I. PURPOSE

The purpose of the Procurement Services Policy is to define:

- the responsibilities and accountability associated with the acquisition of goods and services, whether by purchase, rental or lease, related to the constituent University

- the guidelines that will maximize value-for money
- a system for accountability

Those responsible for the procurement of goods and services will have regard for associated environmental, social, governance and ethical impacts, while complying with University policies, financial controls and provisions with respect to conflict of interest.
This policy, and all goods and services procured on behalf of the University, must be in accordance with all applicable domestic and international trade agreements and federal and provincial legislation. Authority thresholds are in Canadian dollars, or equivalent, at the date of the transaction or initiation of an agreement or contract.
