Requests for Academic Consideration Using the Self-Reported Absence Form
Students who experience an unexpected illness or injury or an extenuating circumstance (48 hours or less) that is sufficiently severe to temporarily render them unable to meet academic requirements (e.g., attending lectures or labs, writing tests or midterm exams, completing and submitting assignments, participating in presentations) should self-declare using the online Self-Reported Absence portal. This option should be used in situations where the student expects to resume academic responsibilities within 48 hours or less.

The following conditions are in place for self-reporting of medical or extenuating circumstances:

- a) students will be allowed a maximum of two self-reported absences between September and April and one self-reported absence between May and August;
- b) any absences in excess of the number designated in clause a above, regardless of duration, will require students to present a Student Medical Certificate (SMC), signed by a licensed medical or mental health practitioner, detailing the duration and severity of illness, or appropriate documentation supporting extenuating circumstances to the Academic Counselling unit in their Faculty of registration no later than two business days after the date specified for resuming responsibilities. Please see section 4 below for more details.
- c) The duration of the excused absence will be for a maximum of 48 hours from the time the Self-Reported Absence form is completed through the online portal, or from 8:30 am the following morning if the form is submitted after 4:30 pm;
- d) The duration of the excused absence will terminate prior to the end of the 48 hour period should the student undertake significant academic responsibilities (write a test, submit a paper) during that time;
- e) The duration of an excused absence will terminate at 8:30 am on the day following the last day of classes each semester regardless of how many days of absence have elapsed;
- f) Self-reported absences will not be allowed for scheduled final examinations; for midterm examinations scheduled during the December examination period; or for final lab examinations scheduled during the final week of term;
- g) Self-reporting may not be used for assessments (e.g. midterm exams, tests, reports, presentations, or essays) worth more than 30% of any given course.
- h) students must be in touch with their instructors no later than 24 hours after the end of the period covered by the Self-Reported Absence form, to clarify how they will be expected to fulfil the academic expectations they may have missed during the absence.

Request for Academic Consideration for a Medical Absence
Students seeking academic consideration for a medical absence not covered by existing Student Accessibility Services (SAS) accommodation, will be required to provide documentation in person in the form of a completed, signed Student Medical Certificate (SMC) where the conditions for a Self-Reported Absence have not been met, including where the student has exceeded the maximum number of permissible Self-Reported Absences.

The following conditions are in place for students seeking academic consideration for a medical absence:

- a) Students must submit their documentation along with a request for academic
consideration specifying the nature of the relief being requested. This documentation, in the form of a Student Medical Certificate (SMC), shall be submitted to the Academic Counselling or Undergraduate Office of the student’s Faculty of registration indicating the period of illness, severity, and when the student should be able to resume academic responsibilities. **Forms must be submitted no later than two business days after the date specified for resuming responsibilities.**

b) Students who require academic consideration must, where possible, seek medical attention in advance of due dates, examinations, etc.

c) If the Academic Counselling/Dean’s Office determines that academic consideration is warranted, the period of academic consideration will normally be that specified on the medical documentation. Once the request for academic consideration and supporting documents have been received and approved, the student’s instructors will be notified of this by the Academic Counselling or Undergraduate Office in the student’s home faculty.

d) Academic consideration shall be granted only where the documentation indicates that the onset, duration and severity of the illness are such that the student could not reasonably be expected to complete their academic responsibilities, and only when the licensed practitioner providing the documentation is able to make a reasonable assessment of the student’s physical or mental state during the period for which relief is sought. The expectation is that the practitioner’s assessment of the student’s condition will be made in person.

e) The duration of the excused absence will terminate prior to the end of the period indicated on the SMC should the student undertake significant academic responsibilities (write a test, submit a paper) during that time.

f) Students must communicate with their instructors **no later than 24 hours** after the end of the period covered by the SMC, to clarify how they will be expected to fulfill the academic expectations they may have missed during the absence.

g) In cases where a student may be experiencing long-term or recurring absences, students should consult their Academic Counsellors for advice about which of the options available to them (academic consideration, pursuing Academic Accommodation, withdrawal from the course) are most appropriate.

**Request for Academic Consideration for a Non-Medical Absence**

Students seeking academic consideration for a non-medical absence will be required to provide appropriate documentation where the conditions for a Self-Reported Absence have not been met, including where the student has exceeded the maximum number of permissible Self-Reported Absences.

The following conditions are in place for students seeking academic consideration for a non-medical absence:

a. Students must submit the appropriate documentation along with a request for academic consideration specifying the reason for the absence and the nature of the relief being requested. This documentation shall be submitted to the Academic
Counselling or Undergraduate Office in the student's Faculty of registration. Documentation must be submitted no later than two business days after the student resumes academic responsibilities.

b. Academic consideration shall be granted only where the documentation indicates that the student could not reasonably be expected to complete their academic responsibilities as a result of an extenuating circumstance.

c. Students must communicate with their instructors no later than 24 hours after the end of the period covered by the documentation, to clarify how they will be expected to fulfil the academic expectations they may have missed during the absence.

d. In cases where a student might be absent for periods greater than 3 weeks, students should consult their Academic Counsellors for advice about which of the options available to them (academic consideration, pursuing Academic Accommodation, withdrawal from the course) are most appropriate.

On the recommendation of the department concerned, and with the permission of the Dean of that Faculty, the student will be debarred from taking the regular examination in the course.
