Fund” for colleges and universities over the next three years. Details are expected soon.
Western University
The Working Group on Information Security (WGIS)
2016 Annual Report

WGIS is a multi-disciplinary team representing a broad cross-section of the University community. Information assets are critical to Western’s operational success as a University. The primary objective of the WGIS group is to pursue proactive strategies to manage security risks to our information and the information systems that safeguard it.

In 2016 several security education and awareness initiatives moved forward including a presentation at the spring conference “Keeping you and your family digitally safe” and a live chat on cyber security in the fall. As well, lunch time information sessions were held in the UCC atrium during the International Cyber Security Month (October 2016). Consultation on Cyber Risk Assessment and Data Classification was initiated and three cyber risk assessment meetings were held with Campus Community Police Services (CCPS), External Relations, and Communications and Public Affairs. Finally, a restructured IT Security Policy for Western was developed and has been put forward for approval by Senate and the Board of Governors.

The WGIS committee provided advice to ITS on several Cyber Security matters including self-phishing, Multi-Factor Authentication (MFA) deployment strategy, improvements to password management practices, and management of the student directory.

ITS has also continued to implement security technology improvements including expanded use of the Security Incident & Event Management (SIEM) system, ongoing network firewall tuning, and changes to Western’s management of email.

In 2017, the Committee will continue to focus on systematically reviewing cyber security risks within the Campus environment.

Summary of Activities

1. Risk Assessment

WGIS continues to refine and standardize a Cyber Security risk assessment process using a new tool that is based upon the National Institute of Standards Technology framework (NIST 800-30 Rev 1) to appraise risk.

The main goals of this process are to:

a) heighten the awareness of cyber security risk across the University
b) promote and reinforce industry best practices and University IT security policies and procedures
c) identify the key University ("crown jewels") information assets to assist in building out a more integrated Cyber Security strategy.

In 2016 the decision was made to expedite this process from 3 organizational units per year to 3 per quarter, or 12 per year. This process began in the summer of 2016 and will continue into the 2017 year.

For the sake of conducting Risk Assessments, WGIS has adopted the following Risk Matrix to assess likelihood and impact of Cyber Security Risk to Western. This tool may also assist the University in other risk related activities such as the triage of campus emergency/incident response.

Figure 1.
The following Western units were interviewed in 2016 with detailed interview and follow-up action reports being produced for each review session. A summary of the results has been included in this report for information.

A. Communications and Public Affairs (LOW RISK) has very good risk management practices but should work to formalize those activities into departmental procedural standards, including consideration for Western’s Data Classification standards.

B. External Relations (MODERATE RISK) also has very good risk management practices and is making good use of Western’s 3rd Party Risk Assessment process. This department should work to formalize their risk management processes into departmental procedures, and to adopt Western’s Data Classification standard. This interview identified as a PEOPLE SOFT (Contributor Relations) and LUMINATE Online as indispensable institutional Crown Jewels (important Information Systems).

C. Campus Community Police Service (LOW RISK) are very aware of good risk management processes having dealt with many other forms of risk management. An information system was identified in CCPS as being a good candidate for inclusion in the Multi-Factor Authentication deployment project.

The following priority units have been identified for review in 2017:

- Faculty of Science
- Student Health Services
- Faculty of Health Sciences
- Research Development and Services
- Faculty of Information & Media Studies
- McIntosh Gallery
- Western Libraries
- Ivey Business School
- School of Graduate and Post-Doctoral Studies
- Faculty of Law
2. Policies, Procedures, and Best Practices

Security Policy Review (Data Classification Standards)

A working group including representatives from ITS, WGIS, Internal Audit, the University Secretariat, and Western Legal Counsel have finalized a revised MAPP 1.13 Computing, Technology, and Information Resources policy. The objectives of this review were:

- To consolidate the following MAPP Policies: 1.13 (Code of Conduct), 1.20 (Computing Resources Security), 1.21 (Wireless Networking), and 1.45 (Email) into a more cohesive and accessible format.
- To formally incorporate Data Classification Standards into Western’s IT Policy framework as part of our ongoing shift toward an information (rather than technology) oriented cyber security strategy.
- To position the University to be more agile with implementation of detailed procedures (supplemental to this overarching Policy) that may arise due to new or emergent technologies.

The revised draft has been reviewed and approved by SUIT and the revised Policy is now being taken through the University’s governance and approval process. While most of the content in this revised IT policy remains unchanged (except for Data Classification standards), WGIS has discussed a communications strategy and plan that will accompany the rollout of this revised Policy once it is approved in 2017. This communication plan will include broadcast updates through Web and mass email, as well as, some targeted information presentations and updates that will be scheduled with key groups across Campus.

Improved Secure IT Asset Disposal

The secure disposal of computer hard drives was previously identified through the Risk Assessment as an area of concern. In 2015, a new process for the secure and environmentally responsible disposal of electronic waste (documented here) on campus was implemented. Since implementing this new process, ITS degaussed (‘wiped’) more than 1800 devices in total. As a further enhancement to the process, ITS has worked with Facilities Management late last year to pilot the location of an additional specialized and secure receptacle for e-waste at the Support Services Building drop off location. Within the first 2 weeks of the trial period, ITS degaussed 3 laptops, 12 mobile devices, 6 hard-drives, and a few USB memory devices.

ITS will continue to work with Facilities Management in 2017 to improve the design of the special secure bin, as well as, the optimal location(s) for deployment across
This project benefits Western by both managing the information security concern of disposing systems that might contain confidential information as well as ensuring our disposal of sensitive electronic waste remains environmentally responsible.

**Controlled Goods Program**

The Canadian Government’s *Controlled Goods Program* strengthens Canada’s defense trade controls by establishing Information Security through Controlled Goods Regulations, effectively extending the Government’s own information classification and security policy to include its partners in securing the very sensitive information to which those partners have access. The policy does this by establishing minimum standards of Physical Security (PHYSSEC), Human Security (HUMSEC), Information Security (INFOSEC), and Operational Security (OPSEC) etc. There are several instances of highly sensitive research or enterprise at Western that is currently bound or covered by this legislation.

Western continues to receive highly sensitive information from the Government of Canada or foreign governments and is required to protect this data, some of which is classified SECRET or PROTECTED by specific Federal legislation.

As part of an internal succession planning effort, Procurement Services, Campus Police Services, Research Development Services, and ITS have reviewed roles and responsibilities for Western’s Designated Officials for Controlled Goods handling. Plans to implement changes to these roles have been delayed to 2017 to align more effectively with the planned retirement of the current Designated Officer.
3. Cyber Protection

Information Security Awareness – CyberSmart

In 2016, ITS, WGIS, and the CyberSmart sub-committee continued to focus on raising the awareness of Western’s community around information security. In February 2016, ITS presented a session at the Staff and Leaders’ Conference titled “Keeping You and Your Family Digitally Safe”. In the fall, Western, with support from the CyberSmart sub-committee and Communications & Public Affairs, participated again in the International Cyber Security Awareness month in October. The Cyber Security Awareness activities included:

- talking with students about cyber security at the Take Care Fair held in various residences;
- a series of media events including poster campaigns, social media blasts, mass emails to students, faculty, and staff, and Western Home Page articles;
- an information booth at the ITS Helpdesk, and during some lunch hours in the University Community Centre.

Finally, in November, the Office of the Registrar and ITS conducted a Facebook Live Chat that provided information on ITS’ Helpdesk and its services, how to recognize phishing, the importance of secure passwords and changing your passwords, internet safety, and more. The Facebook Live Chat can be accessed from https://www.facebook.com/westernuRegistrar/

The purpose of these activities is to make Western’s community aware of the importance of being cyber smart so that their personal cyber profile remains secure and so that Western’s cyber resources are protected. This plan continues to evolve as we learn how best to reach students, faculty, and staff.

In 2017, the CyberSmart sub-committee will continue to look for ways to promote the importance of cyber security to Western’s community. In addition to continuing to expand Western’s participation in International Cyber Security Awareness month in October, the CyberSmart sub-committee is drafting a recommendation that would require all faculty and staff at Western to complete a Security Awareness course every 3 years. The next year will focus on finalizing the training materials and working with Human Resources to include the training in their suite of online training modules. Additional support from the institution will be required to establish this training as a mandatory requirement. This will be a key element to Western’s overall Cyber Security strategy.
Security Incident Event Management Tool (SIEM)

A SIEM is a tool that combines real-time analysis of security alerts generated by network hardware and applications with security event management. Western’s SIEM currently aggregates and indexes information about millions of cyber-attack attempts, phishing scams, email abuses, login events, and malware reports from multiple system sources. The ability to simultaneously search all log sources at once correlating between them rather than having to work individually with select sources has provided ITS with much greater situational awareness about what’s happening within the Campus environment as well as providing unexpected links between systems in cyber-events. The SIEM was used this year to forensically investigate more than 30 institutional cyber-events, as well as, several smaller scale faculty or department investigations.

2016 SIEM based Cyber Security Statistics

- Average # of Phished Accounts per day – 16.72
- Total # of User accounts disabled for the year for security reasons - 5920
- Total # of networked connected machines locked for security vulnerabilities - 139

Ongoing “Phishing” Attack Mitigation Efforts

The SIEM has also significantly improved our understanding of phishing attacks, as well as, our ability to more quickly and proactively identify members of Western’s community who have fallen victim to spam/phishing. ITS now has better visibility into the origin of Phishing attacks, their duration and intensity. This increased visibility combined with improved procedures for locking phished accounts and sustained education awareness activities have resulted in a general downward trend in the number of accounts being phished in our environment. However, phishing attacks continue to evolve in response to new opportunities and ongoing diligence and attention to this threat continue to be a high priority focus for Western.

Figure 2. 2016 Phishing Activity Summary
Email and SPAM Management

Email (via phishing) continues to be one of the most prominent attack vectors against our credentials. Western uses SPAM management to detect and block approximately 73.25% of incoming messages as spam. This equates to over a million messages per month. SPAM minimizes the phishing threat because it prevents emails from being delivered to an inbox where it has the potential to be acted upon.

The migration of Western’s native email system to Microsoft Office 365 has dramatically improved email functionality and service. However, this migration has also exposed the need for some additional technical and procedural changes to how ITS manages Western’s email domains, the analysis of SPAM email activity, and the reporting of abused email accounts. Several changes are being scheduled for implementation in 2017 as a result of this review.

Multi-Factor Authentication

Multi-Factor Authentication (MFA) is a proven cyber security technology solution. Western has acquired a campus site license for MFA software (DUO) and ITS is preparing for implementation and deployment of this technology in 2017. MFA will add another very significant layer of defense against Phishing and compromised account scams. Once MFA is implemented, an account owner will require two factors to access key campus systems; something they know (typically their password) and something else that they have (such as their cell phone or a key token). Under MFA circumstances, even if an account password is obtained through Phishing, key systems still cannot be accessed as the Phisher would not have the required second factor (the individuals cell phone or personal key token) to illegitimately access an account.

The initial MFA implementation will focus on Western ROAMS (i.e. off campus access to core campus systems), as well as, critical ITS servers operating in the University Data Centers. MFA is also being considered for implementation on key Peoplesoft systems such as Human Resources and the Student system.

Service Protection

Service protection continues to improve overall network security through more effective use of its network firewalls. All threats and vulnerabilities identified as ‘high’ or ‘critical’ were previously blocked outright at the network perimeter. In 2016, this policy has been extended to include ‘medium’ threats and vulnerabilities without impacting the responsiveness of our network service. These efforts continue to reduce the number of Western machines reported to be involved in network based security attacks.
Financial Information Protection: Payment Card Industry (PCI) Compliance

Several WGIS members are actively involved with PCI compliance through the Western Bank Card Committee. Because of this engagement, WGIS remains informed of new developments and security practices in the payment card industry. In 2010, Western achieved Level 1 compliance under version 1.2 of the Payment Card Industry Data Security Standards (PCI DSS). Emerging payment technologies, new e-commerce solutions on campus and a changing payment card security standard require that Western’s payment card environment be reviewed regularly to determine the implications to Western’s PCI status.

This year, the Bank Card Committee actively pursued the validation of compliance with the latest PCI DSS version 3.2 by engaging a Payment Application Qualified Security Assessor to evaluate Western’s processes against the PCI DSS requirements. It is anticipated that Western will again achieve Level 1 compliance early in 2017. As the payment card industry continues to expand, the data security standards are constantly being redefined. In 2017, the Bank Card Committee will develop a strategic approach to ensure Western adheres to changing standards, and remains PCI compliant.

4. Incident Response & Investigations

Western experienced an increase in the overall number of security incidents encountered in 2016 (30) when compared to 2015 (24). There continued to be a shift towards exploitation of user credentials and information systems for purposes of financial fraud and other matters of academic misconduct. There was one significant instance of cyber-bullying which involved harassing emails and inappropriate disclosure of personal information through social media that resulted in a law enforcement investigation and follow-up.

Another more alarming trend which emerged in 2016 was the notable increase in “ransomware” attacks against digital data. Two Canadian universities made national news because of large-scale attacks against their corporate and research data. “Ransomware” (aka Cryptoware) is a specific type of malicious software that can autonomously encrypt data on PCs, Laptops, and Servers thus making it unavailable to institutions and researchers until a ‘ransom’ is paid. In response to this trend, Western remained vigilant to the threat and continues to work with community members to ensure data is backed up, network technology is in place to detect threats originating from off-campus, and to educate the community of the risk. Despite these efforts, Western is still exposed to risk of a similar attack. It is therefore critical that efforts continue to focus on increasing cyber security awareness across its community, making
the community aware of the relentless nature of these attacks and how individuals can protect their credentials and data as well as Western’s systems.

5. 2017 Plans

Looking forward to 2017 we anticipate that there will be increased efforts to raise cyber security concerns across campus. Activities will include further discussion and consultation on an initiative to make cyber security training mandatory for campus community members. This could include a formal training requirement on a three-year cycle. We will continue our efforts in reaching out to Faculties and administrative units on the matter of Risk Assessment and Data Classification. We will discuss their security priorities and provide advice in terms of best ways to protect the critical information housed on line in each unit. Our plan is to meet with a minimum 12 units in 2017.

As well, follow up on the IT Policy at Senate and the Board will be a high priority. The restructured IT Policy will require a substantial communications plan to ensure that the key principles are understood and that emerging questions are answered. WGIS will be instrumental to ITS in providing advice based on their unit experience on how to address the concerns and move the policy forward.

Finally, one initiative in 2016 that was deferred was a review of the role of WGIS. In 2017 the committee will begin the discussion of where WGIS is adding value and where it can work to improve its contribution to university IT security matters. As we noted in our report from last year WGIS recognizes that there have been substantial changes in the cyber world with new threats and increased sophistication growing each year. A key challenge will be determining how to lever the knowledge and skills of the committee members as well and their familiarity with the operating issues in their respective units to move this initiative forward.

Western’s Performance and Activity Indicators Report

Moving to an Electronic Version – starting with the 2017 Report

September 5, 2017

• Since 2005, Western has published an Annual Performance and Activity Indicators Report.

• In 2016, the report was modified to align the indicators with the University’s most recent strategic plan – Achieving Excellence on the World Stage. The indicators shown in the document were chosen from the best available data that align with the fourteen metrics in the Strategic Plan.

• It is important to note that this report is not intended as a promotional document. While some indicators do illustrate significant achievement, others identify areas where improvements are necessary.

• Starting with this cycle (September 2017), the report is being presented electronically – rather than a printed version. The report is now a series of dashboards that allow for more flexibility in display options. The report can be found at: http://www.ipb.uwo.ca/pi/

• The main page displays 8 broad categories of metrics – and each category contains multiple indicators. The structure of the indicators follows the format in the print version from previous years – with an explanation of the calculation, relation to the strategic plan, and commentary.

• Individual metrics may be downloaded and printed by clicking the “download” icon that appears on the top-right corner of each page.
