Collaborative Research and Training Experience (CREATE) Program

February 6, 2019
Welcome

• Acting Team Leader: Kate Henbest
• Program Officers:
  - Julie Loiselle
  - Guy Faubert
• Program Assistant:
  - Martin Laporte

CREATE@NSERC-CRSNG.GC.CA
• Program overview
• Application process
• Selection criteria

CREATE supports the training of students and postdoctoral fellows from Canada and abroad through the development of innovative training programs that:

- encourage collaborative and integrative approaches that address significant scientific challenges
- facilitate the transition of new researchers from trainees to productive employees in the Canadian workforce
CREATE encourages

- Enriched training experiences
- Improved job readiness
- Professional skills development
- Industrial collaboration
- Student mobility
- Interdisciplinary research
Qualities of successful CREATE initiatives

- Innovative nature
- Rich training environment
- Excellence of the researchers and their training success
- Capacity to raise the standard for best practices in training
- Promoting collaboration and international awareness
Value of the Grant

Year 1: Normally, $150,000 (± $50,000)

Years 2 – 6: Normally, $300,000 (± $50,000) per year

Total: up to $1,650,000 over 6 years

- Non renewable
- Start Date: April 1 default or Sep 1 by request
Expectations

Year 4-6 funding is dependent on positive performance evaluations by NSERC.

Regular progress reports are required.

Must demonstrate that proposed objectives, training elements, HQP targets, etc., are being met.

i.e. applicants are held accountable and must follow through on what is promised in the proposals.
Allowable expenses

- **At least 80% to trainee stipends**
  - Up to 30% of this may go toward non-NSE trainees
- Remaining 20% may be used for...
  - Trainee travel (conferences, exchanges, internships, etc).
  - Training program administration (e.g. salary of program coordinator)
  - Dissemination of training materials
  - etc.

Note that travel costs of the applicants, co-applicants, collaborators, program committee members, and project coordinators are not eligible.
Trainee stipends

- No minimum or maximum
- May be complemented by other sources
  - Supervisors
  - Collaborators
  - Scholarships
- A stipend from CREATE is not a requirement for trainee participation in the initiative
- Emphasis of the initiative must be on graduate students, but undergraduate and postdoctoral trainees may also be supported
Teams leading CREATE initiatives

- A complementary group of researchers
- From eligible Canadian universities
- For multi-university applications: must have at least one co-applicant involved for trainees at that institution to be eligible to receive CREATE stipends
- Work collaboratively to offer a defined training program to a group of trainees
- Supporting Gender Representation and Advancement
Teams leading CREATE initiatives

- Lead applicant must be from an NSERC-supported field at an NSERC-eligible university
- At least 70% of the group must be in NSE (co-applicants may be from other fields)
- Can an applicant or co-applicant be involved in an existing CREATE grant at the time of application?
Program committee

Program committee (PC) consists of a variety of stakeholders, e.g.

- Potential future employers of graduates
- Collaborators
- Curriculum developers
- Trainees

Program evaluation and guidance
NEW THIS YEAR: No Priority areas

“priority areas” within the Natural Sciences and Engineering no longer a part of the CREATE program
Streams

Regular stream CREATE may involve any collaborations: academic/government/industry/NGO, Canadian/international

International Stream:

CREATE + Germany’s DFG-IRTG: for collaboration with German researchers. Funding aligned with DFG-IRTG program duration: up to 9 years instead of 6 years for regular or industrial stream CREATE (same grant value).

Industrial stream CREATE: requires industrial participation

Applications to the DFG-IRTG and Industrial streams are not evaluated separately from the regular stream applications
Industrial Stream

Up to 50% of the CREATE grants will be awarded to industrial stream applications.

- Increased emphasis on preparing trainees for non-academic careers; enhanced academic-industrial collaboration
- Requires participation of industrial collaborators on the program committee
- Requires industrial internships for trainees of at least 20% of their studies
Industrial collaborators

• Canadian-based businesses, able to exploit the research results for the economic benefit of Canada.

• International companies eligible if activities related to the proposed research take place in Canada (e.g. R&D, manufacturing); if their participation will result in a benefit to Canada.
Application Procedures

Phase 1: **Letter of Intent (LOI)**

Phase 2: **Application** (if invited)
Phase 1: Letter of Intent Selection process & criteria

1. Internal selection at university (quota based)
2. CREATE Selection Committee
   - Merit of proposed training program (60%)
   - Excellence of the research team (40%)
Phase 1: Letter of Intent

Form 187: Letter of Intent to Apply for a CREATE

- List co-applicants (min 1, max 10)
- Collaborators
- External Reviewers suggestions (6)
  - New this year: At least two from Canada and at least one from abroad
  - LOIs will not be sent for external review
Phase 1: Letter of Intent

- Personal Data Form (Form 100)
- Letter from VP Research of the lead university
Phase 1: Letter of Intent

- Outline of Training Program (max 2 pages)
  - Objectives
  - Novelty
  - How trainees would be better prepared for careers
  - Involvement of stakeholders
  - Description of potential future employers, assessment of job prospects for trainees
Phase 1: Letter of Intent

- Excellence of Proposed Team (max 2 pages)
  - Complementarities
  - Expertise
  - Roles, responsibilities
  - Training experience
Phase 2: Full application

Selection process & criteria

Only if invited

Criteria:
- Merit of proposed training program (50%)
- Excellence of the research team (25%)
- Program management and sustainability (25%)
Phase 2: Full application

- Personal data form (Form 100) for the applicant
- Personal data form (Form 100) or CCV for all co-applicants (max 10)
- One letter from the lead applicant’s university
  - Support, financial commitments
- Up to 3 letters from collaborators, if applicable
  - Nature of support
Phase 2: Full application

- Form 102 – Application for a CREATE grant
  - Application profile
  - Plain language summary of proposal
  - Co-applicants and collaborators
  - Proposed expenditures
Phase 2: Full application

- Research training program proposal

  (free-form, 12 pages + 1 for references)

  - Objectives
  - Elements of the training program
  - Estimated number of trainees
  - Job prospects
  - Program Committee
  - List of deliverables
Phase 2: Full application

- **Budget justification** (free form, 2 pages)
- **Support from other sources** (free form, 2 pages)
- **Maximum 1 Letter of support from lead university:**
  - List of all contributions from the university
  - Describe the details of support
  - Involvement in the training program
  - Plans to ensure sustainability
Additional requirements for industrial stream applications

• Skills identified as needed for a career in industry
• Description of improved job-readiness for industry sector
• Details about trainee internships
Additional application requirements for industrial stream

Letter of Intent (phase 1)

- ONE e-mail/letter from industry partner confirming:
  - Willingness to participate on the program committee
  - Intent to host internships
Additional application requirements for industrial stream

Application (phase 2)

- Max 3 letter(s) from industry partner(s) confirming
  - Commitment to participate on the program committee, with confirmed name of the industrial member
  - Commitment to host trainee internships of at least 20% of the duration of trainees’ studies. Agreements must be in place and should be guaranteed (may be dependent on success of application).
Application procedures for DFG collaborations

Phase 1
- Pre-proposal at DFG

Phase 2
- German researchers submit a full application to DFG
- Canadian researchers submit a full application to NSERC

Important Dates

March/April: Letter of Intent deadline (Univ.)
May 1: Letter of Intent deadline (NSERC)
June 30: Invitation to submit an application
September 22: Application deadline (NSERC)
March: Notification of results
