UNIVERSITY · CANADA

**Richard W. Hutchinson Geoscience Collaborative Suite
Department of Earth Sciences
North Campus Building Room 120, Western University
1151 Richmond St. N., London, Ontario N6A 5B7, Canada**

VOLUNTEER APPLICATION FORM

Please read this information carefully before filling out the application

All volunteer positions with the Richard W. Hutchinson Geoscience Collaborative Suite are facilitated through Western's Volunteer Program (WVP) and as such **volunteers must be current registered students at Western University** to participate in the program. More information on WVP is available here: http://www.success.uwo.ca/experience/volunteering/westerns_volunteer_program.html

Volunteers with the Richard W. Hutchinson Geoscience Collaborative Suite will be working alongside the Geoscience Collections Curator to assist in the cataloguing and maintenance of the Western University Earth Sciences Department's rock, mineral and paleontological collections. These may include but are not limited to duties such as labelling, organizing, or cataloguing the collections, moving the collections to their storage facility, or identifying unknown rocks, minerals or fossils. Volunteers may also participate in events such as assisting with the Western University booth at the London Gem and Mineral Show.

Interested volunteers must submit this signed and completed application form, along with their current resume, to geocollections@uwo.ca.
