

Department of Pathology and Laboratory Medicine

DR. ROBERT ZHONG SEMINAR

Harnessing the Gut Microbiome to Improve Cancer Immunotherapy: From Response to Toxicity.

Saman Maleki, PhD

Associate Professor,
Departments of Pathology and Laboratory Medicine,
Oncology, and Medical Biophysics, Western University

Thursday, October 8, 2026

12:00 p.m. – 1:00 p.m.

University Hospital, Auditorium B

Learning Objectives:

1. Describe how the gut microbiome influences antitumour immunity and response to immune checkpoint inhibitors.
2. Explain how microbiome-based interventions, including fecal microbiota transplantation, are being translated into cancer immunotherapy.
3. Discuss emerging evidence that the gut microbiome can influence immune-related toxicity and how microbiome modulation could be used to optimize both the efficacy and safety of cancer immunotherapy.
