PAEDIATRIC RESPIROLOGY
CLINICAL ACADEMIC POSITION

Department of Paediatrics
Schulich School of Medicine & Dentistry, Western University

The Department of Paediatrics, Children's Hospital, London Health Science Centre, and Schulich School of Medicine & Dentistry, Western University is seeking a **Paediatric Respirologist** to join our established Division of Paediatric Respirology as a full-time faculty member. The Department of Paediatrics provides comprehensive acute care, ambulatory and in-patient services for children to a population of 2 million in southwestern Ontario. Children with a full range of care issues are managed in our Paediatric Emergency Department, Paediatric Critical Care Unit, Neonatology Unit and in-patient Clinical Teaching Units. The Department has a strong research environment and is partnered with the Children's Health Institute (CHRI Website) with broad programs studying children ranging in age from pre-term neonates to adolescents. The Department is very active in undergraduate, postgraduate and continuing medical education.

The Division of Paediatric Respirology provides a comprehensive ambulatory and in-patient service to a population of about 1.5 million in southwestern Ontario. Children with the full spectrum of airway and lung disorders, including cystic fibrosis, asthma, sleep-disordered breathing, chronic lung disease, congenital abnormalities and complex care needs including ventilation are cared for in a range of specialty clinics. The Division of Paediatric Respirology works closely with our paediatric ENT colleagues in a collaborative Paediatric Airway Centre and in an active paediatric flexible bronchoscopy program. The Division is also very active in undergraduate, postgraduate and continuing medical education but is seeking to expand its research activity.

Candidates for this position must have an MD or equivalent degree and must be eligible for licensing in the Province of Ontario. Subspecialty certification in Paediatric Respirology from the Royal College of Physicians and Surgeons of Canada or equivalent is highly recommended. **Preference will be given to an ideal candidate with a dedicated interest in research and evidence of success in research**. **The successful candidate will hold a full-time Limited Term Clinical Academic appointment at the rank of Assistant Professor/Associate Professor, or a Continuing Clinical Academic appointment at the rank of Associate Professor or Professor**, depending upon qualifications and experience at the time of appointment. Successful candidates will have a keen interest in academic medicine, the ability to collaborate effectively with all other members of the health care team and office staff and will be expected to participate in team-based health care and teaching, both at the undergraduate and postgraduate levels.

Western University delivers an academic experience second to none. Western challenges the best and brightest faculty, staff and students to commit to the highest global standards. Our research excellence expands knowledge and drives discovery with real-world application. Western attracts individuals with a broad worldview, seeking to study, influence and lead in the international community. Since 1878, The Western Experience has combined academic excellence with life-long opportunities for intellectual, social and cultural growth in order to better serve our communities.

Children's Hospital is the only tertiary care center between Toronto and Winnipeg, serving a population of approximately 500,000 children. The Paediatric Critical Care is 12 bed tertiary care unit with an annual admission of over 900 patients. An 8 bed High Dependency/Transition Unit functions primarily during peak volume times. In addition, Children's Hospital has 64 general paediatric beds, 46 neonatal beds and a very active emergency department. The Department of Paediatrics in London has over 100 faculty members, 40 trainees, and provides a full array of Paediatric sub-specialty services. The Children's Hospital has a Quality and Safety Committee and has formed partnerships within various international quality improvement initiatives. The department has 5 basic scientists as core members and numerous opportunities exist for clinical, epidemiological, translational, and basic science research.

London has a metropolitan census of 530,000 people with the amenities of a big city but friendliness of a small town. London is located in the heart of the Great Lakes region, 2 hours from both Toronto and Detroit. Western University is a research-intensive institution with a wide range of academic and professional programs (see http://www.uwo.ca and www.ledc.com/why-london to learn more). Western's Recruitment and Retention Office is available to assist in the transition of successful applicants and their families.

Compensation for this position will be commensurate with qualifications and experience and will be primarily composed of an alternative funding plan and academic salary.

The anticipated start date for the position is March 1**,** 2025 although an alternate start date may be negotiated.

Interested candidates should submit a letter of interest, including curriculum vitae and names and contact information of three references to:

Craig Campbell, MD, FRCPC
Professor and Chair/Physician Executive
Department of Paediatrics
800 Commissioners Road East
London, Ontario, Canada N6A 5W9
Email: craig.campbell@lhsc.on.ca

Applications will be accepted until the position is filled. Review of applications will begin after November 25, 2024**.**

Please ensure that the form http://uwo.ca/facultyrelations/physicians/Application_FullTime_Clinical.pdf is included in your application.

Successful candidates will be required to comply with the policies and protocols of the applicable affiliated institutions.
