ABOUT THE 2019 CHILD HEALTH SYMPOSIUM

The Child Health Symposium is a collaborative presentation of Western University’s Faculty of Health Sciences and the Thames Valley Children’s Centre.

It provides an opportunity for youth, family, clinicians, service leaders, researchers, educators, and students from all disciplines to:

• Share their knowledge, ideas, and best practices for service delivery in the area of child health and well-being
• Present current research interests, questions, and findings
• Learn more about the child health research happening in our community
• Network and build relationships and collaborations with others in our community

Service leaders, researchers, educators, and students
Clinicians: behaviour/occupational/recreational/physical therapists, speech language pathologists, social workers, nurses, physicians
Youth, families, and caregivers

Location: Arthur and Sonia Labatt Health Sciences Building, Western University, Huron Drive
Date/Time: Friday, May 10, 2019 8:45 a.m. – 3:45 p.m.  Registration opens at 8:00 a.m.
Parking: Parking will be available in the South Valley Lot (see http://www.uwo.ca/parking/find/map.html).  Rate is $1.50 for each half hour of parking up to a maximum of $18.00 (Visa, MC and cash are accepted).
Fees: Free— catered lunch provided (limited spaces available, please register by May 3)
Registration: https://childhealthsymposium2019.eventbrite.ca
KEYNOTE ADDRESS

“Functional Abilities Classification Tool (FACT): Identifying Supports that Matter to Inclusion in Schools and Beyond”

Benjamin Klein,
MD, PhD, FRCP(C)
Developmental Pediatrician and Medical Director, Lansdowne Children’s Centre, Brantford, Ontario
Assistant Clinical Professor, Department of Pediatrics, McMaster University, Hamilton, Ontario

Ben Klein is a developmental pediatrician at Lansdowne Children’s Center in Brantford, Ontario, Canada, and in the division of developmental pediatrics at McMaster University. He is a member of the developmental disabilities and mental health committee of the Canadian Pediatric Society, a steering committee member of Physicians of Ontario Neuro Developmental Advocacy network, and physician in Canada Honduras Child Health Initiative. He completed medical school at the University of Western Ontario, and pediatrics and developmental pediatrics residencies at McMaster University. He has academic interests in developmental pediatric care for vulnerable populations and community agency outreach, applying the International Classification of Functioning, Disability and Health in developmental behavioural pediatrics, and systems of care serving children and families.

MEET OUR PANEL OF MENTAL HEALTH EXPERTS

“Promoting Positive Mental Health Practices”

Panelist 1

Claire Crooks joined the Applied Psychology ARC at the Faculty of Education and is a Registered Psychologist in the areas of clinical, school and forensic psychology. During the decade prior to coming to Western, she was a Scientist and Associate Director at the CAMH Centre for Prevention Science. Claire conducts research in a number of areas, all looking at the gaps between science, practice and policy related to healthy development of children and youth. In other words, how do effective programs get adapted and implemented in different school and community contexts, and how do we appropriately evaluate these? How do educators and others implement complex and skill-based policies?

As a co-developer of the Fourth R program, an evidence-based healthy relationships program, much of Claire’s research has focused on the evaluation of this program in different contexts. She has a particular emphasis on strengths-based programming for Aboriginal youth, and has worked closely with partners in TVDSB, Saskatchewan, and Northwest Territories to adapt, implement, and evaluate Fourth R programs. She is currently working on evaluating the Healthy Relationships Plus Program in more than 30 sites across 5 provinces and territories. The Healthy Relationships Plus Program is a small groups healthy relationship program that promotes mental health and well-being.

Dr. Crooks also currently holds a CIHR grant to evaluate the feasibility, implementation, and impact of the Mental Health First Aid for First Nations program, which is a joint initiative between the Mental Health Commission of Canada and several communities.

In all of her areas of research, Claire is keenly committed to knowledge mobilization and producing tools that will help front line educators and community partners in their roles with youth. She is actively involved with the Promoting Relationships and Eliminating Violence Network (PREVNet) in this regard.

Claire received her B.A. in Psychology from Princeton University and her M.A. and Ph.D. in Clinical Psychology from Queen’s University. She lives in London with her husband and four young children, who provide daily reminders to her that best practices in textbooks and research do not always translate smoothly on the ground level!

Panelist 2

Growing up with a sister who struggled with mental health, Paula was aware of the challenges families faced in getting young children help. Stigmas, lack of understanding, and shame keep families from seeking assistance or understanding how to work with the help available. What if there was a communication tool that started that conversation? What if there was a way to better explain to those who might not understand what it’s like having anxiety and how to be more empathetic and understanding?

Paula called on some of her old TV colleagues to give her a hand. These friends had worked for years with Jim Henson, appearing in such programs as the Muppets, Mr. Dress-up, Sesame Street and Disney productions—just the right people to start a difficult conversation. With the support of the Child and Adolescent Mental Health Team at London Health Sciences Centre, M.I.understanding developed 5 videos to start a conversation on anxiety. These videos are a free resource, used by families, schools and mental health practitioners to increase awareness around the importance of early intervention.

M.I.understanding now has 9 videos in their library, all designed to start a conversation. With curriculum developed last year to support the use of the videos in the classroom, M.I.understanding has branched out to work with Vanier Children’s Services to create 'Parent understanding' and with the LGBTQ community to develop" Pride understanding". M.I.understanding has kept the conversation going by creating Community of Support Exhibits, providing families with the tools they need to comfort, encourage and support their children. This past year, M.I.understanding partnered with the Center for Mental Health in Schools at Western University to develop the PIPE program (parents in partnership with Educators). Working with researchers and new graduates, this program was developed to help families create an effective partnership with their children’s school—teachers, support workers, and administration.

One in 5 children are currently struggling with mental health, but 70% of mental health issues can be solved with early diagnosis, support and treatment—ask yourself M.I.understanding?

Panelist 3

Marnie Wedlake, PhD, RP
School of Health Studies,
Western University

Marnie has worked in mental health care since 1986 when, as a summer student, she got her first job at a residential treatment centre for children, in Waterloo County. In community based mental health settings, Marnie’s areas of practice have included direct service, mental health education and health promotion, knowledge brokering and knowledge transfer and exchange, and program evaluation and quality improvement. After completing her PhD in 2014, Marnie started teaching part-time at Western University. And, in December 2018, she started a full-time faculty position, as a mental health and wellness scholar, in the School of Health Studies, at Western.

As a Registered Psychotherapist, Marnie works from a trauma-informed perspective. She has extensive experience providing psychotherapy and counselling to people who, for a variety of reasons, have become burdened by significant struggle, distress and life disruption. Marnie is particularly interested in working with individuals who live with varying degrees of dissociation, depersonalization, and personal dis-integration, occurring in response to traumatic life events.

Through her many years of work in the broader field of mental health care, Marnie has come to see that most people share a fundamental desire to experience a greater sense of overall well-being. She is convinced this is available to everyone. It has been Marnie’s experience that the journey towards well-being can start within some of the humblest spaces, like the ones that are created when two people join in mutual regard, for exploratory conversation that is non-judgmental, and that is guided by a compassionate heart and an open mind.

Marnie’s Honours Bachelor’s and Master’s degrees are in Psychology, and her PhD is in Health Professional Education. She is a Registered Psychotherapist with the College of Registered Psychotherapists of Ontario.

Faculty Profile: www.uwo.ca/fhs/shs/about/faculty/wedlake_m.html
PRESENTATIONS: MORNING SESSION 1

10:40 – 11:35    Concurrent Session Clusters A, B, C, and D (choose one cluster)

Session 1: Cluster A. TARGETING TRAUMA

A-1    The Need for Trauma and Violence Informed Care Workshops for Teachers
      Christina Amico*, Michelle Phillipe*, Susan Rodger
      Western University

A-2    Trauma and Technology: Presenting Technology-Based Innovations
      Targeting Youth Resilience
      Christine Wekerle1*, Paul Frewen2*
      (1) McMaster University, (2) Western University

A-3    A Preliminary Evaluation of the Parenting Traumatized Youth Program
      Tanja Samardzic1*, Jennifer Voth2*, Bethany King2
      (1) University of Windsor, (2) Hôtel-Dieu Grace Healthcare’s Regional Children’s Centre

Session 1: Cluster B. RELATIONSHIP-CENTRED CARE

B-1    Parent Voice—Say What?
      Jennifer Banting*, Andrea Orsini*
      Thames Valley Children's Centre

B-2    Shared Decision Making in Pediatric Practice: A Pilot Project
      Bonnie Wooten1*, Diane Love1, Adrienne Fulford1, Andrea Andrade1, Phil Singeris1, Rhonda Teichrob2, Erika Clements1, Ana Milne1, Courtney Ecker1, Craig Campbell1,2,3,4
      (1) London Health Science Centre, (2) Thames Valley Children’s Centre, (3) Western University, (4) Children’s Health Research Institute

B-3    Thinking Differently about Solution Focused Coaching: Dialogic Orientation Quadrant Model
      Kim Benincasa*, Abi Flanagan*
      Thames Valley Children's Centre
Session 1: Cluster C. EMOTIONAL AND SOCIAL WELL-BEING

C-1  
*The Impact of Social Media Use on Youth Mental Health*
Chantal Singh*, Richard Booth, Kim Jackson  
Western University

C-2  
*Social Anxiety Among Youth with Chronic Health Conditions*
Janette McDougall*1,2, Virginia Wright3,4  
(1) Thames Valley Children’s Centre, (2) Western University, (3) Holland Bloorview Kids Rehabilitation Hospital, Bloorview Research Institute, (4) University of Toronto

C-3  
*Making Mindfulness Matter (M3): A Randomized Controlled Trial of a Community-Based Family Intervention for Children with Epilepsy*
Klajdi Puka1,2*, Karen Bax1,2,3, Andrea Andrade1,2, Margo Devries-Rizzo4, Hema Gangam5, Simon Levin1,2, Maryam Nouri1,2, Narayan Prasad1,2, Mary Secco5, Guangyong Zou1, Kathy N. Speechley1,2  
(1) Western University, (2) Children’s Health Research Institute, Lawson Health Research Institute (3) Mary J. Wright Centre (4) Children’s Hospital at London Health Sciences Centre, (5) Western University Windsor Campus, (5) Epilepsy Southwestern Ontario

Session 1: Cluster D. RESEARCH METHODS AND MENTAL HEALTH ASSESSMENT

D-1  
*Research Methods with Children: Who has the Right to Choose?*
Katherine Westwood*, John Ravenscroft, Kristina Konstantoni  
The University of Edinburgh

D-2  
*Unlocking Mental Health Assessment for Young People With Developmental Disabilities: How CPRI Supports Use of the interRAI Child/Youth Mental Health Assessment - Developmental Disabilities (ChYMH-DD)*
Maggie McKnight*, Katharine Moody, Laura Lambert  
Child and Parent Resource Institute

D-3  
*The PhotoSTREAM Project: Supporting Transition-Readiness in Emerging Adults with Mental Health Challenges Using the PhotoVoice Method*
Brianna Jackson*  
Western University
PRESENTATIONS: AFTERNOON SESSION 2

1:30 – 2:20 Concurrent Sessions Clusters E, F, G, and H (choose one cluster)

Session 2: Cluster E. ADDRESSING RISK AND INJURY

E-1  
*Trends in Recovery Modifiers Among Children and Youth with Persistent Symptoms following Concussion*

Sara Somers1*, Janice Gray1*, Mary Ellen Kendall1, Jacqueline Ogilvie1,2,3*, Janette McDougall1,2

(1) Thames Valley Childrens Centre, (2) Western University, (3) London Health Sciences Centre

E-2  
*Trampoline Park Safety Perceptions of Caregivers of Patients Presenting to the Paediatric Emergency Department in London, Ontario*

Caleb Van de Kleut, Kristine Van Aarsen, Saba Cheema, Olivia McCuaig, Jessica Mammoliti, Matthew Dinunzio*, Tim Lynch

London Health Sciences Centre

E-3  
*Enacting Health Equity—Challenges and Possibilities*

Abbey Duggal*

Western University
Session 2: Cluster F. EARLY INTERVENTION AND MENTAL HEALTH

F-1  
**Collaborating to Develop an Early Intervention to Foster Better Mental Health Outcomes for Children of Parents with a Mental Illness**

Jennifer Voth1*, Stacey Slobodnick1*, Rachel Gough1, Marla Jackson1, Tammy Drazilov1, Donna Dordevski2, DJ MacNeil1, Naty Ramirez-Reyes1, Kelly Farrugia3

(1) Hôtel-Dieu Grace Healthcare’s Regional Children’s Centre, (2) Children’s Aid Society of Windsor-Essex, (3) Windsor-Essex County Health Unit

F-2  
**Mental Health Right From the Start**

Katie Stortz*, Tanja Linkes*

London Children’s Connection

F-3  
**Preventing Depression Before Birth: Assessing the Potential Treatment Effects of Exercise During Pregnancy on Prenatal Depression**

Taniya S. Nagpal1*, Marina Vargas-Terrones2, Maria Perales2, Harry Prapavessis1, Ruben Barakat2, Michelle F. Mottola1

(1) Western University, (2) Technical University of Madrid

Session 2: Cluster G. PARTICIPATION AND WELL-BEING

G-1  
**Participation in Athletic Extra-Curriculurs in Children With Disabilities: Interim Findings**

Katherine Westwood*

The University of Edinburgh

G-2  
**The Facilitators and Barriers of Physical Activity Engagement for Youth and Young Adults with Childhood-Onset Physical Disabilities**

Matt Downs1*, Joy MacDermid1,2,3, Janette McDougall1,4, Denise Connelly1

(1) Western University, (2) McMaster University, (3) St. Joseph’s Health Care, (4) Thames Valley Children's Centre

G-3  
**The Ingredients to Living Well: How Parents Caregiving for a Child with Special Needs Create Opportunities to Experience Well-Being**

Jaymieson O’Neill*

Niagara Children's Centre, Brock University
H-1  Holistically Viewing the Mental Health of Children With Disabilities and their Families: A Framework and Systematic Review of Screening Tools to Inform Practice.

Shannon E. Scratch1,2*, Michelle Phoenix1,3,4, Gillian King1,2,5, Sara A. Stevens1, Amy McPherson1,2, Shauna Kingsnorth1,2, Marilyn Ballantyne1, Yani Hamdani1,2, Heidi Schwellnus1,2, Nancy Searl1, Sam Pezzulo1

(1) Holland Bloorview Kids Rehabilitation Hospital, Bloorview Research Institute
(2) University of Toronto, (3) CanChild Centre for Childhood Disability, (4) McMaster University, (5) Western University

H-2  Practice-Based Research in Education to Investigate a Language Assessment Tool

Meghan Vollebregt1*, Lisa Archibald1, Anila Punnoose2, Nancy Sarlo2, Sharon McConney Ellis2, The Kindergarten Committee2

(1) Western University, (2) Durham District School Board

H-3  Analysis of Quality of Online Resources for Parents of Children who are Late-to-Talk

Caitlin Coughler*, David Purcell, Shauna Burke, Janis Cardy,

Western University
SESSION: POSTER CRAWL

1:10  Poster Presentations and Scavenger Hunt

**Poster 1**  
*Children with Disabilities Engaging In Science, Technology, Engineering and Mathematics (STEM): Exploring the Impact of a Group-Based Robotics Program on STEM Activation*

Sally Lindsay¹², Kendall Kolne¹*, Anna Oh¹, Elaine Cagliostro¹

(1) Holland Bloorview Kids Rehabilitation Hospital, Bloorview Research Institute  
(2) University of Toronto

**Poster 2**  
*The Experience of Parents After a Diagnosis of Permanent Hearing Loss: Two Approaches to Data Analysis Yield Similar But Different Results*

Danielle DiFabio*, Jessica Cekan, Paul Tremblay, Sheila Moodie

Western University

**Poster 3**  
*Improving Family Education Prior to a Paediatric Epilepsy Monitoring Unit Admission*

Michelle Kregel Gratton¹*, Armela Hadzic¹*, Tracy Robinson¹*, Andrea Andrade²*, Margo DeVries-Rizzo¹*

(1) Children’s Hospital London Health Science Centre, (2) Western University

**Poster 4**  
*A Psychometric Evaluation of the Depressive Severity Index (DSI) among Children and Youth using the interRAI Child and Youth Mental Health (ChYMH) Assessment Tool*

Sarah Babcock¹*, Yixian Li¹*, Shannon Stewart¹, John Hirdes², Vicki Schwean¹

(1) Western University, (2) University of Waterloo

**Poster 5**  
*SMA Module of the Canadian Neuromuscular Disease Registry (CNDR)*

Diane Love¹*, Victoria Hodgkinson², Lawrence Korngut³, Maryam Oskoui⁴, Said M’Dahoma², Cheryl Scholtes⁵, Craig Campbell¹⁵⁶⁷

(1) Children’s Hospital London Health Sciences Centre, (2) University of Calgary,  
(3) Hotchkiss Brain Institute at University of Calgary (4) McGill University  
(5)Thames Valley Children’s Centre, (6) Western University, (7) Children’s Health Research Institute
Poster 6  *Trauma Matters: Identification and Treatment for Children and Youth*
Gwynne Ng\textsuperscript{1*}, Shannon L. Stewart\textsuperscript{2}
(1) Child and Parent Resource Institute, (2) Western University

Poster 7  *Exploring Pediatric Volition Among Children with Autism in a Robotics Program*
Sukyoung Hong\textsuperscript{1,2*}, Sally Lindsay\textsuperscript{1,2}
(1) University of Toronto, (2) Holland Bloorview Kids Rehabilitation Hospital, Bloorview Research Institute

Poster 8  *Unlocking the Mind: Understanding the Effect of Meditation on Cognitive Functioning in Children with ADHD*
Marcus Gottlieb\textsuperscript{*}, Barbara Fenesi, Hannah Bigelow, Alex McKenzie
Western University

Poster 9  *Fun for Everyone: Identifying and Addressing Barriers to Play*
Laura Theall\textsuperscript{1*}, Kim Arbeau\textsuperscript{1}, Shannon L. Stewart\textsuperscript{2}
(1) Child and Parent Resource Institute, (2) Western University

Poster 10  *Paving the Way for Outdoor Play: A Mixed-Method Examination of Socio-Environmental Barriers and Facilitators to Children’s Outdoor Play*
Janet Loebach\textsuperscript{*}, Tara Elton-Marshall
The Centre for Addiction and Mental Health

Poster 11  *Mental Health Benefits of Physical Activity in Youth With Cerebral Palsy: A Scoping Review*
Jessica Starowicz\textsuperscript{*}, Laura Brunton
Western University
Understanding the Effect of Physical Activity on Executive Functioning in Children with ADHD
Hannah B. Bigelow*, Marcus Gottlieb, Alexander Mckenzie, Barbara Fenesi
Western University

Sports Focused Active Play Influences Motor Skill Sub-Groups Changes During Early-to-Middle Childhood
Victoria Kwong*, Asal Moghaddaszaadeh, Angelo Belcastro
York University

Assessing Emotion Regulation in Infants of Women Receiving Three Different Diet and Exercise Interventions in Pregnancy: A Research Proposal
Mollie Manley*, Taniya Nagpal, Roberta Bgeginski, Michelle Mottola
Western University

Healthy Food for a Better Mood
Samantha DeWit*
Western University

Predictors of Positive Mental Health in Canadian Youth
Valbona Semovski*
Western University

A Pilot Feasibility Randomized Controlled Trial of a 12-Week E-Mentoring Employment Intervention for Youth with Physical Disabilities
Sally Lindsay1,2, Elaine Cagliostro1*, Joanne Leck3, Jennifer Stinson2,4
(1) Holland Bloorview Kids Rehabilitation Hospital, Bloorview Research Institute, (2) University of Toronto, (3) University of Ottawa, (4) Hospital for Sick Kids in Toronto
**Poster 18**

*Evaluating the Effect of Self-Care Management on Health-Related Quality of Life In Adolescents with Chronic Illness*

Kelly Kennedy*, Kim Jackson, Marilyn Evans

Western University

**Poster 19**

*Disability Disclosure and Workplace Accommodations for People with ASD: A Systematic Review*

Sally Lindsay*¹, Victoria Osten¹, Mana Rezai¹, Sunny Bui²

(1) Holland Bloorview Kids Rehabilitation Hospital, Bloorview Research Institute, (2) University of Toronto

**Poster 20**

*“This Device is Very Important for My Son....” Parents Help Predict the Facilitators And Barriers to Everyday Use of AAC Devices*

Michelle Servais¹²*, Stephen E. Ryan³⁴, Mohammad AlMudullal⁴, Tracy A. Shepherd¹⁵, Anne Marie Renzoni³

(1) Thames Valley Children’s Centre, (2) Western University, (3) Holland Bloorview Kids Rehabilitation Hospital, Bloorview Research Institute, (4) University of Toronto, (5) Centralized Equipment Pool

**Poster 21**

*Next Generation Exon Skipping in Duchenne Muscular Dystrophy Patients*

Maysaa Assaf¹*, Gina Bhullar¹, Jennifer Petzke¹, Emma Jayne¹, Cheryl Scholtes⁴, Wendy McDonald⁴, Sulaiman Al-Mobarak¹, Rhiannon Hicks³, Craig Campbell¹²³⁴

(1) Children’s Hospital London Health Sciences Centre, (2) Western University, (3) Child Health Research Institute, (4) Thames Valley Children’s Centre

**Poster 22**

*Supporting Reflection to Enhance Clinical Practice: The Utility of Interprofessional Discussion, Solution-Focused Coaching, and Participation in Simulations*

Michelle Servais¹², Gillian King³⁴, Sheila Moodie⁵, Linda Bolack⁶*, Tracy Shepherd¹⁵, Colleen Willoughby¹, Debbie Strachan⁶

(1) Thames Valley Children’s Centre, (2) Western University, (3) Holland Bloorview Kids Rehabilitation Hospital, Bloorview Research Institute, (4) University of Toronto, (5) Centralized Equipment Pool, (6) Independent Consultant
PAST ATTENDEES SHARE THEIR THOUGHTS ABOUT THE CHILD HEALTH SYMPOSIUM

What are the Benefits of Attending?

- Learn new strategies to incorporate into current practice
- Learn more about a variety of issues related to child health
- Learn more about research on child health and possible actions to improve quality of life
- Learn perspectives from another discipline
- Meet, network with new potential collaborators, and learn about more future opportunities
- Meet new people motivated by their passion and learn about new resources

What did Attendees Like Best?

- Awesome day! It was a great learning experience!
- I loved the quick pace of the day—you get a snapshot of many issues...variety of speakers—many different disciplines!
- I liked: the opportunities to network, new ideas to explore, and the research
- Very useful and interesting professional development!
- I thought that this event was well-organized and was very informative
- Good variety and quality of presentations
- Well done! It was very inspiring!
- I had a great time! It was a pleasure to attend!
