

Department of Pathology and Laboratory Medicine
DR. ROBERT ZHONG SEMINAR

Yin or Yang? The Delicate Balancing Act of a Tyrosine Kinase in T Cells and Emerging Therapeutic Opportunities.

Shun-Cheng (Shawn) Li, PhD

Professor, Canada Research Chair in Molecular and Epigenetics Basis of Cancer, Department of Biochemistry, Schulich School of Medicine & Dentistry, Western University

Thursday, March 5, 2026

12:00 p.m. – 1:00 p.m.

University Hospital, Auditorium A

Learning Objectives:

1. Understanding the principle of PD-1 blockade immunotherapy and its limitations.
2. Understanding how to use unbiased approaches such as mass spectrometry to generate new insights into T cell activation or exhaustion.
3. Understanding how protein kinases mediate signal transduction by PD-1 and how this knowledge may spawn new therapeutic opportunities.
