1. Describe your previous experience working in health equity, sustainability or a related field (50 words or less).

2. List in chronological order any courses or educational programs that you have attended in the last five years. [Do not include courses taken as part of your University or College degrees. NO NEED TO APPEND CERTIFICATES.]
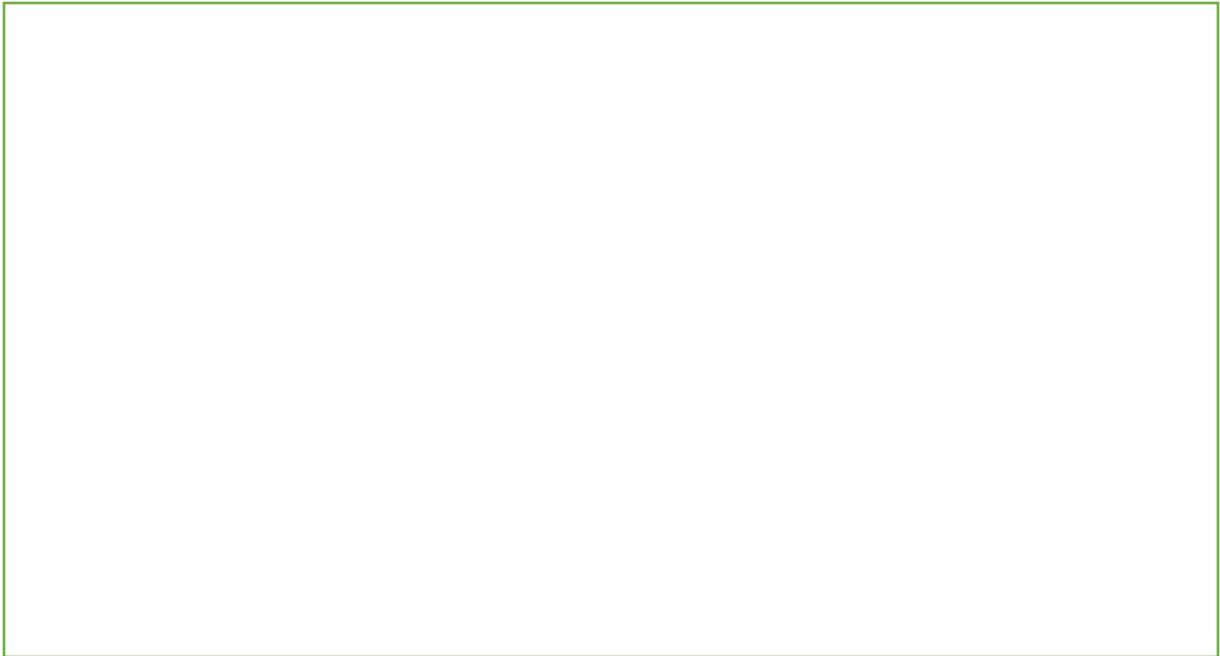

Course Name	Date(s) of Course	Where it was Held

3. List in chronological order any courses you have completed related to health equity and/or sustainability.

Course Name	Date(s) of Course	Where it was Held

4. Describe your current position(s) – include both paid and unpaid activities

5. Describe your learning objectives and career goals and how you hope the knowledge, skills, and behaviours gained in this Master's program can help you achieve them. (500 words or less)

6. As part of the Advanced Health Care Practice (AHCP) program, you can elect to complete part of the requirements for REQUIRED a Certified Health Executive (CHE) designation: Western's agreement with Canadian College of Health Leaders (CCHL) means that students completing the Masters degree are provided guidance and time through their Capstone Experience course to complete, or partially complete, the LEADS Action Project that is part of earning the CHE Designation. Western will provide an academic advisor to guide students through the project. Students are responsible for identifying a mentor that will provide the experiential learning opportunity (for example, someone within your workplace, within academia, someone you aspire to be, someone in a role you aspire to hold, etc. Students will also have access to a list of possible mentors through the CCHL). Given your interest in the CHE designation, describe the type of project you would like to complete, work already completed to identify a mentor, and/or discussions you have had about possible opportunities for your experiential learning placement with a mentor. *We recognize that you may be very early in thinking about these things.
