Women and Health: Course Perspective & Organization

This course takes a critical, interdisciplinary approach to understanding women's health. The course is organized into six modules with each module covering a topic area that is relevant to women and health. The topics covered in this course are:

Module 1:	The Medicalization of Women's Health
Module 2:	Representing Gender and Women's Health
Module 3:	The Politics of Reproduction
Module 4:	Diversity and Experiences of Health and Health Care
Module 5:	The Social Determinants of Women's Health
Module 6:	Gender, Work, and Health

Course Objectives

Through engagement with course materials and facilitated in-class discussions, students will:

- gain a critical awareness of the social and political forces that shape women's health;
- articulate the links between constructions of gender and health, with a particular focus on women and women's bodies;
- consider how medical and popular knowledge about health is implicated in the social reproduction of gender difference and gender roles;
- develop a deeper understanding of how women's experiences of health and health care vary according to social position, including social class, race, age, Indigeneity, and sexual identity;
- learn about the gendered dimensions of intersecting social and health inequities, nationally and internationally;
- broaden their understanding of women's "choices" in relation to their health and reproduction.

Through class discussion and completion of written assignments and papers students will also gain a number of practical skills. Specifically, students will:

- (i) develop their ability to read and analyze scholarly and popular texts closely and rigorously;
- (ii) learn to question and analyze critically how women's health issues are framed in the popular media;
- (iii) gain experience developing and applying a critical perspective to issues in women's health;
- (iv) participate in informed discussions and critical dialogues about issues relevant to women's health in an interdisciplinary group setting; and
- (v) develop greater reflexivity (self-awareness) of their own understandings of health, its determinants and its relationship to gendered constructions and experiences.

Required Texts and Course Packages

There is no required textbook for this course. All readings will be put on Brightspace. Students will read *The Immortal Life of Henrietta Lacks*, which can be purchased at the campus bookstore for \$23 or at Indigo for \$25. You can also read this book online through the UWO library.

Prerequisites

The prerequisite for this course is registration in second year or higher. Students are responsible for ensuring that they have successfully completed all prerequisites. Lack of prerequisites may not be used as the basis for appeal. Unless you have either the requisites for this course or written special permission from your Dean to enroll in it, you may be removed from this course and it will be deleted from your record. This decision may not be appealed. You will receive no adjustment to your fees in the event that you are dropped from a course for failing to have the necessary prerequisites.

Course Philosophy: Engaged Pedagogy

“Engaged pedagogy begins with the assumption that we learn best when there is an interactive relationship between student and teacher. As leaders and facilitators, teachers must discover what the students know and what they need to know. This discovery happens only if teachers are willing to engage students beyond a surface level. [...] When we see the classroom as a place where teacher and students can share their ‘inner light’ then we have a way to glimpse who we are and how we might learn together” (hooks, 2010, pp. 19-20)

In keeping with this teaching philosophy, the Instructor will strive to cultivate an inclusive learning environment so that every student has an opportunity to bring something to the class discussion.

The success of this class is dependent on the Instructor *and* the students coming to class prepared to discuss assigned readings. The Instructor will come to each class prepared to give a lecture and an overview of the key themes and background that are relevant to the week's topic and to facilitate group discussions. Students are expected to have completed the readings prior to class each week, to bring notes they have made on the readings to class, and to contribute to class discussion on a regular basis. Making notes on readings will assist the student in their written assignments and in preparing for exams.

In this sense, learning is a *co-responsibility* that requires the active participation of all those involved – teachers, teaching assistants and students.

- It is the responsibility of the professor to come to class prepared to lecture on course material, to facilitate student discussion and their engagement with course material, and to address and respond to students' questions about course material in class and during specified office hours.
- It is the responsibility of the teaching assistants to attend class, assist the professor in the preparation and grading of exams and papers and to address students' questions about course material during the year and before exams.
- It is the responsibility of students to prepare for class by completing required course readings before class, to attend class regularly and listen to the lectures, take notes in class, and to ask questions about course material in class and on Brightspace.

Recognition of First Nations Territory

Western University is situated on the traditional land of the Anishinaabeg, Haudenosaunee, Lenape and Attawandaron peoples who have longstanding relationships to the region of southwestern Ontario and the City of London. In close proximity to Western, there are three local First Nations communities: the Chippewas of the Thames First Nation, Oneida Nation of the Thames, and Munsee Delaware Nation. In the region of southwestern Ontario, there are 9 First Nations and a growing Indigenous urban population. Western recognizes the significant historical and contemporary contributions of local and regional First Nations and all of the Original peoples of Turtle Island (North America) to the development of Canada.

Creating and maintaining a respectful learning environment

Etiquette in the Classroom

In order to maintain a respectful and productive learning environment, it is essential that students arrive at class ready to listen and attend to lectures and films. Disrespectful and disruptive behaviour during class will not be tolerated and will affect one's participation grade. Disrespectful and disruptive behaviour includes the following: texting or talking on mobile phones, chatting on or browsing Facebook or other social media sites, persistent talking during lectures or films, wearing headphones, emailing, and/or surfing the Internet for non-class purposes. Students observed to be engaging in this behaviour during class will be asked to stop. If disruptive behaviour persists, the professor will use her discretion and judgment in deciding how best to deal with the situation. On the first day of class, all students in the class will be invited to share their views on this policy. Student viewpoints will be considered in deciding upon appropriate consequences for disruptive behaviour in the classroom.

Etiquette for Online Communication with Course Instructors and TAs

Students are welcome to direct questions concerning the course to the course instructor or TA by email. **Students must email the TA/Instructor from the UWO email accounts and put GSWS 2244 in the subject line.** Emails should address the TA/instructor appropriately – (e.g., “Hi Professor Polzer” or “Hi Florence” not “Heh prof”). We will do our best to respond as promptly as possible. If a student does TA not receive a response within 48 hours, a second email is acceptable as a polite reminder of the student's question or concern. Please try to make sure that your question is not already addressed in the syllabus.

Gender-Based and Sexual Violence

Western University [is committed to reducing incidents of gender-based and sexual violence](#) (GBSV) and providing compassionate support to anyone who is going through or has gone through these traumatic events. If you are experiencing or have experienced GBSV (either recently or in the past), you will find information about support services for survivors, including emergency contacts at the following website: <https://www.uwo.ca/health/studentsupport/survivorsupport/get-help.html>

To connect with a case manager or set up an appointment, please contact support@uwo.ca

Policy on Use of AI

In this course, the use of AI (ChatGPT) is prohibited to generate written assignments. Spellcheckers and grammar checkers may be used. If AI use is suspected, the instructor may ask for research notes, rough drafts, essay outlines, and other materials used to prepare assignments. Students are expected to retain these materials until after final grades have been entered. If proof cannot be provided of these materials, this will result in deduction of marks from assignments.

University Policies

Health Related Policies

It is our collective responsibility to manage public health risks in the classroom. Please consider masking if you are attending class while feeling unwell and symptomatic.

In the event of a COVID-19 resurgence or other public health crisis that requires online course delivery, the course will proceed either synchronously (i.e., at the times indicated in the timetable), asynchronously (e.g., posted on Brightspace for students to view at their convenience), or using a combination of the two. The grading scheme will not change. Any remaining assessments will also be conducted online as determined by the course instructor.

Use of Electronic Devices

During Exams: Unless you have medical accommodations that require you to do so, or explicit permission from the instructor of the course, you may not use any electronic devices during ANY tests, quizzes, midterms, examinations, or other in-class evaluations.

During Lectures and Tutorials: Although you are welcome to use a computer during lecture and tutorial periods, you are expected to use the computer for scholastic purposes only and refrain from engaging in any activities that may distract you and other students from learning. From time to time, your professor may ask the class to turn off all computers to facilitate learning or discussion of the material presented in a particular class. You may not make audio or video recordings of lectures – nor may you edit, re-use, distribute, or re-broadcast any of the material posted to the course website – without the permission of the course instructor.

Academic Consideration and Accommodation Supports and Policies

Students must familiarize themselves with the *University Policy on Academic Consideration – Undergraduate Students in First Entry Programs* posted on the Academic Calendar:
<https://www.uwo.ca/univsec/pdf/academicpolicies/appeals/academicconsiderationSep24.pdf>

This policy does not apply to requests for academic consideration submitted for **attempted or completed work**, whether online or in person. The policy also does not apply to students experiencing longer-term impacts on their academic responsibilities. These students should consult: [Accessible Education](#).

For procedures on how to submit Academic Consideration requests, please see the information posted on the Office of the Registrar's webpage:

<https://registrar.uwo.ca/academics/academicconsiderations/>

All requests for Academic Consideration must be made within 48 hours after the assessment date or submission deadline.

All academic consideration requests must include supporting documentation; however, recognizing that formal documentation may not be available in some extenuating circumstances, the policy allows students to make one Academic Consideration request **without supporting documentation** in this course.

When a student misses the **Final Exam [if applicable]** and their Academic Consideration has been granted, they will be allowed to write the Special Examination (the name given by the University to a makeup Final Exam). See the Academic Calendar ([Special Examinations](#)), especially for those who miss multiple final exams within one examination period.

Policy on Accommodation for Religious Holidays

Students should review the [policy for Accommodation for Religious Holidays](#). Where a student will be unable to write examinations and term tests due to a conflicting religious holiday, they should inform their instructors as soon as possible but **not later than two weeks** prior to writing the examination/term test. In the case of conflict with a midterm test, students should inform their instructor as soon as possible but not later than one week prior to the midterm.

Religious Accommodation requests for final exams should be submitted via the Student Absence Portal.

Attendance

Attendance will be recorded. Students can miss up to one class per term without penalty. Persistent absenteeism (3 weeks or more/term) may be rendered grounds for failure in the course in accordance with the policies of the Department of Gender, Sexuality and Women's Studies. Persistent absenteeism may result in being contacted by the instructor who may request a meeting. Continued absence after this point will be reported to the Undergraduate Chair.

Use of Plagiarism Checking Software: Turnitin

All required papers will be subject to submission for textual similarity review to the commercial plagiarism detection software under license to the University for the detection of plagiarism. All papers submitted for such checking will be included as source documents in the reference database for the purpose of detecting plagiarism of papers subsequently submitted to the system. Use of the service is subject to the licensing agreement, currently between The University of Western Ontario and Turnitin.com <http://www.turnitin.com>.

Student Code of Conduct and Scholastic Offences

The Code of Student Conduct defines the standard of conduct expected of students registered at The University of Western Ontario, provides examples of behaviour that constitutes a breach of this conduct, provides examples of sanctions that may be imposed, and sets out the disciplinary procedures that the University follows. Scholastic offences are taken seriously and students are directed to read the appropriate policy, specifically, the definition of what constitutes a Scholastic Offence, at the following site: http://www.uwo.ca/univsec/pdf/academic_policies/appeals/scholastic_discipline_undergrad.pdf

Health and Wellness

As part of a successful undergraduate experience at Western, we encourage you to make your health and wellness a priority. To support physical activity, all students receive membership in Western's Campus Recreation Centre as part of their registration fees. Further information regarding health and wellness-related services available to students may be found at <http://www.health.uwo.ca/>.

If you are in emotional or mental distress, refer to Mental Health@Western (<https://uwo.ca/health>) for a complete list of options about how to obtain help. If you don't want to reach out to formal services, you may want to have a wellness safety plan in place with a few trusted individuals.

Getting involved in community events can be beneficial to your health. There are numerous cultural events offered at Western throughout the year. Please check out the Faculty of Music web page (<http://www.music.uwo.ca/>) and the McIntosh Gallery (<http://mcintoshgallery.ca/>). As well, the local London community offers many cultural events that may be of interest.

Grade Descriptions

The university-wide descriptor of the meaning of letter grades, as approved by Senate, is as follows:

A+	90-100	One could scarcely expect better from a student at this level
A	80-89	Superior work that is clearly above average
B	70-79	Good work, meeting all requirements and eminently satisfactory
C	60-69	Competent work, meeting requirements
D	50-59	Fair work, minimally acceptable.
F	below 50	Fail

It is expected that the grades for this course will fall between 72-76. In the event that the course average falls outside this range, the grades will be reviewed by the instructor, in consultation with the Undergraduate Chair, to see if an adjustment is necessary to bring the average in line with this expectation.

A student requesting an appeal to a specific course with respect to a grade for an assignment or examination must first contact their instructor to discuss. A guide for how to submit a grade appeal can be found here: <https://uwo.ca/fhs//policies/appeals.html>

Evaluation

Engagement (2 X 10% = 20%)

Engagement includes regular attendance and thoughtful contributions during class and online. Guidance for what constitutes thoughtful contribution will be provided in class. Each term, the following will be considered in evaluating engagement:

- Attendance: Up to 5 points for consistent attendance. Attendance will be recorded each week. A rubric for attendance points will be posted on Brightspace.
- Contributions: This will be graded primarily on the basis of participation in in-class and on-line discussions. Other opportunities to contribute will also be provided and may include: responses to prompts or questions posed during lecture; brief summaries of seminars outside of class related to course themes; completion of critical thinking drills. Guidance will be posted on Brightspace.

Papers: (2 X 10% = 20%)

Applied Media Analysis (due December 2, March 31)

The objective of these papers is to test students' understandings of key course concepts and cultivate students' close reading and critical analysis skills. Students will be asked to compose a critical analysis of a news media article, film, or other media piece that focuses on gendered constructions and/or experiences of health/health care. Students may be required to select their own media piece. Detailed instructions and guidance will be provided in class and on Brightspace. **Assignments must be submitted in class and on Brightspace. Assignments will NOT be accepted by email.**

Exams: (60% total: 2 X 30%)

The December exam will cover material from September to December. The April exam will cover material from January to April. Dates and locations of exams are set by the Registrar's Office. All material covered in class (including regular and guest lectures, films and other learning materials) is testable.
