

## Manulife Financial Scholarship in Actuarial Science

Awarded annually to an undergraduate student in the third year of an Honors Specialization in Actuarial Sciences, or a Double Major, one module of which is in Actuarial Science, who has achieved high academic standing (80% or greater), displays leadership abilities and skills as described below, and is interested in participating in a four-month paid work experience with Manulife Financial following third year. This work experience is optional, with placements in Waterloo and Toronto, Ontario. Recipients will be paid at standard rates for the student actuarial pool within Manulife Financial's organization for the work term, exclusive of the scholarship. The successful recipient will have demonstrated leadership and project management skills developed through participation in school assignments or extra-curricular activities, such as sports, volunteer activities or experience through employment. Leadership skills may include initiative, goal setting, outcome achievement, decision making and problem solving, interpersonal skills and team work, persuasiveness, and verbal and written communication skills. Examples of leadership can include successfully driving issues to closure, influencing others, and resolving issues among peers or team members using communication, decision-making and problem-solving skills. Selection of the recipient will be made by a committee appointed by the Chair of the Department of Statistical and Actuarial Sciences.

Applications can be obtained from the Department and must be submitted by September 30th. A one-page statement must also be included describing the candidate's leadership abilities, skills and examples as described above, in addition to discussing his or his interest in a career in actuarial sciences and interest in summer employment with Manulife Financial. The recipient will be notified of selection by October 31st. This scholarship was established by a generous gift from Manulife Financial.
