Mr. Martin Belanger

Dear Martin,

I am writing to advise that within Bernstein Value Equities, we have decided to merge our US and Canadian Value Investment Policy Groups (IPG) into a single North American Value Equities IPG to be led by John Mahedy, Chief Investment Officer of US Large Cap and North American Value Equities.

We regret to announce that as a result, Jeff Singer will be leaving the firm in June. Peter Frith, Director of Research for Canadian Value, remains in that role and will become a member of the newly combined IPG.

James MacGregor will take over Jeff Singer's responsibilities as Chief Investment Officer of Canadian Value. James is a seasoned investment professional with 16 years of industry experience and 11 years with the firm. He was appointed Chief Investment Officer—Small and Mid Cap Value Equities in 2009 and had previously been Director of Research—Small and Mid Cap Value Equities since 2004. He was previously a Senior Research Analyst covering the banking, energy, industrial commodity, transportation and aerospace & defense industries for those same services.

We will call shortly to arrange a meeting to discuss this change with you at greater length. Please feel free to call me in the interim, however, should you have any immediate questions or need any additional information.

Respectfully,

Mike Parsons
Director of Client Relations
