## Course Description

This course will be an introduction to research on language acquisition with a specific focus on Spanish as the second language. Using a core textbook and recent articles, students will learn about different theories regarding acquisition, the role of individual differences, as well as the main learning styles and learner characteristics. Students will be able to connect this body of knowledge to their own learning and, as a result, to design an experimental study as their final group project. The course is taught in English. If you are a student who is taking this course as part of the Spanish minor/major requirement (SP3319A), your proposal has to be with a focus on Spanish acquisition.

All course material will be posted to OWL: <http://owl.uwo.ca>. Students are responsible for checking the course OWL site on a regular basis for news and updates. This is the primary method by which information will be disseminated to all students in the class.

If students need assistance with the course OWL site, they can seek support on the [OWL Help page](#). Alternatively, they can contact the Western Technology Services Helpdesk. <https://wts.uwo.ca/helpdesk/>

## Course Objectives

This course aims to achieve the following:

- *Introduce* students to first and second language acquisition and factors that are involved in acquiring a language.
- *Present* various debates and theories on SLA.
- *Learn* how to analyse data and write a linguistic essay.

## Learning Outcomes

Upon successful completion of this course, students will be able to:

- *Understand* how children and adults acquire a language.
- *Understand* the relationship between major theories of SLA and the process of acquiring a second language.
- *Write* a solid linguistic essay.

## Resources

- All lectures will be posted in OWL. (Course calendar and list of course readings are included in this document)
- **Required textbook:** Lightbown, P. & N. Spada. (2021). How Languages are Learned (Fifth Edition). Oxford University Press.
- The textbook is the same for both LIN2244A and SPA3319A, and it is available at western bookstore:

## Evaluation descriptions

### Midterm, on Thursday, Oct. 26, 2023 (20%)

- Midterm will include the material of Chapters 1-3, as well as the articles discussed during the tutorials.
- The format will be mixed (multiple choice, true & false, as well as short answers).

### Oral presentations (10%)

- Each tutorial, a student or a group will prepare a presentation on one of the articles from the reading list (*see the dates and the article list below*).
- Presentations will be no more than 20-25 minutes and include a summary of the article as well as a short activity at the end to promote the audience's interaction with the material that has been presented. Think of engaging and creative activities.

### TCPS2 tutorial (duration 3 hours; 5%)

- As part of this course, all the students are required to complete an online tutorial called "TCPS2 tutorial" (<http://tcps2core.ca/welcome>).
- The purpose of this online course is to introduce research ethics principles and applications for researchers to the students. A number of examples, media reports, and external links are included to illustrate the impact of research design decisions on participants, researchers, and society as a whole.
- Upon completion, students will receive a certificate that has to be uploaded to the Dropbox or to be sent to the instructor in order to receive 5%.

### Participation, Preparation and Engagement (10%)

- Students are required to have read the assigned materials for each class prior to coming to class.
- They are expected to participate and engage with content as much as possible.

- They are expected to attend all the classes (lectures and tutorials).
- Inconsistent attendance (including frequent absences and late arrivals) will negatively impact your level of participation and will significantly affect your final participation grade.
- Attendance without active participation will lead to a poor final participation grade.

### Final Group Project (55%)

- During the course, students will work in groups of 4 (or less) to design an empirical study with a focus on L2 acquisition.
- The goal of this project is to introduce the student to empirical research on language acquisition.
- The students will choose a linguistic topic of their interest and choose the most appropriate method according to the proposed research question to carry on their study.
- **Each group has to consult the course instructor prior to writing the proposal.**

### Initial proposal (short version), due Thursday, Nov. 9, 2023, by 12:30 p.m. (15%):

- The short version of the proposal must include the following components: aim of the study, a description and an example of the linguistic phenomenon under investigation, main research question(s), literature review (two previous studies on the topic), a brief outline of possible experimental methodology including the participants, task(s) and stimuli, references (minimum 3 sources), and appendices.
- The proposal should not exceed 5 pages (this does not include the appendices and bibliography). The appendices and bibliography need to be included in the proposal.
- The format is Times New Roman, 12 pts, 2 spaces.
- A hard copy of the short version of the proposal must be submitted to the instructor on Thursday, Nov. 9, 2023, by 12:30 p.m. An electronic copy must also be submitted to Dropbox on the same day by 12:30 p.m.
- It must be submitted on time. Late submission of the proposal without academic consideration will be subject to a late penalty 5 % per day.
- **Note for Spanish majoring/minoring students:**
  - **Your proposal has to be with a focus on Spanish acquisition.**
  - **It can be written in either English or Spanish.**

### Final proposal presentation (10%):

- During the week 13, you will present your final proposal (PowerPoint presentation) for a duration of 15-20 min. Your presentation must include the aim of study, a description and an example of the phenomenon under study, your research questions, literature review, hypotheses, methodology (participants, tasks, stimuli), conclusion, and future work.

### Final proposal (long version), due to Thursday, Dec 7, 2023, by 12:30 p.m. (30%):

- The final proposal is a longer version of the initial proposal that you will have submitted. The format and sections will be the same, but the long version is more detailed. It has to contain the aim of your study, a description of the phenomenon under study, your research questions, previous literature, hypotheses, detailed description of the methodology, conclusion, future work, references (minimum 8 sources), and

appendices.

- Moreover, you are expected to have incorporated my earlier comments on your initial proposal (short version) in this version.
- The paper should not exceed 15 pages (this does not include the appendices and bibliography).
- The format is Times New Roman, 12 pts, 2 spaces.
- A hard copy of the long version of the proposal must be submitted to the instructor on Thursday, Dec 7, 2023, by 12:30 p.m. An electronic copy must also be submitted to Dropbox on the same day.
