

Modification Form for Permit BIO-LHRI-0050

Permit Holder: Nathalie Berube

Approved Personnel

(Please stroke out any personnel to be removed)

Kristin Kernohan
Michael Levy
Yan Jiang
Ashley Watson
Lauren Solomon

Additional Personnel

(Please list additional personnel here)

Jason Bush
Adrienne Elbert
Matthew Edwards

Approved Microorganisms

Please stroke out any approved
Biological Agent(s) to be removed

E. coli DH5 alpha,
One shot Top 10 competent cells

Write additional Biological Agent(s)
for approval below. Give the full
name

E. coli DH10bata,

Approved Primary and Established Cells

rodent (primary), human (established),
rodent (established), HeLa, MCF-7, C33A,
Neuro-2A, U20S, SH-SY5Y

Phoenix-Eco(human), HEK293

Approved Use of Human Source Material

Approved Genetic Modifications (Plasmids/Vectors)

adenovirus,

retrovirus
Plasmids/vector see attach form

Approved Use of Animals

Approved Biological Toxin(s)

As the Principal Investigator, I have ensured that this project will follow the Western Biosafety Guidelines and Procedures Manual for Containment Level 1 2 Laboratories (and the Level 3 Facilities Manual for Level 3 projects). I will ensure that UWO faculty, staff and students working in my laboratory have an up-to-date Hazard Communication Form, found at <http://www.shs.uwo.ca/workplace/newposition.htm>

Signature of Permit Holder:

Current Classification: 2 Containment Level for Added Biohazards:

Modification Form for Permit BIO-LHR
