PROCEDURE FOR POLICY 2.8 – Procurement of Materials and Services

1.00 Where an employee is a supplier or has a relationship with a supplier, compliance with Policy 3.4 and Policy 2.8 will be enforced.

2.00 It is recognized that on-going service and partnering with quality/preferred suppliers can be a mutually beneficial and cost-effective procurement process. However, where normal competitive procedures are waived, the reasons must be documented, kept on file, and authorized by the Director, Procurement Services or delegate through Western’s electronic requisitioning tool. This process can only be used if you have an existing exception under a trade agreement. Moreover, as a minimum, such arrangements must be reviewed every five years, or as determined by Procurement Services, with the stakeholders.

3.00 Procurement Services may enter into co-operative procurement arrangements with other organizations where this is advantageous. Co-operative procurement processes will be accepted if deemed by the Director, Procurement Services to be consistent with the intent of University policies.

4.00 Procurement Services will:

   (a) consult with the users to establish all requirements and appropriate suppliers;

   (b) be notified and approve any lab expositions, vendor and any other related shows/displays involving vendors on University property;

   (c) keep abreast of developments in the major commodity fields and provide pertinent information to users;

   (d) facilitate vendor performance evaluations;

   (e) identify sources of needed goods and services, select suppliers, obtain quotations and negotiate terms of purchase and payment. Users will be involved in the procurement process;

   (f) facilitate the procurement of goods and services and provide for customs clearance. The expediting of delivery of goods and services will be managed with the user department on a case by case basis;

   (g) place orders and arrange details of delivery;

   (h) handle all adjustments of price and terms for items purchased on Purchase Orders; and

   (i) interpret and apply all applicable government regulations including customs and appropriate taxes.
5.00 The competitive bid process may take the form of telephone quotations, written Request For Quote, written Request For Proposal, Tender or by OBS (electronic ‘Open Bid System’). The most appropriate method will be decided by Procurement Services in conjunction with the user and/or as required by law. Guidelines for competitive pricing, considering Procurement Value, are:

- Up to $10,000 - at the discretion of the Procurement Services Buyer.
- $10,001 to $25,000 - two verbal quotes minimum, three preferable with the awarded quote documented in writing.
- $25,001 to $100,000 - minimum of three formal quotes, five preferably, or advertised tenders preferably from a pre-qualification process.
- Over $100,000 – competitively bid through an open electronic system or, in the rare case, sole sourced with appropriate documentation.
