## ABOUT THE FACULTY

The Faculty of Health Sciences was established in 1997 when the Faculties of Nursing, Kinesiology and Applied Health Sciences merged to become one strong Faculty of Health Sciences. The result was a dynamic and exciting new Faculty comprised of five Schools and three interdisciplinary programs. The Faculty includes five schools: Kinesiology, Nursing, Occupational Therapy, Communications Sciences and Disorders (Audiology, Speech-Language Pathology), and Physical Therapy, as well as two programs: the Bachelor of Health Sciences (BHSc), and the graduate program in Health & Rehabilitation Sciences.

Our mission is **“to lead in the generation and dissemination of knowledge in the areas of health and health care, rehabilitation, physical activity and sport.”** We are also committed to offering the best student experience among Canada’s leading research-intensive universities.

## STATISTICS

2,983 undergraduate students  
601 graduate students  
124 full-time faculty members  
57 graduate & undergraduate degrees & modules,  
diplomas and certificates

## ACTIVITY-BASED PROGRAMS

Western Sports & Recreation Services  
– Mustang Athletics  
– Campus Recreation  
Fowler Kennedy Sport Medicine Clinic

## RESEARCH CENTRES

National Centre for Audiology  
Canadian Centre for Activity and Aging  
International Centre for Olympic Studies

## SCHOOLS

Communication Sciences and Disorders  
Kinesiology  
Nursing  
Occupational Therapy  
Physical Therapy

## INTERDISCIPLINARY PROGRAMS

Bachelor of Health Sciences (Undergraduate Program)  
Health & Rehabilitation Sciences (Graduate Program)

# DEAN'S MESSAGE

OUR ACADEMIC PROGRAMS ARE FIERCELY COMPETITIVE AND ARE ATTRACTING THE BEST AND BRIGHTEST STUDENTS. MANY OF OUR STUDENTS HOLD PRESTIGIOUS PROVINCIAL AND NATIONAL SCHOLARSHIPS. OUR NEW INTERDISCIPLINARY GRADUATE PROGRAM HAS BEEN VERY POPULAR TO PROSPECTIVE STUDENTS AND IT IS PROVING TO BE A FURTHER CATALYST TO GREATER INTERDISCIPLINARY RESEARCH ACTIVITY.

We are attracting outstanding professors and staff members to compliment a strong cohort. Our newest building, the Arthur and Sonia Labatt Health Sciences Building, is providing us with state-of-the-art teaching and research facilities that are taking the Faculty to greater heights. Our simulated hospital ward and simulated home care unit, coupled with our 3D theatre, are only examples of the advanced teaching and learning environments that we offer our students, professors and staff members.

Our researchers are competing favourably for research funds from SSHRC, NSERC, CIHR and CFI. We are also securing research funding from private funding agencies like the Heart and Stroke Foundation, the Alzheimer Society of Canada, the Hearing Foundation of Canada, the Worker Safety and Insurance Board, and AUTO21 to name a few. Our members are winning the most prestigious research awards the University offers (e.g. Distinguished University Professor, Faculty Scholar, Early Researcher Awards). My sincere congratulations to our recipients.

This is an exciting time for health sciences education and research. This document helps illustrate how the Faculty of Health Sciences is at the forefront of

innovation into research and education in the health sciences and is committed to providing the best student experience among Canada's leading research-intensive universities.

Special thanks to Dr. Linda Miller, Associate Dean – Scholarship and Dr. Gordon MacDonald, our Faculty of Health Sciences Research Officer for their work in facilitating and advancing our research activity in the Faculty. I would also like to acknowledge the work of Linda Brown and Matt Quin for their work in compiling this information. Thanks as well to our Research Mentors for their contributions in reviewing grants for the Faculty and encouraging our research community. Your efforts are making a difference as evidenced by the success rate of our researchers in comparison to national averages. Sincere thanks also goes to the School/Program Directors for their focused and inspired leadership in their units and within the Faculty. I also acknowledge their efforts in confirming the data contained in this Report. Finally, and most of all, I would like to thank the professors, staff and students in the Faculty for their committed efforts in advancing research activity within the Faculty.

We're proud of our accomplishments to date, and even more excited about our prospects for the future.

Yours in Health Sciences,

**W. James Weese, Dean**

*Faculty of Health Sciences*

It is my pleasure to present the 2006–2007 edition of the Faculty of Health Sciences' Scholarship Report. Like the previous editions, this Report chronicles the research activity in the Faculty over the past year, and speaks to the heightened success of our researchers.

## FROM THE ASSOCIATE DEAN – SCHOLARSHIP

It is with great pride that I share this report of our 2006-2007

achievements with our colleagues and the broader University community.

THIS REPORT DEMONSTRATES THAT THE FACULTY OF HEALTH SCIENCES IS A NATIONAL AND INTERNATIONAL LEADER IN HEALTH RESEARCH. OUR RESEARCHERS ARE LEADERS IN TERMS OF BOTH PEER-REVIEWED PUBLICATIONS AND RESEARCH FUNDING. NOT ONLY DO OUR RESEARCHERS HAVE AN IMPRESSIVE RECORD OF SECURING OPERATING FUNDS FOR THEIR RESEARCH PROGRAMS, BUT THEY ALSO PLAY A SIGNIFICANT ROLE IN LARGE, COLLABORATIVE AND INTERDISCIPLINARY RESEARCH PROJECTS.

This report highlights the work and accomplishments of the outstanding researchers in the Faculty of Health Sciences. It also reflects the outstanding work and commitment of the support team in Research Development Services. We again extend our sincere thanks to the Research Development consultants for their support and encouragement.

I enthusiastically thank and congratulate the members of the Faculty of Health Sciences, and all of our colleagues and collaborators, for their contributions to our continued success!

**Linda Miller, PhD**
