Clinical Academic Position, Paediatric Respirology
Department of Paediatrics
Schulich School of Medicine & Dentistry, Western University

Appointment Type and Rank:	The successful candidate will hold a Full-time Limited Term academic appointment at the rank of Assistant or Associate Professor, or a Full-time continuing appointment at the rank of Associate or Full Professor depending on qualifications and experience.
Number of Positions:	1
Posting Date:	October 20, 2026
Closing Date to Apply:	Applications will be accepted until the position is filled. Review of applications will begin after November 23, 2026
Anticipated Start Date:	July 1, 2027, although an alternate start date may be negotiated

Position Profile:
The Department of Paediatrics, Children's Hospital, London Health Science Centre, and Schulich School of Medicine & Dentistry, Western University is seeking a Paediatric Respirology Physician to join our established Division of Paediatric Respirology as a full-time faculty member.

Academic and/or Clinical Expectations:
We invite applications from outstanding clinicians, researchers or educators with a strong record of current or past multi-disciplinary collaboration. The successful candidate will provide comprehensive acute care, ambulatory and in-patient services in the Division of Paediatric Respirology at the Children's Hospital, London Health Sciences Centre (LHSC), and will help develop academic activities and clinical and educational initiatives within the division and in support of the Department of Paediatrics, and the Division of Paediatric Respirology. The successful candidate will actively contribute to the undergraduate and postgraduate education and research programs of the Division and will also serve as a role

model for our undergraduate medical students, paediatric residents and Paediatric Respirology Subspecialty Fellow/Residents. The successful candidate will be appointed as a Scientist or Associate Scientist at the Children's Health Research Institute.

Qualifications or Experience and Skills Required:
Candidates must hold an MD or equivalent and be eligible for licensing in the Province of Ontario. Subspecialty certification in Paediatric Respirology from the Royal College of Physicians and Surgeons of Canada or equivalent is required. The preferred candidate will be a paediatric respirologist with a dedicated interest in research and evidence of success in research. Successful candidates will have a keen interest in academic medicine, demonstrate the ability to collaborate effectively with all other members of the health care team and office staff and will be expected to participate in team-based health care and teaching, both at the undergraduate and postgraduate levels.

Compensation Details:
Compensation for this position will be commensurate with qualifications and experience and will be primarily composed of the following sources: Alternate Funding Plan (AFP) and academic salary.

Affirmation Policy Statement
Western, like many postsecondary institutions in Canada, is moving beyond sole reliance upon Indigenous self-identification in its hiring processes. This is to safeguard against the use of incorrect, incomplete, or misleading information in circumstances in which a candidate has made a declaration of Indigenous citizenship or membership. Candidates who are invited for an interview or who are short-listed, and who have made a declaration of Indigenous citizenship or membership for material advantage at Western, including where required or preferred for the position, will be asked to have their declaration of Indigenous citizenship or membership affirmed through a relational accountability process, led by the Office of Indigenous Initiatives (OII), that is consistent with Indigenous ways of knowing, being, and doing. Please contact the OII directly for details on the affirmation processes: https://indigenous.uwo.ca/. The policy can be viewed at: POLICY 1.58 - Affirming Declarations of Indigenous Citizenship or Membership at Western University.

Department:
The Department of Paediatrics provides comprehensive acute care, ambulatory and in-patient services for children to a population of 2 million in southwestern and northwestern Ontario. Children with a full range of care issues are managed in our Paediatric Emergency Department, Paediatric Critical Care Unit, High Dependency/Transition unit, Neonatology

Unit and in-patient Clinical Teaching Units. The Department has a strong research environment and is partnered with the Children's Health Institute (CHRI Website) with broad programs studying children ranging in age from pre-term neonates to adolescents. The Department is very active in undergraduate, postgraduate and continuing medical education.

Division:

The Division of Paediatric Respirology provides a comprehensive ambulatory and in-patient service to a population of about 1.5 million in southwestern Ontario. Children with the full spectrum of airway and lung disorders, including cystic fibrosis, asthma, sleep-disordered breathing, chronic lung disease, congenital abnormalities and complex care needs including ventilation are cared for in a range of specialty clinics. The Division of Paediatric Respirology works closely with our paediatric ENT colleagues in a collaborative Paediatric Airway Centre and in an active paediatric flexible bronchoscopy program. The Division is also very active in undergraduate, postgraduate and continuing medical education but is seeking to expand its research activity.

The Faculty:

The Schulich School of Medicine & Dentistry at Western University is one of Canada's preeminent medical and dental schools. Established in 1881, it was one of the founding schools of Western University and is known for being the birthplace of family medicine in Canada. For more than 130 years, the School has demonstrated a commitment to academic excellence and a passion for scientific discovery. Throughout its history, Schulich Medicine & Dentistry has helped educate generations of physicians, dentists, scholars and scientists whose collective work has transformed the practice of medicine and dentistry, here in Canada and around the world. Faculty, students, and alumni continue to fulfill their responsibilities as global leaders by sharing their knowledge and expertise for the benefit of all.

The University:

Western University delivers an academic experience second to none. Western challenges the best and brightest faculty, staff and students to commit to the highest global standards. Our research excellence expands knowledge and drives discovery with real-world application. Western attracts individuals with a broad worldview, seeking to study, influence and lead in the international community. Since 1878, The Western Experience has combined academic excellence with life-long opportunities for intellectual, social and cultural growth in order to better serve our communities.

Children's Hospital:
Children's Hospital is the only tertiary care center between Toronto and Winnipeg, serving a population of approximately 500,000 children. Children's Hospital has 64 general paediatric beds, 12 Paediatric Critical Care bends, 8 High Dependency/Transition Unit beds, 51 neonatal beds and a very active emergency department. The Department of Paediatrics in London has over 100 faculty members, 40 trainees, and provides a full array of Paediatric sub-specialty services. The Children's Hospital has a Quality and Safety Committee and has formed partnerships within various international quality improvement initiatives. The department has 2 basic scientists as core members and numerous opportunities exist for clinical, epidemiological, translational, and basic science research.

The City:
London has a metropolitan census of 530,000 people with the amenities of a big city but friendliness of a small town. London is located in the heart of the Great Lakes region, 2 hours from both Toronto and Detroit. Western University is a research-intensive institution with a wide range of academic and professional programs (see http://www.uwo.ca and www.ledc.com/why-london to learn more). Western's Recruitment and Retention Office is available to assist in the transition of successful applicants and their families.

To Apply:
Interested candidates should submit:

- a letter of interest
- Curriculum Vitae
- Names and contact information for three (3) references who you have worked with over the last two (2) years and at least one (1) referee must hold a leadership appointment
- A completed application form, located at: http://uwo.ca/facultyrelations/physicians/Application_FullTime_Clinical.pdf

Please submit all documentation electronically to:

Craig Campbell, MD, FRCPC
Professor and Chair/Physician Executive
Department of Paediatrics
800 Commissioners Road East
London, Ontario, Canada N6A 5W9
