REPORT OF THE PRESIDENT

To: Board of Governors
From: Alan Shepard
Date: September 17, 2019
Re: President’s Report to the Board

Dear Governors,

This report summarizes noteworthy developments since I joined Western July 1 and also highlights some of the matters for the months ahead.

**Getting started:** It was a pleasure to welcome my first incoming class as Western’s 11th president earlier this month on UC Hill. This year’s first-year cohort is approximately 5,300, with a total undergraduate and graduate enrolment of approximately 33,000 on main campus. We are fortunate to attract so many great students to Western and our affiliated university colleges, and it’s a privilege to have the opportunity to participate in their educations.

**Opening our doors:** Western hosted several major conferences and events over the summer—including our 3rd annual World’s Challenge Challenge, the Times Higher Education Teaching Excellence Summit, the International Association for College Admission Counseling, and the 7th annual See the Line symposium on concussion research, among others—attracting upwards of 3,000 delegates from across Canada and around the world. Congratulations and thanks go to the many faculty, staff and students who contributed to the success of these events.

Looking ahead, we will be hosting a reception September 24 on campus for colleagues and external partners who are involved with the planning for Congress 2020. Scheduled for May 30-June 5, this important event will attract 8,000 or more delegates to Western and promote the wide range of research conducted across the humanities and social sciences. Western is hosting Congress for the second time, the first being a very successful event in 2005. Thanks go to Academic Convenor Jeff Tennant and the many volunteers behind this major institutional initiative.

**Accolades:** I’m pleased to congratulate the following faculty, students and alumni who, among others, were recognized with special honours over the summer:

- Professors Ann Chambers (Oncology, Medical Biophysics and Pathology), Joy MacDermid (Physical Therapy) and Ravi Menon (Medical Biophysics) on being elected as fellows of the Royal Society of Canada (RSC)

- Professors Lauren Flynn (Chemical & Biochemical Engineering) and Janice Forsyth (Sociology) on being named members of the RSC’s College of New Scholars, Artists and Scientists

- Professor Neil Banerjee (Earth Sciences) on being awarded the Canadian Fulbright Fellowship in support of his research on synchrotron technology and mining
• Students **Katie Brown** (Physics) and **Liam Israels** (Engineering) on receiving the Schulich Leaders Scholarships

• Alumni **Selwyn Collaco** (EMBA’15) and **Devish Gupta** (JD’12) on being named among Canada’s Top 25 Immigrants in an awards program sponsored by RBC and Canadian Immigrant Magazine

Celebrating the success of our colleagues is important to building a positive campus culture. I recognize this list is not a comprehensive reflection of all the summer’s special achievements and I encourage you to reach out to share your good news stories with me. Please join me in a collective effort to recognize the good work of others.

**Team success:** Among a long list of scholarly achievements and research advancements that captured public attention over the summer—including the opening of Western’s one-of-a-kind ImPaKT imaging and pathogen containment facility—many of our colleagues were part of successful efforts to attract the support of various federal granting agencies.

On July 17, the Social Science & Humanities Research Council announced that 97 Western research projects have been awarded a total of $8.4 million. Noteworthy among this deserving work is a large collaborative project co-directed by **Laura Stephenson** (Political Science) called the Consortium on Electoral Democracy involving a nationwide network of scholars studying political engagement, representation, public opinion, electoral behaviour and systems, electioneering and other factors that influence policy-making in Canada.

Also on July 17, more than 20 Western researchers involved with 10 separate projects in the Schulich School of Medicine & Dentistry and the Faculty of Health Sciences were awarded more than $8 million from the Canadian Institutes of Health Research. Their work ranges from evaluating new ways of looking at spinal cord injury to understanding how neuroimaging can improve diagnostics for Parkinson’s disease.

Then, on August 12, the Canada Foundation for Innovation announced over $1 million in infrastructure support for six projects involving Western faculty members in Psychology, Computer Science, Anatomy & Cell Biology, Chemical & Biochemical Engineering, and Mechanical & Materials Engineering.

It’s great to see team success across the disciplines, particularly those involving partnerships within and beyond our institution. Congratulations to all.

**Government update:** On the provincial front, formal processes related to the next round of Strategic Mandate Agreements (SMA3) for Ontario’s postsecondary institutions are underway, with expectation that submissions will be made to the government in the first quarter of 2020.

On August 12, I met **Ross Romano**, the new Minister of Training, Colleges & Universities, who was appointed to the role as part of a spring cabinet shuffle that saw former minister **Merilee Fullerton** appointed Minister of Long-Term Care. We’ve also had opportunity to meet with other TCU officials including **David Piccini**, recently named parliamentary assistant to the minister. We look forward to participating in the Council of Ontario Universities Summit in Toronto later this month where we will continue our advocacy efforts on Western’s behalf.

On the federal front, we are now of course looking ahead to the newly announced October 21 election. There are numerous issues that will be focal points for this campaign that are likely to keep postsecondary matters in the background. However, together with our peer institutions in the U15, we will be looking for opportunities to advocate on behalf of our sector.
Senior appointments: I want to recognize and extend my best wishes for success to the following colleagues who have assumed new leadership roles effective July 1 or more recently:

- **Sarah Prichard**, Acting Vice-President (Research)
- **Kevin Shoemaker**, Acting Associate Vice-President (Research)
- **Jacquelyn Burkell**, Acting Associate Vice-President (Research)
- **Ken Coley**, Dean, Faculty of Engineering
- **Perry Klein**, Interim Acting Dean, Faculty of Education (July 1-September 31, 2019)
- **Kathy Hibbert**, Acting Dean, Faculty of Education (October 1-June 30, 2020)
- **Jim Weese**, Acting Vice-Provost & Associate Vice-President (International)
- **Mark Daley**, Special Advisor to the President (Data Strategy)

Leadership review and selection: The work of selection committees for the next Dean of the Schulich School of Medicine & Dentistry and the next Vice-Provost & Associate Vice-President (International) remain underway. Meanwhile, the work of review committees for the Vice-Provost (Academic Planning, Policy & Faculty) and the Dean of Social Science is also underway. Looking ahead, selection committees to recruit the next Vice-President (Research) and the next Dean of the Faculty of Education will soon be constituted and begin their work in the fall.

Yours sincerely,

Alan Shepard
**UNANIMOUS CONSENT AGENDA**

**FOR APPROVAL**

Any member who wishes to ask a question, discuss, or oppose an item that is listed below may have it removed from the consent agenda by contacting the Secretary of the Board of Governors prior to the meeting or by asking that it be removed before the Chair calls for a mover and seconder for the following motion.

**Recommended:** That the following items be approved or received for information by the Board of Governors by unanimous consent:

The Unanimous Consent Agenda

The Board’s parliamentary authority -- *Sturgis Standard Code of Parliamentary Procedure* -- explains the consent agenda:

Organizations having a large number of routine matters to approve often save time by use of a **consent agenda**, also called a **consent calendar or unanimous consent agenda**. This is a portion of the printed agenda listing matters that are expected to be non-controversial and on which there are likely to be no questions.

Before taking the vote, the chair allows time for the members to read the list to determine if it includes any matters on which they may have a question, or which they would like to discuss or oppose. Any member has a right to remove any item from the consent agenda, in which case it is transferred to the regular agenda so that it may be considered and voted on separately. The remaining items are then unanimously approved en bloc without discussion, saving the time that would be required for individual votes.

A number of Canadian university Boards have employed the consent agenda format to include not only routine approval items, but also information items. One reason for using this format is to allow the Board to focus on major items of business. While approval of an omnibus motion saves time at Board meetings, Board members will want to review the agenda materials carefully in order that they properly discharge their responsibilities.

**How it works:**

The Secretary identifies action and information items that are routine and/or likely non-controversial. In so doing, she may consult with the Chair of the Board, the relevant committee chair, and principal resource persons. In each Committee’s report, these items are noted in the list of items at the beginning of the report. Action and information items on the agenda and in committee reports that are **not** noted on the consent agenda will be presented singly for discussion and voting (when appropriate).

When members receive their Board agendas, they should review all reports in the usual manner. **If any member wants to ask a question, discuss, or oppose an item that is marked for the consent agenda, he or she can have it be removed from the consent agenda** by contacting the Secretary of the Board of Governors prior to the meeting or by asking that it be removed before the Chair calls for a mover and seconder for the motion to approve or receive, by unanimous consent, the items listed.

At the Board meeting, before the unanimous consent motion is presented for approval, the Chair of the Board (1) will advise the Board of items that are to be removed from the list, based on prior requests from Board members; and (2) will ask if there are any other items that should be removed from the list. The remaining items are then unanimously approved *en bloc* without discussion, saving the time that would be required for individual presentation and voting. Those matters that have been struck from the consent agenda will be handled in the usual way as each Committee’s report is presented.

The minutes of the Board meeting will report matters approved as part of the consent agenda as "carried by unanimous consent". Information items received as part of the consent agenda will be reported as received.

Chair’s Remarks

The Chair of the Board noted the many accomplishments of President Chakma, thanked him for his excellent leadership and invited the President to address the Board of Governors with some outgoing remarks.

REPORT OF THE PRESIDENT

The President discussed the following items:

- Provincial cabinet shuffle
- Linda Hasenfratz named Western’s 23rd Chancellor
- Dr. Sarah Prichard appointed as Western’s Acting Vice-President (Research)
- Julie McMullin appointed Vice-President (Academic) & Provost at Mount Saint Vincent University in Halifax
- Patrick Callaghan appointed Assistant Vice-Chancellor, Finance & Operations at the Scripps Institution of Oceanography at the University of California, San Diego
- Ken Coley named Dean of the Faculty of Engineering
- Paul Paolatto named interim Director of Finance and Administration at Research
Western

- Jim Weese appointed Acting Vice-Provost & Associate Vice-President (International)
- Kevin Shoemaker named as interim Associate Vice-President (Research)
- The selection committee for the next Dean of the Schulich School of Medicine & Dentistry remains underway
- Review Committees for the Vice-Provost (Academic Planning, Policy & Faculty) and the Dean of Social Science are underway
- Selection committees to recruit the next Vice-President (Research), next Associate Vice-President (Research), and the next Vice-Provost & Associate Vice-President (International) will soon be struck or have already begun their work

Additional items reported on by the President:

- The President noted his ongoing support of the University and his gratitude to the Board of Governors for the privilege serving as the President of the University.

- A member asked if the President would like to make any comments on the *Times Higher Education* World University Rankings 2019. The President advised that Western had worked hard to improve in the ranking metrics, but that other universities were working equally as hard. He stated that Asian and Australian universities were performing quite well, and that this is an opportunity for the University to improve by challenging the status quo.

- A member noted that the Library and Information Sciences program performed well against its previous standing.

A member requested information on the retirement incentive offer provided to Faculty, including the parameters and eligibility criteria. She requested clarification on why this was not offered to staff members. The President advised the Board that 38 faculty members had elected to take advantage of the program, to date.

Dr. A. Hrymak (Provost & Vice-President (Academic) noted that approximately 320 people were eligible for the incentive program. Individualized packages were sent to eligible faculty, discussing details relating to exit dates (between January 2020 through July 2020) and compensation. He stated that the Human Resources Department is actively working with eligible faculty who are interested in considering this opportunity. The Provost informed members that staff members had not been offered the incentive package, but that ongoing review of the budget and needs of the University did not rule out the possibility of a package at a later time.

A member requested clarification on the Right to Strike Legislation from the provincial government and asked if there were any employee groups currently bargaining. Dr. A. Hrymak (Provost & Vice-President (Academic) advised the Board that the University was in discussions with UWOF-A-LA.

**BG.19-56**

**UNANIMOUS CONSENT AGENDA**

It was moved by K. Gibbons, seconded by C. Rorabeck,

That the 13 items listed in Appendix I, Unanimous Consent Agenda be approved or received for information, except Item 8 from Appendix V, the 2018 Annual Report: Campus Community Police Service.

CARRIED

**BG.19-57**

**Minutes of the Previous Meeting**

The open session minutes of the meeting of April 25, 2019 were approved as circulated.
**Business Arising from the Minutes**

There were no items noted as business arising from the January 24, 2019 minutes.

**REPORT OF THE PROPERTY & FINANCE COMMITTEE** [Appendix II]

Prior to considering the Report of the Property & Finance Committee, K. Gibbons provided a high-level overview of the recent work of the Committee.

**Revisions to MAPP Policies**

It was moved by K. Gibbons, seconded by D. Keddy,

That the Board of Governors approve revisions to the following MAPP policies attached as Appendix II, Annex’s 1-4 as shown below:

- That MAPP 1.25 be amended as shown in Appendix II, Annex 1
- That MAPP 1.10 be deleted as shown in Appendix II, Annex 2
- That MAPP 1.50 be amended and renamed “Signage and Election Posters” as shown in Appendix II, Annex 3 and,
- That MAPP 1.36 be amended as shown in Appendix II, Annex 4.

CARRIED

**MAPP 2.12 Acquisition of Investment Services – Revisions to Policy**

It was moved by K. Gibbons, seconded by R. Konrad,

That the Board of Governors approve revisions to MAPP 2.12 as shown in Appendix II, Annex 5.

CARRIED

**MAPP 2.26 Statement of Investment Objectives Policies and Governance**

It was moved by K. Gibbons, seconded by G. Dick,

That the Board of Governors approve the revised Statement of Investment Objectives, Policies & Governance for the Short-Term Portfolio, the Mid-Term Portfolio and the Operating and Endowment Fund.

CARRIED

**MAPP X.XX – Major Strategic Opportunities Fund Policy**

It was moved by K. Gibbons, seconded by R. Konrad,

That the Board of Governors approve the Major Strategic Opportunities Fund Policy (MAPP X.XX) as shown in Appendix II, Annex 6, and,

That the Board of Governors approve $250 million from the Undistributed Investment Returns be set aside for this purpose, effective July 1, 2019.

In the discussions it was noted that the policy provides the President with the ability to take timely advantage of strategic opportunities, with full transparency and oversight through approval of all proposals by the Board of Governors. This oversight would include risk management of the fund. It was also noted that the incoming President was aware of the fund.
Issues raised by Board members included a concern that investment of the funds could limit the funding pool for projects such as renovations and other capital projects in the future.

CARRIED

BG.19-63 New Tuition Fee Proposal for 2019-20 Medicine (MD) Program

It was moved by K. Gibbons, seconded by G. Parraga,

That the Board of Governors approve the following proposal of tuition fees for 2019-20:

Medicine (MD) – 5th Year: 50% of 4th Year Rate

The Report of the Property & Finance Committee, detailed in Appendix II, contained the following items that were received for information by unanimous consent:

- Scholarships, Awards, Prizes
- Lucas Family Women in Science Distinguished Scholar
- Ancillary Financial Report
- Quarterly Ratio-Report on Non-Endowed Funds
- Quarterly Report – 2018-19 Operating Budget Update as at April 30, 2019

REPORT OF THE GOVERNANCE & BY-LAWS COMMITTEE [Appendix III]

Prior to considering the Report of the Governance and By-Laws Committee, R. Konrad provided a high-level overview of the recent work of the Committee.

BG.19-66 Statement on Equity, Diversity and Inclusion

It was moved by R. Konrad, seconded by D. Keddy,

That the Board of Governors approve the Statement on Equity, Diversity, and Inclusion, as a statement of principle of the Board, as shown in Appendix III, Annex 1.

CARRIED
Revisions to By-Law No. 1 and the Principles of Engagement for Members of the Board of Governors, and approval of the new Process for Dealing with a Breach of the Principles of Engagement for Members of the Board of Governors

It was moved by R. Konrad, seconded by G. Dick,

That the Board of Governors approve the amendments to By-Law No. 1, as shown in Appendix III, Annex 2, and

That the Board of Governors approve the amendments to the Principles of Engagement for Members of the Board of Governors, as shown in Appendix III, Annex 3, and

That the Board of Governors approve the Process for Dealing with a Breach of the Principles of Engagement for Members of the Board of Governors, as shown in Appendix III, Annex 4.

R. Konrad advised members that the item had been reviewed at the previous meeting of the Board of Governors. He outlined the purpose of the By-Law and noted that the proposed changes clarified the powers of the Board of Governors to execute on the various authorities provided within the UWO Act.

The question was called and CARRIED.

Governor Lerner requested that his vote against the motion be recorded in the minutes.

REPORT OF THE SENIOR POLICY & OPERATIONS COMMITTEE [Appendix IV]

Prior to considering the Report of the Senior Policy & Operations Committee, P. Jenkins provided a high-level overview of the recent work of the Committee.

Information Items reported by the Senior Policy & Operations Committee

Appendix IV, Report of the Senior Policy & Operations Committee, contained the following item that was received for information by unanimous consent:

- Membership of the University Discipline Appeal Committee (UDAC)

REPORT OF THE AUDIT COMMITTEE [Appendix V]

Prior to considering the Report of the Audit Committee, S. Bennett provided a high-level overview of the recent work of the Committee.

2018 Campus Community Police Service Annual Report

L. Logan Vice-President (Operations & Finance) and J. C. Aubin, Campus Police provided the Board of Governors with a presentation on the 2018 Campus Community Police Service Annual Report.

A member requested clarification on the complement of female officers with specific information on any changes to the female officer complement of Campus Police. L. Logan noted that going forward the report will include a composition for Board of Governors members.

A member further noted that the report references a strategic plan but was unable to locate a copy of the plan for Campus Police online. L. Logan Vice-President advised members that the Campus Police website would be updated with the Strategic Plan.
**REPORT OF THE FUND RAISING AND DONOR RELATIONS COMMITTEE** [Appendix VI]

Prior to considering the Report of the Audit Committee, K. Cole provided a high-level overview of the recent work of the Committee.

**BG.19-70 Information Items reported by the Fund Raising and Donor Relations Committee**

Appendix VI, Report of the Fund Raising and Donor Relations Committee, contained the following item that was received for information by unanimous consent:

- Fund Raising Initiatives Quarterly Report to April 30, 2019

**ITEMS REFERRED BY SENATE** [Appendix VII]

**BG.19-71 Renewal of the Affiliation Agreement between The University of Western Ontario and Brescia University College, Huron University College, and King’s University College**

It was moved by A. Chakma, seconded by B. Ross,

That the Board of Governors approve the Affiliation Agreement between The University of Western Ontario and Brescia University College, Huron University College, and King’s University College for a four-year term effective July 1, 2019, as shown in Appendix VII, Annex 1.

CARRIED

**BG.19-72 Approval of the Institute for Earth and Space Exploration**

It was moved by D. Keddy, seconded by H. Usher,

That the Board of Governors approve the establishment of the Institute for Earth and Space Exploration, effective July 1, 2019.

Dr. J. Capone, Vice-President (Research) discussed the positive impact that the Institute for Earth and Space Exploration would have on the campus community, noting to members the various partnerships that the institute would bring to the University’s campus. The Vice-President (Research) provided members with details relating to funding, research priorities and core faculty partnerships that could develop from the establishment of the Institute.

The question was called and CARRIED.

**BG.19-73 John M. Thompson Centre for Engineering Leadership and Innovation**

It was moved by K. Gibbons, seconded by B. Ross,

That the Board of Governors approve that the Centre of Engineering Leadership and innovation within the Faculty of Engineering be named the John M. Thompson Centre for Engineering Leadership and Innovation.

CARRIED

**BG.19-74 Faculty of Arts and Humanities – Proposed Name Change: “Department of Modern Languages and Literatures” to “Department of Languages and Cultures”**

It was moved by V. Pirone, seconded by G. Dick,

That the Board of Governors approve that the name of the Department of Modern Languages and Literatures within the Faculty of Arts and Humanities be changed to the Department of Languages and Cultures effective July 1, 2019, and
That the Constitution of the Faculty of Arts and Humanities be amended to reflect the name change from the Department of Modern Languages and Literatures to the Department of Languages and Cultures.

A member noted that it was not within the remit of the Board of Governors to approve a change to a Faculty Constitution and requested that the second clause of the motion be struck from further consideration.

The question was called and CARRIED.

BG.19-75 Faculty of Social Science – Proposed Name Change: “First Nations Studies” Program to “Indigenous Studies” Program

It was moved by K. Gibbons, seconded by K. Mequanint,

That the Board of Governors approve that the “First Nations Studies” Program within the Faculty of Social Science be changed to the “Indigenous Studies” Program effective July 1, 2019.

CARRIED

FOR INFORMATION

1. **Scholarships, Awards, and Prizes**

At its meeting on September 17, 2019, the Property & Finance Committee approved on behalf of the Board of Governors (subject to Senate approval on September 20, 2019), the Terms of Reference for new scholarships and awards as outlined in Annex 1.

**Background:**
See Annex 1.

2. **McEwen Western Integrated Science Professorship**

At its meeting on September 17, 2019, the Property & Finance Committee approved on behalf of the Board of Governors (subject to Senate approval on September 20, 2019), that the McEwen Western Integrated Science Professorship be established and appointed within the Faculty of Science.

**Background:**
See Annex 2.
**Scholarships, Awards, and Prizes**

**T.J. Laskowsky Class of 2001 Entrance Award in Law (Law)**
Awarded annually to a full-time student entering Year 1 in the Faculty of Law, based on demonstrated financial need and community service. Candidates’ involvement in their community will be documented on their admission application. Online financial assistance applications are available through Student Center and must be submitted by July 1. The Faculty of Law will select the recipient after the Registrar’s Office assesses the financial need. This award was established by the Law Class of 2001, family and friends, in memory of T.J. Laskowsky (LLB’01).

Value: 1 at $1,000  
Effective Date: 2019-2020 academic year

*T.J. Laskowsky graduated from Western’s Law Class of 2001 and returned to his hometown in Oshawa where he worked at his father’s law firm, Laskowsky & Laskowsky. T.J.’s light hearted personality and happy, social, and stress-free approach to life made him a friend to all. Sadly, T.J. died in 2015 at the age of 42.*

**Caterina Ligori Engineering Award (Engineering)**
Awarded annually to a full-time undergraduate female student in Year 2 or higher, in the Faculty of Engineering, who has achieved a minimum 75% overall average in the previous year and has shown exemplary support and encouragement to others through participation in extracurricular activities and/or mentorship. Applications must be completed online by September 30th through the Engineering Undergraduate Services website (http://www.eng.uwo.ca/undergraduate) outlining how they have demonstrated their support and encouragement of others in the spirit of the life values that Caterina lived by. Preference will be given to a female student whose parents immigrated to Canada. The Undergraduate Awards Committee in the Faculty of Engineering will select the recipient. Askunessippi (Antler River) Scholarship (FIMS)
Awarded annually to a graduate student entering the Masters of Library and Information Science program, based on academic achievement. Preference will be given to an Indigenous student (First Nations, Métis or Inuit). The recipient will be selected in accordance with the FIMS Awards and Scholarships Policy. This scholarship was established with a generous gift from an alumnus of the MLIS Class of 1992.

Value: 1 at $1,000
Effective Date: May 2019

Askunessippi means Antler River, which is the name of the Thames River in the Anishnaabe language. The name comes from a time when a very influential and highly regarded leader of the community lived at the mouth of the river at Lake St. Clair or the Lake of the Swirling Eddies. The area held a prominent place for Treaties and gatherings. The descendants of the great leader now live on Walpole Island.

McEwen Western Integrated Science Professorship

Donor and Funding:
This new professorship is funded through a non-endowed gift of $300,000 from Robert McEwen (BA’73, Economics). The Professorship will be funded for a period of five years at $60,000 annually.

Effective Date:
October 1, 2019

Purpose
The McEwen Western Integrated Science Professorship will be held by the Director of the Western Integrated Science Program.

Appointments to the Professorship will be conducted in accordance with Policy 2.22 – Funding of Academic Chairs, Professorships and Designated Faculty Fellowships of the University https://www.uwo.ca/univsec/pdf/policies_procedures/section2/mapp222.pdf and will be for a period of five years.

Should the holder of the Professorship be unable to complete their five-year term, a new appointment will be made for the duration of time for which available funding is still available.

Criteria
The WISc program is a resource intensive program which provides for a great deal of student-faculty interaction. The WISc students are challenged to push their intellectual and personal boundaries so as to help them to maximize their positive impact on the world by seeking scientific and personal contributions to some of the most crucial problems the world faces. The McEwen Western Integrated Science Professorship will be responsible for shaping the program. The Professorship will provide resources to establish a dedicated teaching and leadership position in WISc to ensure that Western is attracting prominent individuals to lead the program. The creation of the McEwen Western Integrated Science Professorship will allow its holder to devote more of their time to enhancing and growing the WISc Program.

Allowable Expenses
Expenses may include, but are not limited to, salary and benefits of the holder and/or teaching or administrative release for the holder of the position.

The administration of the spending of resources will be the responsibility of the Dean of the Faculty of Science.

Reporting:
The University, through the Faculty of Science will report twice a year (February and July) to the Donor regarding the activities of the holder of the Professorship for a period of five years. Additionally, Western representatives will personally visit with the Donor at least once per year.

Background
Mr. Rob McEwen is the chairman and chief owner of McEwen Mining Inc. He is also the founder and former chairman and CEO of Goldcorp Inc., one of the world’s largest gold producers. Robert was inducted into the Canadian Mining Hall of Fame in 2017. Robert is a passionate innovator and marketer and serves on the board of trustees for XPRIZE Foundation.

In June 2019, Mr. McEwen received an honorary degree from Western.

FOR APPROVAL

1. **Principles of Engagement for Board Committee Chairs**

   **Recommended:** That the Board of Governors approve the *Principles of Engagement for Board Committee Chairs*, as shown in **Annex 1**.

   **Background:**

   Following a recommendation from the Governance Review Task Force, the Board of Governors approved *Principles of Engagement for Members of the Board of Governors* and *Principles of Engagement for the Board Chair* in November 2018 (see [https://www.uwo.ca/univsec/board/board_members/index.html](https://www.uwo.ca/univsec/board/board_members/index.html)).

   A further recommendation from the Governance Review Task Force was for the development of role statements for Board Committee Chairs. At the June 4, 2019 meeting, the Governance & By-Laws Committee considered a draft *Principles of Engagement for Board Committee Chairs*. The document provided in **Annex 1** reflects the feedback provided by Committee members at that meeting.

FOR INFORMATION

2. **Board of Governors By-Election Schedule – Fall 2019**

   A By-Election will be held within the Undergraduate Student Constituency to select a candidate to continue the term of departing Undergraduate Student Board Member Justin Shapiro (June 2020). Nominations will open Friday, September 27, 2019 and close Friday, October 4, 2019 with campaigning and balloting to follow. Results of the by-election will be posted Friday, October 25, 2019.

   The Board of Governors By-Election Schedule for Fall 2019 is outlined in **Annex 2**.
The following describes the individual roles and responsibilities of Board Committee Chairs.

ROLE

A Standing Committee Chair must, in accordance with the *UWO Act*, be an external member of the Board. The principal role of a Board Committee Chair is to provide leadership and stewardship to a Committee of the Board, conducting the Committee's business and implementing its Terms of Reference. The Committee, through the Chair, is accountable to the Board; the Chair serves as the liaison between the Board and the Committee and presents the Committee's work to the Board.

DUTIES AND RESPONSIBILITIES

In addition to the duties and responsibilities of an individual Governor described elsewhere, a Board Committee Chair:

- works with the University Secretariat to establish and refine the annual work plan of the Committee;
- sets the agenda for each Committee meeting and ensures the timely distribution of materials, including minutes, to each Committee member;
- conducts the meeting according to the rules of order of the Board and applicable legislation, facilitating fulsome but efficient discussion of agenda items as needed, and ensuring that matters in front of the Committee are brought to a timely but informed resolution;
- ensures that Committee members are aware of information, both internal and external to the University, that is relevant to the Committee responsibilities;
- coordinates with the University Secretariat and Committee members to ensure that the Committee effectively discharges its responsibilities;
- where necessary and appropriate, works with other Committee Chairs and the Board Chair on matters of mutual interest to coordinate logistics and ensure that the Committee contributes to a high-functioning Board;
- at Board meetings, presents the Committee's reports and recommends the Committee's decisions, with particular focus on the Committee’s priorities and how those align with the strategic plan of the University.

SKILLS AND KNOWLEDGE

All skills and knowledge required of an individual Governor as outlined in the *Principles of Engagement for Members of the Board of Governors*, plus:

- ability and knowledge to conduct a constructive meeting;
- skills and experience appropriate to the specific Committee;
- ability at time management and the meeting of deadlines;
- leadership experience in an appropriate venue (at the Board, in business or community leadership, elsewhere as appropriate) for the focus and mandate of the specific Committee;
familiarity with the University’s governance structures and administration, particularly its bicameral division of authority between Senate and Board of Governors;
• excellent communication skills and leadership skills that will facilitate good communication across the University and at all levels of the institution.
Board of Governors By-Election Schedule – Fall 2019

Elections will be held for **one representative of the undergraduate student constituency**, as outlined below. The term of the undergraduate student representative will be until June 30, 2020.

4. Western Retirement Plans Report September 2019

   The Western Retirement Plans Report is provided in Annex 3.
**Annual Report**

**Non-Discrimination/Harassment Policy**

May 1, 2018 to April 30, 2019

---

**Equity & Human Rights Services (EHRS)** is available to all members of Western’s community. This Annual Report is prepared by EHRS as per the Non-Discrimination/Harassment Policy, (MAPP 1.35), section 12.

EHRS facilitates the development, implementation and ongoing management/coordination of Western’s policies and programs relating to discrimination and harassment. Western’s policies are in compliance with the *Ontario Human Rights Code* and *Occupational Health and Safety Act*.

EHRS offers the following services:

- Confidential consultation, support, and information available to all Western students, staff, faculty and post-doctoral scholars
- Support, education and advice to Administrative leaders and Academic leaders
- Culture and climate reviews, as appropriate
- Training and presentations

**CONTACTS**

Over the past academic year, EHRS recorded a total of **444** contacts. **222** of these were from individuals who believed they have been subjected to, or had witnessed, behaviour that may fall under the Policy. The remaining contacts were: requests for assistance from **92** Academic or Administrative Leaders (i.e., those with the authority and responsibility to address concerns); requests for information and/or assistance by **85** third-parties (often friends, coworkers or persons in non-authority roles seeking assistance to support others); and, **45** general requests for information.

**INDIVIDUAL CONTACTS**

**Table I** and **Ia** display the number of consultations by issue for the **222** individuals who contacted EHRS in relation to a concern they were directly experiencing. **Table II** displays the role at Western of those individuals contacting our office. Individuals may contact the office in relation to more than one ground.

All individuals reporting concerns to EHRS are provided with advice. If the matter falls under the Non-Discrimination/Harassment Policy, individuals are given the option to request alternate resolution or file a formal complaint and request investigation. However, it is common for individuals, having had the opportunity to voice their concerns and seek advice from EHRS, to attempt to resolve the situation themselves.

In the 2018-19, EHRS offered some form of alternate resolution in relation to **20** matters. Alternate resolution includes mediations, facilitations, educational sanctions (in coordination with Housing), and EHRS-led inquiries to support the proper application of the Policy.

The office of the Associate Vice President (Human Resources) receives and administers formal complaints. This past year, **34** complaints were received and **20** investigated (7 are on-going) under the Non-Discrimination and Harassment Policy. Seven complaints were withdrawn or alternatively resolved before investigation.

**ACADEMIC OR ADMINISTRATIVE LEADER SUPPORT**

Western’s Policy requires Academic or Administrative Leaders to report any incidents which may be related to harassment and discrimination to EHRS, as well as to involve EHRS in any unit-based attempts at resolving or mediating potential harassment.

**Table III** displays the top issues reported by the **92** Academic and Administrative Leaders who contacted our office during the past year. Understanding the issues our leaders are facing assists us to determine where our office’s focus should be in de-
A note regarding conflict

Some form of conflict is present in most – if not all – concerns that come to the attention of EHRS. Conflict may be present along with harassment and discrimination concerns. However, some concerns do not fall within the scope of the Policy and present as interpersonal issues, misunderstandings about role or job clarity, or organizational structure. EHRS recognizes that unresolved conflict(s) can affect the work and academic settings. We often work with and/or refer to Western’s network of support services.

A note regarding safety

EHRS is consistently mindful of concerns relating to potential violence or threats to individuals’ safety. When appropriate, we refer or report such concerns to Campus Police (CCPS). EHRS referred to or contacted CCPS on 6 occasions this past year.

EDUCATION AND OUTREACH

EHRS conducts workshops, provides materials and other education and outreach assistance to various colleagues and groups across campus. This year, EHRS provided education and training to over 2000 Western members.

TRENDS AND HIGHLIGHTS

EHRS continues to focus the majority of its work on supporting campus members in understanding their roles and responsibilities under Western Non-Discrimination and Harassment Policy. Each year, our numbers of contacts rise. This shouldn’t be interpreted as an increase in prevalence of harassment or discrimination but, rather we believe that there is growing understanding about the issues and of individual’s rights within the academic and working environments. We are finding high engagement among academic and administrative leaders who are seeking advice about how to support individuals or how to manage culture and environment concerns. Continuing to providing direct support and advice (through individual communication and/or learning experiences) to our Academic and Administrative Leaders will be a focus of our work in the coming year.

We continue to see a large number of inquiries that relate to, or stem from, social media. We are living in a fast-paced world where people connect “online” and these connections influence experiences and interpersonal behaviours on campus. EHRS works with campus partners (Communications, Human Resources, Student Experience) in developing consistent approaches to addressing matters that appear on social media.

An annual highlight is Western’s participation in London’s Pride Festival. Recognizing that the festival occurs in the summer months, EHRS will be facilitating continuing conversations throughout the year in an effort to provide support for ongoing, year-round Pride initiatives. Additionally, EHRS sees great opportunities for creating connections across campus that support Equity, Diversity and Inclusion. EHRS will be exploring strategies and/or structures that bring campus members together to in pursuit of creating greater diversity and inclusion on campus.

Finally, EHRS will focus over the coming year will be on providing individuals with more choices (and information) about how they can address concerns through engaging with others in restorative ways.

CONCLUSION

EHRS wishes to express our appreciation to all those we interact with in an effort to assist with resolution of matters. We look forward to continuing to support all students, staff and faculty members on a campus which respects, accepts, nurtures, and celebrates its diversity.

Western Retirement Plans
Report to the Audit Committee
September 2019

Prepared using data as of December 31, 2018

FOR INFORMATION

1. Summary
This report covers the calendar year January 1, 2018 to December 31, 2018. The Academic and Administrative Staff Pension Boards are responsible for the administration and oversight of two pension plans (the Academic Staff Pension Plan and the Administrative Staff Pension Plan). This report provides an overview of the plans, reviews the changes made to the plans in 2018 and describes the projects under way at the end of the year. The 2019-20 Risk Management Plan for the pension plans is included as a supplement to this report.

2. Plan Overview

Asset Values, Membership and Investment Returns

The combined plans include about 6,900 investors and assets with an approximate market value of $1.1 billion. As defined contribution pension plans, members direct the investment of both their contributions and the University’s contributions among 13 different investment options. The fund options are designed in tiers, in an attempt to match the level of education or willingness to make independent diversification decisions. In June 2018 the TDF 2018 fund matured and the 119 members invested in the fund were provided with notice to reallocate their investment to another fund. 104 members had their investment moved by default to the Money Market Fund. TDF 2020 will mature June 2020. The fund offerings have been consistent since the move to Sun Life custody in October 2016 and are outlined below:

**Communication and Education**

Members have access to various reports and material to assist them in the monitoring of their retirement funds. These resources include on-line access to detailed investment performance and analysis through the partnerships Sun Life Financial has with Morningstar. There is comprehensive and up-to-date performance information which members can access through Sun Life, and customized point-in-time messaging from Sun Life Financial.

Each January members receive a comprehensive and personalized annual statement for the prior year. In 2017 and 2018 a semi-annual statement was also available electronically from each member’s Sun Life account. Beginning in 2019 e-statements are posted to a member’s account quarterly. Members are now receiving personalized communications from Sun Life, including prompts to take action, reminders of customized retirement planning/projection tools, and details on relevant on-campus workshops. The statements and communications have enabled targeted messaging so members are receiving the communications that are most relevant to them. Various information sessions, workshops, guest speakers and planning sessions are also available to assist members with their investment and retirement decisions. A total of 17 group information sessions and workshops were attended by over 825 members and/or spouses in 2018.

Morneau Shepell, Western’s pension and benefits consultant, has been the facilitator of the full day financial and pre-retirement planning workshops offered several times per year to members approaching retirement. Feedback on these workshops and the presenter remains highly positive. Attendees appreciate that content is unbiased, holistic and addresses all sources of retirement income: CPP and OAS as well as defined benefit pensions, and LIF/RRIF and annuity options for their Western pension. The budgeting tools, tax information and income splitting details have been identified as helpful content.

Additional topics including pension plan provisions, contribution levels, investment choices, income options, and navigating tools and support are covered by Sun Life Financial throughout the year in sessions that have been designed to coincide with Financial Literacy Week in November, the Staff & Leaders’ Conference in February and the annual pension plan member updates in May. In addition to delivering group sessions, Sun Life Financial Education Consultants met one-on-one on campus with 160 Western plan members who were looking for support in managing their account. Sun Life Retirement Consultants are also in London monthly to provide planning support to pre-retirees. In 2018, 303 in-person meetings were held with members who are within 5 years of retiring; a further 464 consultations were held by phone. More than 800 unique members received support from Sun Life by phone and over 4,300 members navigated their personal account on Sun Life’s website.

Quarterly Western receives a Service Report Card (2018 Q4 report enclosed) measuring the performance of Sun Life against service standards. In addition to aggregated reporting for all Group Retirement Services clients on the Client Care Centre (phone) support, the report also covers administrative dimensions (timely deposit of contributions, issuance of statements and termination paperwork and processing of withdrawals) specific to Western. Sun Life has consistently met or exceeded the standard across all services. In November 2018 Sun Life introduced a feedback process for the one-on-one consultations happening on campus. There was a 35% participation rate and positive feedback both on the consultants and the substance of the consultation.

In December 2018 Sun Life conducted the second annual survey of Western plan members who had been supported by a Sun Life Retirement Consultant in planning for their transition into retirement. Some of the results are provided below:

**Pension Governance and Operations**

Each of the pension boards consist of 7 members: 4 elected by the membership and 3 appointed by the University. These boards work jointly in the design of investment, communication and administrative policy (Joint Pension Board). The design and implementation of policy is completed with significant assistance from staff in human resources and financial services. The board and staff rely on the expert advice of external service providers including Russell Investments and Sun Life Financial to fulfill their duties and implement changes. The operational costs remained at 0.21% in 2018.

**Prior Defined Benefit Program**

Prior to July 1970 (Academic) and March 1974 (Administrative Staff), the University pension plans were a defined benefit design: annual pension income at retirement was promised based on a formula. The liabilities for the defined benefits are now substantially underwritten by annuity contracts with The Canada Life Assurance Company (annuity provider, part of the Great-West Life Assurance Company). There remain 2 active employees in the Administrative Staff Pension Plan who are entitled to the better of a defined benefit pension or what can be purchased with their defined contribution plan balance at retirement. The University’s actuaries continue to monitor the liability and the assets available to support these potential defined benefits. As at December 31, 2018 there remains a surplus of assets over projected liabilities in the administrative plan of approximately $187,000. Further there is a surplus of assets remaining in the Academic plan of approximately $428,000 ($782,000 in 2017). The reduction relates to the November, 2017, University Board of Governors approval, on recommendation of the Academic Pension Board, to apply surplus assets in the Pension Plan for Academic Staff to support the cost of pension improvements for certain Special Members and certain operational expenditures for the Plan, effective January 1, 2018. The surplus assets are currently invested in short term money market securities.

3. **Projects Underway as at December 31, 2018: Review of Global Small-Mid Cap Equity Managers**

In June 2018 the University’s investment consultant shared that Franklin Templeton, investment manager for the Global Small-Mid Cap mandate, was downgraded to “Review”. Coupled with underperformance, the Joint Pension Board decided to proceed with a review of alternative managers in the fall of 2018. Western’s Director, Investments, Associate Director, Investments and the Consultant from Russell Investments have scheduled meetings with a short list of managers for September 2019.

2019-2020 Risk Management Plan

Management of Risks with the Retirement Programs
The following table describes the risks that the retirement programs are exposed to, including strategies we currently use to manage the risks as well as the resources necessary to effectively manage the risks.

i. Investment Risk: risk inherent in investing in capital markets
ii. Operational Risk: risk faced by the administration of the retirement plans including errors in procedure and process error
iii. Legal and Compliance Risk: meeting requirements from trust law, provincial pension legislation and regulations, and the tax act and considering and managing litigation risk as required

a) Risk Description / Event Identification: internal and external events affecting achievement of the retirement plans objectives are identified.
b) Control Activities
   • Risk Management Process: policies and procedures are established and implemented to help ensure risk responses are implemented
   • Skillset/Tools Required: resources and tools are identified for risk response implementation.
c) Variables and Sensitivities/Risk assessment: risks are assessed considering likelihood and impact as part of the basis on how they should be managed

1 Concepts taken in part from the COSO – Enterprise Risk Management Framework
## Investment Risk

|----------------------------------------|------------------------------------------|------------------------------------------|------------------------------------------|------------------------------------------|
| **Market risk**: The risk that market fluctuations may negatively impact the value of an investment. This could involve investments in any asset class, but tend to be greater for equities particularly over the short-term. | • Design investment portfolios that are appropriate given an investors' time horizon  
• Use quantitative analysis to identify investments with high probability of preserving capital over the targeted investment horizon | • Knowledge of investment time horizon  
• Knowledge of universe of investment opportunity  
• Quantitative tools and/or provider of quantitative data  
• Skill in applying quantitative data | • A market correction (decline in value of more than 20%) would exacerbate the situation and cause a permanent impairment to members approaching or in the decumulation phase  
• Probability is low to high, depending on the fund and the stage of the market cycle  
• The impact can potentially be high for equity funds | • On-going – Maintain diversified equity portfolios  
• On-going – Maintain rebalancing of the balanced funds and manager of manager funds monthly.  
• On-going - Auto re-balancing is available at members’ option.  
• Ongoing - Maintain member education programs to help ensure appropriate investments are chosen by members. Investment Specialists support individual members in assessing their risk tolerance, making appropriate selections among available options.  
• A warning message alerts members that changing their investment allocation online to a “sub-optimal” mix based on their unique risk profile which takes into account investment horizon  
• On-going – Keep track of volatility of the investment options to ensure that the hierarchy of risk is consistent.  
• On-going - Maintain member education programs to help ensure appropriate investments are chosen by members; Historical return patterns readily available to members through on-line portal. |

| **Volatility in returns**: The risk that the actual return experience is significantly different from the expected returns during the period of investment. | • Use quantitative analysis before investment and during the life of an investment to monitor volatility  
• Diversify portfolio to minimize volatility  
• Clearly communicate to investors the expected volatility and returns of the investment  
• Set asset allocations so that highly volatile assets do not over-influence the results  
• Do not offer risky investment options on a stand-alone basis | • Quantitative tools and/or provider of quantitative data  
• Skill in applying quantitative data  
• Knowledge of universe of investment opportunity  
• Knowledge of modern portfolio theory  
• Strong, clear communication development and updates | • A period of high volatility, which is generally combined with increased correlation, would make it difficult to minimize the volatility through diversification.  
• Probability is low to high, depending on the fund  
• The impact can potentially be high for equity funds |
|----------------------------------------|------------------------------------------|------------------------------------------|-------------------------------------------|-------------------------------------------|
| **Interest rates changes**: The risk that the value of investments and expected returns vary with changes in prevailing interest rates. Associated is the risk that retirement income is insufficient based on annuity rates in force at retirement. | • Offer investment choices that allow investors to choose interest rate exposure (short-mid-long)  
• Maintain diversified bond funds  
• Allow for deferred annuity purchases | • Knowledge of universe of investment opportunity  
• Knowledge of capital asset pricing models  
• Understanding of annuity industry trends and actuarial calculations  
• Understanding of macroeconomic factors and relationships  
• Knowledge of how interest rate movements impact the various fixed-income options and annuities | • A prolonged period of low interest rates would make it difficult for members to achieve good investment returns in less risky fixed income funds  
• An increase in inflation would cause interest rates to go up and create losses to fixed income funds  
• Probability is high for fixed income funds  
• The impact is low for the Money Market Fund, moderate for the Target-Date Funds and high for the other fixed income funds | • On-going – Maintain diversified fixed income portfolios and provide investment options with short duration; consider offering Guaranteed Investment Certificates for conservative fixed income investors. |
| **Currency exposure**: The risk that Canadian investments relative to other opportunities reduce in value because of the Canadian $ exchange rate | • Diversify bond and equity portfolios to gain exposure to other currencies  
• Member option US Equity Fund ($Cdn-Hedged)  
• Significant amount of diversified bond fund is hedged  
• Ensure that investment managers have the expertise and the flexibility to hedge the currency within their mandates. | • Knowledge of macro economic theory  
• Understanding of influences that political and monetary policies have on currency values | • The presence of fiscal and trade deficits in the U.S. could potentially cause the U.S. currency to be devalued, which would have a negative impact on funds exposed to U.S. currency fluctuations  
• Probability: moderate on funds exposed to currency fluctuations  
• Impact: moderate on funds exposed to currency | • On-going – Maintain partial currency hedge  
• On-going -Monitor costs and performance of the hedge |
| **Credit risks**: The risk that the issuing institution of a payment promise fails to meet their promise. This includes bond issues as well as life insurance firms providing annuities. | • Set minimum credit risk ratings for bond portfolios  
• Monitor credit ratings of insurance providers and only purchase annuities from highly rated  
• Only purchase annuity income up to Assuris insurance ($2000/mth) | • Understanding of financial statements and credit evaluation process  
• Access to current credit rating agency data  
• Ability to monitor the managers’ selection and review process transparency) | • A recession would increase the risk of defaults  
• Probability: low since minimum credit ratings are set  
• Impact: low since minimum credit ratings are set | • On-going – Assess the investment manager’s expertise in managing credits. Review portfolio and attribution analysis to determine the magnitude of active management risk taken.  
• Leverage insurance by purchasing from 2 financial institutions – option is now available via Sun Life |

When the credit spread of a security widens, the value of a fixed income security decreases.</td>

<td><strong>Derivative risk</strong>: A derivative is an investment that bases its value on how well another kind of investment, like a stock, bond, currency or market index, is doing. Examples of derivatives include options, forwards, futures and swaps. There are risks associated with the use of derivatives, even if derivatives are used to help offset losses or what is called “hedging”. For example, there’s no guarantee that a fund will be able to buy or sell a derivative at the right time to make a profit or limit a loss. There’s no guarantee that the other party in the contract (known as a “counterparty”) will live up to its obligations, failure of which could result in a financial loss for the fund. If the other party a fund is dealing with goes bankrupt, the fund could lose any deposits that were made as part of the contract. If the derivatives are being</td>

<td>traded on foreign markets, it may be more difficult and take longer to complete a deal. Foreign derivatives can also be more risky than derivatives traded on North American markets. Securities exchanges could set daily trading limits on options and futures contracts. This could prevent a fund from completing an options or futures deal, making it impossible to hedge properly, make a profit or limit a loss. If a fund is required to give a security interest in order to enter into a swap, there is a risk that the other party may try to enforce the security interest against the fund’s assets. There’s no guarantee that a hedging strategy will always work. A derivative won’t always offset a drop in the value of a security, even if it has usually worked out that way in the past. Hedging doesn’t prevent changes in the prices of the securities in a fund’s portfolio, or prevent losses if the prices of the securities go down. Hedging can also prevent a fund from making a gain if the value of the currency, stock, or bond goes up. A fund might not be able to make a deal to hedge against an expected change in a market if most other people are expecting the same change. Hedging may be costly.</td>

REPORT OF THE MCINTOSH GALLERY COMMITTEE

For Information

McIntosh is a platform for intellectual and sociocultural exchange within the local, regional, and national arts communities. During 2018/19, we demonstrated our commitment to a diverse curatorial program that balances established artists with a strong focus on new generation, queer, and BIPOC artists and curators. We continued our relationship with Western’s Department of Visual Arts by presenting a series of graduate student thesis exhibitions throughout the summer. PhD (curatorial) candidate Jessica Cappuccitti showed Welcome to Detroit, a critical exploration of narratives of urban decay in Detroit, featuring the work of Detroit born Suzy Lake (Toronto) and African American artist Orlando Ford (Detroit). PhD (studio) candidate Mark Kasumovic presented A Human Laboratory, which examined the relationship between the camera and scientific instruments as tools of inscription that record and disseminate natural, social, and scientific phenomena. Kolkata-born MFA candidate Sharmistha Kar’s exhibition Next to a River – Embroidery as Map and Shelter comprised a series of large textile works that employed traditional and contemporary embroidery techniques to explore mapping, migration, and identity. MFA candidate Joy Wong combined experimental paint and print techniques in her installation Skim, a meditation on thresholds, boundaries, and the in-betweenness of skin.

Glimmers of the Radiant Real, curated by Ruth Jones and Sam Mogelonsky, and Heads, curated by visual arts professor Sky Glabush, were thematic group exhibitions that brought together established and new generation artists primarily from southern Ontario. The diverse communities with which we collaborate inform our programming plans by providing expertise, knowledge and most importantly alternative perspectives and methodologies that challenge conventional, authoritarian curatorial practices with more dynamic and egalitarian models for cultural production. Andil Gosine: Coolie Viens!, curated by Matthew Ryan Smith, presented an auto ethnographic study of intergenerational trauma in the Caribbean among South Asian indentured labour and their descendants, including Gosine. The eponymous catalogue featured texts, in French and English by 16 writers, most from the Caribbean South Asian diaspora. Deanna Bowen’s installation of video and family photographs, We Are from Nicodemus, traced threads of her own family’s story within the broader history of African American migration to the Canadian Prairies.

McIntosh demonstrated its growing commitment to Indigenous art practices, which is the most dynamic area of production and research in Canadian art today. Skawennati’s exhibition From Skyworld to Cyberspace engaged mechanisms of gaming and play, interweaving traditional Kanien’kehá:ka (Mohawk) stories and ritual objects with new technologies and processes. Drawing on ancestral narratives to chart alternative realities, a key principle of Indigenous Futurism, the exhibition reimagined the artistic and social potential of Indigenous peoples in years to come. Currently the exhibition is on display at the University of Waterloo Art Gallery. McIntosh is publishing the first monograph on Skawennati, featuring essays by exhibition curator Matthew Ryan Smith (PhD, Visual Arts, Western) McIntosh curator Helen Gregory (PhD, Visual Arts, Western) and Indigenous scholars Wahsontio Cross and Maize Longboat. McIntosh continued to expand its reach in the community through educational and collaborative projects in accessible and online spaces. We held an exhibition of a recently acquired landmark 1970s installation by Jamelie Hassan, Wall with Door, at Satellite Gallery in downtown London. We collaborated with Eugenio Salas on his community-based participatory art project, The Super Cake, in which he worked with new Canadians at an industrial bakery to critically examine the juncture of personal food-based rituals with industrial food production. A cook book authored and designed by the workers celebrating the diversity of their culinary traditions will be published by McIntosh in 2019.
In April 2018, McIntosh launched a new website documenting the vital role of women in the London arts community from 1867 to the present. This project, funded in part by the London Arts Council, targets young audiences through texts, images and video interviews about contemporary and historical women artists from London and Middlesex County. With new collections management software, 3,294 of our permanent collection of over 4,000 works of art is now accessible online.

Financially, McIntosh continued to demonstrate financial acumen ending the year with a budget surplus of $154,269. Much of this the result of savings realized by the retirement of Catherine Elliot Shaw, curator, and administrative assist, Susan Skaith. With the hiring of current full time staff members, Dr. Helen Gregory, Curator, and Abby Vincent, Communications and Outreach Coordinator, we anticipate a substantially smaller surplus over the next three years.

Please note that the financial statements herewith have not yet been approved by the McIntosh Gallery Committee of the Board of Governors. We anticipate doing so in October, 2019.

Respectfully submitted,
James Patten  
Director

COLLECTIONS REPORT

This report includes all acquisitions of art to the permanent collection from January 2016 to December 2018. Due to the volume of donations and the migration of data from our old collections management software to our new online database, it took longer than usual to catalogue works acquired in the two previous years.

During this three-year period we acquired 325 works of art, including 303 donations, 14 purchases, four commissions, and four works transferred from our archives to the permanent collection. Dimensions are in centimetres.

The programs are: Chemical Engineering and Biomedical Engineering; Electrical Engineering and Biomedical Engineering; Mechanical Engineering and Biomedical Engineering; Mechatronic Systems Engineering and Biomedical Engineering. Introduction of these concurrent degree programs are intended to maximize the employment opportunities for graduates. Concurrent degree structure will make students qualified for both types of engineering job functions; engineering positions in the medical device and other sectors, core engineering disciplines outside of the medical device sector; admission to BME graduate programs and medical school.</td>

The MA in Art History will be renamed as the MA in Art History and Curatorial Studies. The MA in Art History program already includes curatorial studies and has attracted a number of students to study with a faculty member whose expertise is in the field. A number of theses and major research projects have been written dealing with the area. The relatively recent addition of a new faculty member, who has expertise in studio and curatorial studies, makes the program that much richer. There will be no changes to the program; all the name change does is to foreground an area the Department of Visual Arts has a strength in.

This will eliminate the requirement of two Directed Research Projects (DRP) for the PhD in Music (fields of Musicology, Music Theory, & Composition). The DRPs will be replaced by a new milestone entitled Dissertation Proposal. In order for this new milestone to function equivalently in the 3 fields, it is necessary to modify the course requirements in the field of Composition by reweighting the year 1 Composition course to become a 0.5 course and adding a new 0.5 course in Composition in year 2. This will bring greater consistency to the PhD in Music requirements and will allow the new milestone to serve the same function in the 3 fields. Part 2 of the proposal is the elimination of the current Directed Research Projects & the introduction of a new milestone called Dissertation Proposal. Students would begin the Dissertation Proposal milestone in Term 3, & would complete the milestone with an approved draft of a dissertation proposal in Term 7 or 8. The new milestone will help students to focus on the thoughtful development of a dissertation topic early in their program, beginning in Term 3. The approval of the draft proposal by the supervisor and second reader marks the completion of the new milestone.

APPENDIX VIII, Annex 2
American Studies

The MA in American Studies is a one-year interdisciplinary program that started in 2010, but has had lower than required enrolments. Though the program is high quality, enrolments have declined substantially in recent years. At an expected sustained enrolment of 15 American Studies was always a modest-sized program. The enrolments maxed out at 13 (2012/13), with an average of about 8.7 students per year. In the current fiscal climate the Faculty of Social Science cannot justify maintaining the program.

Civil and Environmental, Electrical and Computer, and Mechanical and Materials Engineering

Communication skills are important for engineers, yet research shows that many engineering graduates tend to struggle and feel unprepared when it comes to communicating their research to different stakeholders. Strong communication skills are critical to graduate research students during their studies, as well as in their career (academic or non-academic). These skills assist them in the critical literature review, technical writing (e.g. comprehensive exam proposal, thesis, journal/conference papers) and oral presentations to technical and non-technical audiences. The Faculty of Engineering in collaboration with the Faculty of Arts & Humanities has developed a Research Communications Module for PhD graduate research students to help them develop effective oral & written communication skills necessary for various purposes: doctorate studies & other audiences (lay audience, potential employers). The module focuses on developing students’ critical thinking of the research process & practicing communicating their research plan & (preliminary) results to different types of audiences.

Comparative Literature

The six-term thesis-based MA is being revised to a three-term course-based MA with a Major Research Paper. This change will allow Western’s MA program in Comparative Literature to be more competitive with the one-year programs in Comparative Literature, English Studies, French Studies, Hispanic Studies, Film Studies, and Critical Theory offered at other universities around the world. The learning outcomes of the program will remain fundamentally unchanged. In Propaedeutics, the required course on research methods, the instructor will prepare students for the Major Research Paper instead of the MA Thesis, but the main topics (e.g., the formulation of valid research questions, the choice of appropriate critical methods, the effective organization of thesis chapters, the comprehensive understanding of the range of fields within the contemporary discipline of Comparative Literature, etc.) will hardly differ from the range of topics covered in the course currently offered in the two-year program.

added a new field “Food Processing” to the current MEng program in Chemical and Biochemical Engineering. Food processing is a niche area that requires specific expertise in different streams of food processing operations. A major portion of these operations are engineering-focused and not only require advanced engineering, but also an in-depth understanding of food sciences, food safety and related policies. At present, such knowledge is primarily acquired through experience and some form of on-job training. Engineers who start their careers in the food and beverage industry typically do not have the required knowledge depth and expertise in this niche area and the industry has had to utilize significant resources to train them to the required level of expertise. A specialized field in a graduate degree serves to fill this gap in terms of the education and skills required to meet the growing demand for engineering professionals in the food industry. There are a lack of applied graduate programs in food processing, both in Canada and internationally, that train engineers for jobs in the food processing sector.

there are 4 modifications to the MMASc spoke in GHS-A: a) Transition from the Faculty of Science to the Schulich School of Medicine and Dentistry, and the Faculty of Health Sciences; b) Renaming the Global Health Systems in Africa (GHS-A) Spoke to Global Health Systems (GHS); c) A slight reconfiguration of the course requirements; d) introduction of four courses and electives to the new GHS Spoke. Over the years the applicant pool for this spoke has evolved, with students expressing interest in global health issues such as health care management including occupational and physical therapy as well as mental health, oral health, and maternal/child health. About a third of students now come from Nursing, Kinesiology, and other Health Sciences disciplines. Hence, the modification to administratively migrate the spoke to the Schulich School of Medicine & Dentistry and to incorporate Health Sciences into the new GHS profile is a natural and even essential step to advance the MMASc, GHS spoke.

CSD 9504 – Audiology Practicum IV is a second-year practicum course in the two-year CSD MClSc program in the field of Audiology, and is currently optional as a fifth practicum placement. The proposed change will make this course mandatory, which is offered multiple times per year (Fall, Winter, and, as required, Summer terms) to facilitate scheduling and to optimize use of available off-campus placements. Student and faculty feedback indicated that development of key clinical competencies requires further coverage in placement/practicum courses. These competencies include students’ progression toward further autonomy in the areas of hearing aid follow-up and repair, assessment, and participation in hearing loss prevention programs. In the current program, most students receive exposure to many of these, but feedback from students indicates that all students should be provided with equal opportunity to develop these skills. The placement/practicum will provide clinical faculty supervisors the opportunity to work more closely with students and provide additional training and support.

- **Students in the research-based graduate programs selected courses from a pool of courses in consultation with their supervisors. It was observed that the courses for graduate research students did not necessarily provide them the fundamental knowledge base to support their research activities, since a lot of the courses were geared towards students enrolled in the MEng. program. The graduate program in MME has developed a course map for graduate research students to enrich their learning experience & to ensure that the current learning outcomes are properly met. The courses are divided into 3 categories (Methodology, Fundamentals, Advanced) Course in Cat 1&2 are offered every year, while Cat 3 will be offered in each of the primary research areas. This will ensure there are enough research courses are available for all graduate students in the program.**

- **Introduction of a Collaborative Graduate Specialization in Artificial Intelligence-AI is a well-established branch of computer science which is concerned with methods to make computers, or machines in general, intelligent. More specifically, an artificially intelligent system is one that can learn on its own from experience and derive implicit knowledge. The Collaborative Graduate Specialization in AI will be jointly offered by the Graduate Programs in Computer Science and Electrical and Computer Engineering. It will provide training with a strong focus on artificial intelligence methodologies and enabling technologies with applications in the core research areas (computer science or electrical and computer engineering). Students will be expected to apply AI methodologies to real problems that do not easily fit within a course structure. They will be exposed to the synergy between AI methodologies and the technologies that make AI usable, and they will learn about the challenges, limitations, and advantages of AI methodologies through a seminar course.**

- **Introducing a new field in Artificial Intelligence in the Master of Data Analytics program. The MDA is a one-year professional science masters with a "hub-and-spoke" design, consisting of a core (i.e., “hub”) curriculum that focuses on fundamental data analytics and professional skills, and specialty field (i.e., “spoke”) courses that are specific to an application domain. The core curriculum consists of seven half-courses (0.5 FCE each) and a seminar. The Artificial Intelligence Specialty Field Curriculum includes Artificial Intelligence Seminar series; Plus, two Computer Science (CS) courses (0.5 FCE each) chosen from the following list: CS 9138 Databases II or CS 9121 Artificial Intelligence for Informatics and Analytics, or CS 9146 Artificial Intelligence I or CS 9142 Artificial Intelligence II or CS 9160 Advanced Machine Learning. This field will permit interested students to focus on AI-related training and will add to the breadth of the existing MDA program. There is a strong industry demand for graduates with applied master’s-level AI training and students will be able to benefit from the MDA program’s summer co-op component as well.**

FOR INFORMATION

The COU Academic Colleagues met on August 21-22 in Toronto.

The following items may be of interest to Senators:

**Labour Relations Issues**

Schedule 38 of the province’s spring budget bill adds a new section to the *MTCU Act* to allow the Minister “to make regulations governing the reduction, limitation and alteration of compensation due to certain individuals.”

The intent is to allow government to address employees who are simultaneously drawing full-time salary and pension payments, commonly referred as double dipping. It does not appear that a large number of employees in the sector are doing this. The government has not yet made changes based on this regulation. Implementation of the regulation could pose some risks for the sector: breach of collective agreements, *Charter* challenges, union grievances, increased risks of labour disruption, human rights and equity issues, and brain drain of talent to other jurisdictions.

On June 5, Minister Bethlenfalvy (President of the Treasury Board) introduced Bill 124, *an Act to implement moderation measures in respect of compensation in Ontario’s public service*. The Act proposes to cap wage increases in Ontario’s civil service and the Broader Public Sector (BPS), including colleges, universities and hospitals. The compensation cap is an average of one per cent for all employees under the collective agreement for each 12-month period. As an exception, an employee’s salary may increase according to the terms of the collective agreement for recognition of the employees’ length of time in employment, performance assessment, and/or successful completion of a program or course of professional technical education.

If passed, the provisions would apply for a period of three years upon the expiry of existing collective agreements. Any collective agreement concluded after June 5 is expected to be consistent with Bill 124. If not, it is the Minister’s prerogative to force the parties to go back to the table and negotiate. The government has posted a technical briefing with additional details ([https://files.ontario.ca/tech-briefing-protecting-sustainable-english.pdf](https://files.ontario.ca/tech-briefing-protecting-sustainable-english.pdf)).

Bill 124 does not apply to executives covered under the *Broader Public Executive Compensation Act*, who are under a legislated wage freeze.

**Nursing Programs**

MTCU has started a review of the collaborative (university-college) delivery of nursing education. This delivery model is generally considered good for students, and both colleges and universities have invested heavily in these programs. A few colleges would like to deliver stand-alone nursing degrees. In the past—this is the third review in about ten years—the government has decided to retain the current model. COU participated in the consultation meetings and developed a written submission.
**Intellectual Property:** MTCU has struck an Expert Panel on Intellectual Property with the task of delivering an action plan for a provincial intellectual property framework and maximizing commercialization opportunities specifically related to the postsecondary sector. In preparation for an announcement from MTCU, COU has convened an IP Working Group with the mandate to develop a sector-wide IP advocacy strategy.
