

# FRANCE

**BELOW ARE SOME KEY INITIATIVES AND STRATEGIES FRANCE HAS USED TO IMPLEMENT THE UN SUSTAINABLE DEVELOPMENT GOALS.**

- High standard of quality of life driven by inclusive social security systems, for example unemployment benefits
- Access to healthcare and basic goods like water, energy quality food and education for all
- Developing excellent private and public infrastructures for innovation and research, communication, transport etc
- Promoting sustainable growth by passing a "climate energy contribution" on greenhouse gas emissions which involves the French government introducing a minimum price on carbon

- An initiative that aims to support French business and reinvent industry in France. They have a focus on New Resources and Sustainable Cities,

## PROGRESS AS OF 2020

- In 2020 they received an SDGs global rank of 4 and a global index score of 81.1

**SDGS ACHEIVED**

## PROBLEM AREAS

- Increasing electronic waste
- High sulfur dioxide and nitrogen emissions

- High energy related carbon dioxide emissions
- High effective carbon rate
