Course Syllabus for HS 3630F: Sexuality, Gender & Health

Instructor: Dr. Treena Orchard
Mondays 12.30-2.30pm & Wednesdays 12.30-1.30pm
Room: FNB 1200
Office Hours: By appointment, HSB 343
E-Mail: torchar2@uwo.ca
Cell: 519-639-9722
Teaching Assistant: TBA

Course Description
This is an advanced undergraduate course in health sciences that explores how sexuality, gender, and health are experienced through a critical lens. The materials selected provide a sound overview of key concepts and theoretical approaches and the complex dynamics of doing research. More traditional areas of concentration include the body, heterosexuality, reproductive health, HIV/AIDS, health in post-colonial settings, and the emotional challenges of conducting fieldwork. More cutting-edge topics include the role of pleasure in gay men’s relationships, health provision for transgendered individuals, structural and symbolic violence, and digital sexuality. By examining classic and modern contributions to these diverse fields of study, students will be equipped with foundational theoretical and methodological skills as well as a critical awareness of how health is impacted by structural factors like sexuality, gender, race, and marginalization.

Course Objectives
The objectives for this course align with university and program level aims regarding the receipt of a Western education. They include the acquisition of new knowledge and literacy skills regarding the professional conduct of scholarly research, communication between peers and other class stakeholders and understanding health through an interdisciplinary lens. Critical and creative thinking as well as writing are additional objectives that shape the design of and evaluation approaches adopted within this class. Learning about the relationship between research and local or global communities is another key aim, along with gaining a sense of how different ethical issues stream through the research process from inception through to dissemination. Additionally, resilience and life-long learning are two final objectives that help structure the delivery of the course.

Course Format & Timetable
Lecture notes for each week will be posted prior to the first class, so that students can follow along when I am presenting the required material as well as leading the class discussions. The lecture timetable is subject to change, as needed, throughout the course given the on-going presence of Covid-19 in our lives. Any changes to the timetable will be clearly communicated to students in advance of these changes through OWL. The course package is available through the bookstore.

Evaluation
Sexuality Case Study 15%
Gender Case Study 15%
Research Paper 35%
Final Exam 35%
Details

Case Studies (30%)
Students will respond to two case studies that showcase situations related to sexuality and gender. There will be two choices for each case study and each student selects one case for each exercise. Students will summarize their reading of the case in 1 double-spaced page (roughly two paragraphs) and respond to the five open-ended questions posed at the end of each case. These responses can be done in written, video OR voice format. There is no incorrect answer, and these exercises are designed to provide students with the opportunity to apply their thinking or insights regarding various conditions/issues/tensions related to sexuality and gender. The case studies will be submitted through OWL and a rubric will be provided closer to the due date of the first assignment.

Research Paper (35%)
Each student will select a specific issue and/or population related to sexuality, gender, OR health that is of specific interest and conduct his/her/their own independent research. RESEARCH TIP: use “qualitative”, “lived experience”, and “ethnographic” as key words in your searches because they align with the materials we use in class and it is rooted in people’s real lives. The paper must be narrow in focus so that you are not overwhelmed with research and can make interesting, in-depth observations. I recommend mapping out your ideas by starting with a population (e.g. immigrant youth, Black trans women, aging queer men) and a specific issue related to sexuality, gender, OR health (e.g. consensual non-monogamy, #MeToo, reproductive health).

In the Introduction, students provide an overview of the current state of knowledge/debate about the topics and then specific the particular focus of their paper. The bulk of the paper focuses on the two or three key issues related to the population and s/g/h issue selected. In the Conclusion, you must discuss how the issues you have researched have shaped how you understand and think about sexuality, gender and/or health (i.e., 1/2page). I will post examples to give you a sense of how this assignment has been approached by other students who have taken our class. It is advisable to run your ideas past myself or the TA before you begin your research, to make sure that you are on the right track.

The assignment should be 10 double-spaced pages, including 12-15 academic references (which can be single-spaced to save paper). When organizing your paper, use the following headings: Introduction, Statement of objectives; Methodology; Main Themes; and a Conclusion, which reiterates the focus of the paper and includes a discussion of the significance of the subject matter related to your understanding of sexuality/gender/health. Employ standard APA format and PLEASE use “I” or the “active voice.” Examples of previous essays from this class will be provided so that students have a clear sense of the assignment. The essays will be submitted through OWL and a rubric will be provided closer to the due date.

Final Exam (35%)
The final examination is cumulative and will consist of short answers (30%) and your choice of 2/6 essay questions (35% each). The short answers are primarily from the first few lectures, and I will select the essay questions from the most popular weekly lectures over the term (via online vote by the class). The essay questions are very open-ended, which gives you ample room to
answer them in your own voice and you are encouraged to use “I.” The exam will be in a take home format, and more details will be provided closer to the end of the term.

**Grading scheme:**
I use the format provided below for grading, which is the university-wide scale that has been approved by the Western University Senate. It should also be noted that **I DO NOT ROUND UP MARKS.**

<table>
<thead>
<tr>
<th>Grade</th>
<th>Range</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+</td>
<td>90-100</td>
<td>One could scarcely expect better from a student at this level</td>
</tr>
<tr>
<td>A</td>
<td>80-89</td>
<td>Superior work that is clearly above average</td>
</tr>
<tr>
<td>B</td>
<td>70-79</td>
<td>Good work, meeting all requirements and eminently satisfactory</td>
</tr>
<tr>
<td>C</td>
<td>60-69</td>
<td>Competent work, meeting requirements</td>
</tr>
<tr>
<td>D</td>
<td>50-59</td>
<td>Fair work, minimally acceptable.</td>
</tr>
<tr>
<td>F</td>
<td>below 50</td>
<td>Fail</td>
</tr>
</tbody>
</table>

It is expected that the grades for this course will fall between 75-79%. In the event that the course average falls outside this range, a constant may be added (or subtracted) from each student’s grade, by the instructor, to bring the class average in line with school policy. It is anticipated that the course averages in years 1 through 4 grades will vary and this is the normative breakdown of average grades/year

- Year 1: 68-72
- Year 2: 70-74 (core) and 72-76 (elective)
- Year 3: 72-76 (core) and 74-78 (elective)
- Year 4: 74-80

**Policies:**

**Prerequisites**
Unless you have either the requisites for this course or written special permission from your Dean to enroll in it, you may be removed from this course, and it will be deleted from your record. This decision may not be appealed. You will receive no adjustment to your fees in the event that you are dropped from a course for failing to have the necessary prerequisites.

**Covid-19 Contingency Plan for in-person class pivoting to 100% online learning**
In the event of a COVID-19 resurgence during the course that necessitates the course delivery moving away from face-to-face interaction, all remaining course content will be delivered entirely online, either synchronously (i.e., at the times indicated in the timetable) or asynchronously (e.g., posted on OWL for students to view at their convenience). The grading scheme will not change. Any remaining assessments will also be conducted online as determined by the course instructor.

In the event of a COVID-19 resurgence during the course that necessitates the course delivery moving away from face-to-face interaction, tests and examinations in this course will be conducted using a remote proctoring service. By taking this course, you are consenting to the use of this software and acknowledge that you will be required to provide personal information (including some biometric data) and the session will be recorded. Completion of this course will
require you to have a reliable internet connection and a device that meets the technical
requirements for this service. More information about this remote proctoring service, including
technical requirements, is available on Western’s Remote Proctoring website at:
https://remoteproctoring.uwo.ca.

Late assignments
This class is evaluated through written assignments which must not be missed unless there is a
medical condition, family emergency, or other unforeseen circumstances. A note from your
Physician indicating the nature of your condition must be submitted to the School of Health Studies
Main Office, and only upon receipt of such a letter will I consider a new due date for an assignment.
Late assignments are docked 3% per day and anything beyond 3 days late will not be accepted.

Attendance and Classroom Behaviour (online and/or in-person)
In the School of Health Studies, each course instructor sets specific expectations for attendance
and participation that are specific to the course, teaching objectives, and learning outcomes.
Regular attendance is expected and essential for all courses, but particularly those that include
participation grades in their evaluation schemes. Participation means not only attendance, but
active engagement in the class, including (for example) contribution to small and large group
discussions, a demonstrated effort to prepare for class by completing assigned readings before
class, and following the instructor’s guidelines for use of electronic devices during class time.
**Students who miss classes, or parts of classes, are responsible for the material they have
missed. Instructors are not obliged to review the contents of missed lectures.**

Use of Recording Devices and Course Content
**During Exams:** Unless you have medical accommodations that require you to do so, or explicit
permission from the instructor of the course, you may not use any electronic devices during ANY
tests, quizzes, midterms, examinations, or other in-class evaluations.

**During Lectures and Tutorials:** Although you are welcome to use a computer during lecture
and tutorial periods, you are expected to use the computer for scholastic purposes only, and refrain
from engaging in any activities that may distract other students from learning. From time to time,
your professor may ask the class to turn off all computers, to facilitate learning or discussion of
the material presented in a particular class. **Unless explicitly noted otherwise, you may not make
audio or video recordings of lectures – nor may you edit, re-use, distribute, or re-broadcast
any of the material posted to the course website.**

Use of Plagiarism Checking Software
All required papers may be subject to submission for textual similarity review to the commercial
plagiarism detection software under license to the University for the detection of plagiarism. All
papers submitted for such checking will be included as source documents in the reference database
for the purpose of detecting plagiarism of papers subsequently submitted to the system. Use of the
service is subject to the licensing agreement, currently between The University of Western Ontario
and Turnitin.com (http://www.turnitin.com).
Student Code of Conduct
Code of Student Conduct defines the standard of conduct expected of students registered at The University of Western Ontario, provides examples of behaviour that constitutes a breach of this conduct, provides examples of sanctions that may be imposed, and sets out the disciplinary procedures that the University follows. Scholastic offences are taken seriously, and students are directed to read the appropriate policy, specifically, the definition of what constitutes a Scholastic Offence, at the following Web site: Academic Calendar - Western University (uwo.ca).

Academic Consideration
The University recognizes that a student’s ability to meet their academic responsibilities may, on occasion, be impaired by extenuating circumstances, including short-term illness or injury. Reasonable academic consideration is a cooperative process between the University, the student, and academic staff. All participants in the process must act in good faith, and fulfill their respective obligations, if it is to succeed.

Students who experience an extenuating circumstance (illness, injury, or other extenuating circumstance) sufficiently significant as to temporarily render them unable to meet academic requirements, may submit a request for academic consideration through the following routes:

(i) For medical absences, submitting a Student Medical Certificate (SMC) signed by a licensed medical or mental health practitioner, in order to be eligible for Academic Consideration; or
(ii) For non-medical absences, submitting appropriate documentation (e.g., obituary, police report, accident report, court order, etc.) to academic advising office in their Faculty of registration, in order to be eligible for academic consideration.

Students seeking academic consideration:
• Are advised to consider carefully the implications of postponing tests or midterm exams or delaying handing in work;
• Are encouraged to make appropriate decisions, based on their specific circumstances, recognizing that minor ailments (e.g., upset stomach) or upsets (e.g., argument with a friend) are not normally an appropriate basis for a self-reported absence;
• Must communicate with their instructors no later than 24 hours after the end of the period covered by either the self-reported absence or SMC, or immediately upon their return following a documented absence;
• Are advised that all necessary documentation, forms, etc. are to be submitted to academic advising office within two business days after the date specified for resuming responsibilities

Support Services
There are various support services around campus and these include, but are not limited to:
1. Student Development Centre -- http://academicsupport.uwo.ca/
2. Student Health -- https://www.uwo.ca/health/
3. Registrar’s Office -- http://www.registrar.uwo.ca/
4. Ombudsperson Office -- http://www.uwo.ca/ombuds/
Health and Wellness

The undergraduate experience is rewarding and challenging socially, emotionally, and intellectually. Finding ways to balance scholarly life with our personal lives can be tough, but it’s important to learn how to manage stress. Western provides several health and wellness-related services to students, which may be found at [http://www.health.uwo.ca/](http://www.health.uwo.ca/). You can also check out the Campus Recreation Centre or the McIntosh Gallery ([http://www.mcintoshgallery.ca/](http://www.mcintoshgallery.ca/)), for alternative spaces to reconnect with your bodies and restore your spirit. You may also want to access local resources that are closer to where you are living during the school year. Recalibrating ourselves emotionally begins with slowing down, reminding ourselves that we are ok, and taking a few deep, slow breaths. This remarkably effective strategy brings the body from stress mode into a more relaxed state.

If you are in emotional or mental distress should refer to Mental Health@Western [Mental Health Support - Health & Wellness - Western University (uwo.ca)](https://www.uwo.ca/fhs//policies/appeals.html) for a complete list of options about how to obtain help or Thames Valley Family Services ([https://www.familyservicethamesvalley.com/](https://www.familyservicethamesvalley.com/)), a trusted provider within the community. To help you learn more about mental health, Western has developed an interactive mental health learning module, found here: [Health & Wellness - Western University (uwo.ca)](https://www.uwo.ca/fhs//policies/appeals.html). It’s also advisable to have a wellness safety plan if you don’t want to reach out to formal services. Having the numbers of a few trusted individuals is another strategy.

Common Concerns Guidelines
The table below summarizes a list of common student concerns and how they are to be resolved. If you have a concern that is not listed here, then please email your instructor.

<table>
<thead>
<tr>
<th>Concern</th>
<th>How to address concern</th>
</tr>
</thead>
<tbody>
<tr>
<td>Course administrative matters</td>
<td>Read through the course outline or email instructor is question cannot be answered from information in the course outline</td>
</tr>
<tr>
<td>Course content questions</td>
<td>Refer to the OWL Resources (notes, calendar, etc). Email the instructor.</td>
</tr>
<tr>
<td>Grade disputes and requests for appeals</td>
<td>A student requesting an appeal to a specific course with respect to a grade for an assignment or examination much first contact their instructor to discuss such manners.</td>
</tr>
<tr>
<td></td>
<td>Visit the following website for guide on submitting an appeal: <a href="https://uwo.ca/fhs//policies/appeals.html">https://uwo.ca/fhs//policies/appeals.html</a></td>
</tr>
</tbody>
</table>

Communicating with myself and our teaching assistant
I work hard and protect my ‘me’ time and would like our communications to occur from Monday-Friday (i.e., 8 am - 5pm). This is not to restrict your access to me; I’m just letting you know what my preferred boundaries are. These timings also extend to our TA.

NAVIGATING OUR OWL SITE
