**CHAIR'S REMARKS**

Mr. Coxford addressed the Board:

"This is my first meeting in the Chair and I would like to make some brief remarks suitable to the occasion. First of all, I would like to give tribute to my predecessor, Frank Angeletti. Frank provided great leadership to this Board for two years as Chair and I recognize that he leaves behind big shoes to fill. I am most grateful for the opportunity to serve on this Board and most thankful for the confidence that you as a group have in me in electing me your Chair for this coming year.

"This is a great institution and we all have a common purpose in these meetings and in the work we do on committees: we are all here because we love the institution and we want the very best for it going forward. In my view our universities in this country are among the best in the Western world and this university represents all the very best things that we see in our society. What goes on here every single day in laboratories, classrooms, wherever, appeals to our higher sense of purpose. We all want the best for the University and all its stakeholders going forward and in that spirit I am hoping that over the next couple years I can effectively lead this Board.

"We have a very proud heritage here, dating back 135 years; we can look back at tremendous accomplishments and contributions to the greater good – a single example that came up over lunch today in conversation – the recent announcement of an HIV vaccine going to clinical trials in the United States – you can imagine what that means to society overall and what that means to this

University if it proves to be what we hope it will be. I believe that the best days for Western lie ahead. I think that the University has been on an upward trajectory for a number of years, our President took over an institution in great shape and our challenge is to compound past successes with all kinds of wonderful things that we see going forward from here. I am very proud to be sitting at the head of this table and I look forward to working with all of you. Thank you very much for the confidence you have shown in me.”

Members suggested that additional work might be needed to clarify when "Western", "Western University" and "The University of Western Ontario" were to be used. The press release was somewhat confusing. Mr. Goldthorp agreed that this issue must be addressed to ensure that it is clear that the name of the University has not changed. He also believed that those individuals who were immediately critical at first will see the value of the new identity/branding over time.
