

## Audiology Summary of Clinical Practice Hours

### Activities by Classification

Classification	Activity
Basic Audiometric Measurements	Pure tone AC & BC threshold testing (with or without masking)
	Speech audiometry (with or without masking)
	Hearing screening
	Visual Reinforcement Audiometry
	Conditioned Play Audiometry
	Speech-in-Noise testing
	Referrals/consultation with other professionals
	Immittance measurements (tympanometry; Acoustic Reflexes)
Electrophysiological Assessment	Auditory Evoked Potentials (ECochG; ABR; MLR; LLR; AABR)
	OtoAcoustic Emissions
	Referrals/consultation with other professionals
Supra-Threshold Assessment	Auditory processing Assessment
	Speech-in-Noise testing
	Ling 6
	Plurals test
	Psychophysics
	Listening discomfort levels (LDL)
	Most comfortable listening level (MCL)
	Referrals/consultation with other professionals
Amplification	Hearing aid and assistive listening devices
	Hearing aid prescription
	Ear impressions
	HA/ALD fittings (orientation and instruction)
	Verification (electroacoustic analysis, real ear measurements)
	Hearing aid 30-day review
	Hearing aid recheck/adjustments
	Hearing aid troubleshooting and repairs
	Tinnitus maskers
	Listening discomfort levels
	Most comfortable listening level
	Outcome questionnaires
	Referrals/consultation with other professionals
Aural Rehabilitation	Aural Habilitation Programs
	Aural Habilitation Presentations
	Sound Sense

	Communication Strategies
	Speechreading and auditory training
	Auditory-Verbal Therapy sessions
	Vocational support
	Language and literacy issues related to hearing impairment
	Outcome measures
	HA/ALD fitting/orientation
Tinnitus/Hyperacusis	Tinnitus matching
	Listening discomfort levels
	Most comfortable listening level
	Tinnitus Maskers
	Tinnitus severity questionnaires
	Referrals/consultation with other professionals
Vestibular Disorders	Case hx, bedside ax, QoL ax
	Ocular motility testing, positional testing, caloric testing
	Rotary chair, vHIT, computerized dynamic posturography
	VEMPS, test of otolith function, ECohG
	Non medical management of positional vertigo
	Vestibular rehabilitation
Implants	Cochlear Implant candidacy assessment
	Cochlear Implant activation
	Cochlear Implant adjustment (repair; update; troubleshoot)
	Referrals/consultation with other professionals
	Bone conduction devices (surgical and non-surgical)
	BC devices, fitting, adjustments, troubleshooting
Special Populations	Hearing preservation/conservation
	Ear impressions for hearing protection/musician's plugs/swim plugs
	Cerumen management
	Oncology hearing monitoring program
	Educational Audiology
	Sound Sense
	Geriatric clients
Calibration & Instrument Maintenance	Biological Checks (weekly; daily)
Virtual Care	Phone consults
	Virtual consults
	Virtual assessment/treatment
