Once on campus:

- Practice [physical distancing](#). When possible, stay two metres apart.
- Wear a non-medical mask/face covering. This is required indoors and outdoors when physical distancing is a challenge. Western is supplying all employees with non-medical masks.
- [Wash hands](#) thoroughly and often and avoid touching your face.
- Disinfect your desk, work area, computer equipment and tools frequently.
As always, the health and safety of our campus community remains Western’s top priority.

As you return to campus, you will notice many changes such as how you move through buildings, how you enter/exit meeting rooms and classrooms, where you can sit, floor markings, signage, sparse furniture, and reduced occupancy limits.

In preparation for your return, buildings have been deep cleaned by Facilities Management and there is ongoing, daily enhanced cleaning of common touchpoints such as door handles and elevator buttons.

Building ventilation and humidity has been optimized and hand sanitizer and disinfectant wipes have been provided to units. Please contact the designated requisitioner for your faculty or unit to order additional pandemic supplies such as disinfectant wipes, hand sanitizer, gloves and masks.

Western requires the use of non-medical masks/face coverings in the presence of others and in common and shared spaces on campus. Employees will be supplied with three when returning to campus.
