

# Department of Statistical and Actuarial Sciences (DSAS)

## Fall/Winter 2021 Academic Counselling

Please note the following:

- 1) Special Permission (SP) requests and other module or course queries
  - Please email your request to [stats-inquiry@uwo.ca](mailto:stats-inquiry@uwo.ca)
  - Your email should include your student ID and a clear and concise summary of your SP request or other question.
  - Please note that we seldom give SP for pre-reqs that are not met and we do not override the online registration system.
  
- 2) Course equivalency requests for Letters of Permission (LOP) for courses you are looking at taking at another university and exchange course approvals.
  - Please email Steve Kopp ([kopp@uwo.ca](mailto:kopp@uwo.ca)). You will need to include a course outline (not just a description) in order for the course to be evaluated and should indicate what equivalency you are looking for where possible.
  - Note that transfer credit requests are now triaged through your faculty (we do not deal directly with students on transfer credit assessments).
