ITEM 1.0 – Land Acknowledgement

ACTION: ☐ APPROVAL ☐ INFORMATION ☐ DISCUSSION

Susan Lewis will offer a land acknowledgement or other observance.

Offering a land acknowledgment was adopted as a standard practice at Senate on December 9, 2016.

Dr. Christy Bressette, the Vice-Provost and AVP (Indigenous Initiatives), has indicated that it is important to remind ourselves regularly of our commitment to reconciliation and decolonisation, and to ensure that these objectives remain central in our collegial decision-making.

In the spring of 2021, the recommendation to offer a land acknowledgement was extended to Senate’s committees.

Members of OAC were broadly supportive of this practice, while also being mindful that land acknowledgments should be meaningful and dynamic, and not simply a rote exercise.

Some suggestions for practices that might be most meaningful and relevant to Senate and committee meetings are:

- a land acknowledgement
- a reminder of one or more of the TRC Calls to Action, particularly those relating to education
- a reminder of elements of Western’s Indigenous Strategic Plan
- a reference to local Indigenous culture or narratives

REPORT OF THE PROVOST

F. Strzelczyk, Provost and Vice-President (Academic) presented the verbal report and commented on several items under the academic portfolio for the information of the Senate.

F. Strzelczyk noted the ongoing search for the Vice-President (Research) is nearing completion, and the announcement is expected to be made soon. Furthermore, the search for the University Registrar continues and the search for the Vice-Provost (Graduate & Postdoctoral Studies) was launched.

F. Strzelczyk provided an update on the budget and planning. A brief overview of the Global Engagement Plan was also presented with respect to the internationalization process. As part of the updates on enrolment, the Provost further described the new admission strategy.

F. Strzelczyk commented on the graduate students’ housing and funding. She acknowledged the student housing issue has become an increasing challenge over the last year due to the
high cost of living expenses and inflation. Some senior leaders recently met with representatives of the Society of Graduate Students (SOGS), which advocates on behalf of graduate students. The Provost acknowledged the substantive SOGS' Report on housing and food insecurity (Appendix A).

To address the questions that were received prior to the meeting from graduate student Senators, F. Strzelczyk presented slides with information regarding Western's efforts on graduate student funding, comparison across the U15 and the further steps planned to be taken in order to handle the affordability issue (Appendix B).

F. Strzelczyk announced the launching of the SOGS Bursary Fund with over $500,000 for the next 3-year cycle to address the urgent needs of graduate students. She also advised that SOGS's membership fees can be redirected to other important graduate students' issues. The Provost concluded the report by expressing her gratitude to representatives of SOGS for their work.

A Senator raised the concern regarding possible issues with delivery of the required number of instructional days and scheduling classes. They noted that procedures for aligning an additional non-instructional day on Monday with the academic schedule for the term should be elaborated by the Senate. A Senator asked whether a non-instructional day could be considered last Friday of September to prevent its potential impact on the scheduling of classes and labs.

F. Strzelczyk, Provost and Vice-President (Academic) acknowledged the importance of observing for the National Day for Truth and Reconciliation by creating opportunities for reflection. She also shared with the Senate practices of other Universities across Canada, and noted that the discussions with respect to the National Day for Truth and Reconciliation have taken place with the Office of Indigenous Initiatives.

CARRIED

In response to a question from a Senator regarding possibly increasing the number admitted to health care professionals’ programs, F. Strzelczyk, Provost and Vice-President (Academic) advised that the particular quota for students in these fields is mandated by the government.

John Yoo, Dean of the Schulich School of Medicine & Dentistry confirmed that the number of student enrolments in health care is managed according to annually approved government regulations.

Jayne Garland, Dean of the Faculty of Health Sciences, noted that the enrolment numbers for
health specializations that are not mandated by the government reflected the current provincial funding situation due to the high tuition fees. Funding for expanding these places remains a point of advocacy in negotiations with the government. Additionally, she noted that nursing admissions had doubled over the previous year.

ITEM 12.1(a) – Revisions to the Terms of Reference of the Honorary Degrees Committee

A Senator requested this item be removed from the Consent Agenda as they had a concern as to whether the procedures for revoking an honorary degree could be included in the Terms of Reference of the Honorary Degrees Committee. A second issue pointed out is a possible conflict of interest between voting and non-voting ex-officio members of the Honorary Degrees
Committee. A Senator further suggested that the Associate Director of Convocation should be a non-voting member.

Amy Bryson, University Secretary, advised that the Honorary Degrees Committee discussed the procedures for the rescission of an honorary doctorate, and it was decided that due to the extraordinary circumstance, any issues would be handled on a case-by-case basis.

It was decided that the revisions to the Terms of Reference of the Honorary Degrees Committee be tabled and sent back to the Honorary Degrees Committee for consideration.

Additionally, J. Yoo mentioned the recent appointment of the Acting Associate Dean of EDID, at Schulich for guiding the commitment to EDID.

**ITEM 12.4(a) – Vice-Provost’s Annual Report on Faculty Recruitment and Retention**

A Senator requested that this item be removed from the consent agenda for clarification regarding the data presented on the faculty recruitment and retention report, particularly broken down by the gender factor with respect to equity issues. Moreover, this report is the first to include data that can be used to determine the effects of COVID on faculty numbers. The full text of questions submitted in advance of the meeting was posted in the Agenda at Item 14.0 prior to the meeting.
In response to questions regarding the report, M. McGlynn, Vice-Provost (Academic Planning, Policy & Faculty), clarified various metrics, including probationary teaching scholars, equity issues, retirements, limited-term appointments, presented data broken down by workload proportion and the increasing number of clinical faculty that reflect the clinical demand. In her comments, M. McGlynn stated that at this point it is too early to estimate the impact of COVID.

**DISCUSSION AND QUESTION PERIOD**

The full text of questions submitted in advance of the meeting were posted in the Agenda at Item 14.0 prior to the meeting. The questions and responses are summarized below.

Chair        University Secretary
OVERVIEW: The leadership team of the Society of Graduate Students (SOGS) ran a survey to the membership from October 31, 2022 to November 15, 2022 to get an idea of the scale and scope of housing and food security challenges faced by current graduate students. This survey was an opportunity for the Society to identify service gaps and financial support needs amongst the current (2022-23) graduate student population at Western University, and to bring these gaps and needs to the attention of stakeholders and leadership partners on campus.

Unique Qualtrics survey links were sent to graduate students enrolled at Western University in November 2022. All information from this survey was anonymized. The SOGS Vice-President of Student Services, SOGS Governance and Policy Manager, and SOGS Communications Promotions Manager were the only people with access to the raw data.

HIGHLIGHTS:
1. **Demographics**: 1429 respondents: 62% domestic and 38% international. 77% of respondents were in the first 2 years of their graduate degree reflective trends of current and incoming graduate students at Western University.

2. **Housing**: 76% of respondents faced challenges with finding housing in London, Ontario with affordability ranked the highest challenge. 46% of respondents pay over $1000 in rent/month. Students reported opting for the following to keep rental costs within the scope of affordability: virtual studies, live with parents, commute, live with roommates, and/or rely on family or spouse’s income.

3. **Food security**: 44% of respondents identified has food insecure. Within this pool of respondents, 41% were PhD students and 25% were Master’s thesis students suggesting a trend among funded students.

4. **Essential items**: 55% of students cannot afford essential items (i.e., hygiene products, clothing, sanitary products, etc. Within this pool of respondents, 46% were PhD students and 20% were Master’s thesis students suggesting a trend among funded students.

This raises concerns of equity, diversity and inclusion where socioeconomic status of a student and/or their family will be the primary determinant of their ability to pursue higher education at Western University.
Demographics

STUDENT STATUS: We received a total of 1429 responses which is approximately 21% of our membership. 62% of respondents identified as domestic and 38% as international students.

DEGREE TYPE: Overall, 60% of respondents indicated they were in a Master's program while 40% indicated they were in a PhD program. Furthermore, 34.8% of respondents were enrolled in a course-based degree while 65.2% were enrolled in a research-intensive degree. Since research-intensive degrees indicate research stipends, 65% of respondents were receiving research funding and 35% were receiving no research funding (Figure 1).

YEAR OF DEGREE: 77% of respondents were in the first 2 years of their graduate degree where the trends observed in this report are reflective current and incoming graduate students at Western University (Figure 2).

SUMMARY OF STUDENT DEMOGRAPHIC:
1. 1429 responses: 62% were domestic and 38% were international
2. 77% of respondents were in the first 2 years of their graduate degree.
3. 60% were in a Master’s degree and 40% were in their PhD.
Housing

RANKED CHALLENGES: 76% (n=1086) of respondents had experienced challenges with finding housing. Of the challenges ranked, 70% (n=1000) of respondents ranked affordability as the highest challenge, while proximity to campus and safe & secure area were given a median rank of 3. Followed by accessible: bus routes, houses, and childcare in ranked order of challenges faced when looking for housing in London, Ontario (Figure 3).

CURRENT RENT RATES: Approximately 56% of respondents pay over $1000 in rent. Included values from “others.” This indicates that according to a 12-month lease, majority of graduate students at WesternU could be expected to pay approximately $12 000/annually in rent (Figure 4).
NUMBER OF ROOMATES RELATIVE TO RENT RATES:
60% of respondents live with at least 4 roommates and pay $500 per month in rent. Graduate students that pay approximately $750/month display variation in the number in the number of roommates. This can reflect proximity to campus increased number of roommates for the same price and reduction in roommates further from main campus (Figure 5).

Note: For simplicity, this number excludes responses from “other.” However, this is to give an estimate of rent prices graduate students at WesternU could be expected pay per unit.

![Rent rates convolved with number of roommates](image)

*Figure 5. The relationship between monthly rent rate ranges relative to the number of roommates in London Ontario*

NOTABLE MENTIONS IN “OTHERS”:
There were several mentions in “other” that further elaborated the challenges experienced with finding housing in London, Ontario.

- **Out of province** students had to opt for virtual studies for graduate education due to challenges with finding affordable housing.
- **Students living with a disability** were unable to find accessible and affordable housing for their needs.
- Several students had to commute from out of city, live with parents, or rely on a spouse's income for financial support to meet their housing needs.
- Furthermore, some rent rates may not include essential amenities for students such as electricity, internet, rental insurance etc.

SUMMARY OF HOUSING CHALLENGES:
Key highlights from our findings are:

1. 76% of respondents experienced challenges with finding adequate housing.
2. Affordability was ranked the highest challenge among 70% of respondents.
3. Approximately 56% of our respondents pay $1000 or more/month in rent
4. Several students had to pursue virtual studies, commute from out of city, live at home, unable to find accessible housing, rely on family/spouse income.
Food Insecurity

44% (n=648) of respondents identified as food insecure.

FOOD INSECURITY AND DEGREE TYPE:
Within in this pool of respondents, 41% were PhD students and 25% were Master’s thesis students. Furthermore, 55% of respondents reported that they cannot afford to purchase essential items. 46% of these respondents were PhD students and 20% were Master’s thesis students. This appears to suggest a trend among funded students (Figure 6).

FOOD INSECURITY AND YEAR OF STUDY:
80% of respondents who were in the first two years of their graduate degree reported experiencing challenges acquiring affordable, accessible, and safe housing, identified as food insecure and unable to afford essential items such as personal hygiene items, clothing, among others (Figure 7).
FOODBANK USAGE:
9% of respondents reported use of the SOGS or PSAC Food Bank programs with 64% identifying as PhD and 18% as Master’s thesis students. 70% of these respondents were in the first 2 years of their graduate degree (Figure 8).

4% of respondents reported use of the London Food bank to meet their food insecurity needs with 50% identifying as PhD and 29% as 1-year course-based Masters students. 80% of these respondents were in the first 2 years of their graduate degree.

![Figure 8. The relationship between SOGS/PSAC food bank usage and year of degree](image)

SUMMARY WITH FOOD SECURITY:
Key highlights from our findings are:
1. 46% and 55% of our respondents identified as being food insecure and unable to purchase essential items respectively.
2. Within this pool, 80% of the respondents are within the first 2 years of their graduate degree reflecting the expected challenges of incoming, current and future students.
3. Within this pool, 66% of the respondents were PhD or Masters thesis students indicating a trend among funded students.

Overall, respondents identified that the majority of their challenges with food security were due to the increased food/essential items cost, followed by the increased cost of housing and no/stagnant funding packages for their respective graduate program.
Connecting with WesternU’s Strategic Plan for 2030

According to WesternU’s Strategic Plan for 2030, a few of the goals are centered around increasing student enrolment, retention, and diversity among equity deserving groups such as:

“...[achieving] the highest student retention and graduation rates among Canada’s leading research-intensive universities.”

“...[expanding] student enrolment to 50,000 by 2030 (undergraduate, graduate, postdoctoral, and lifelong learners) – in areas of demand and societal need and with deliberate intention to be equitable and inclusive.”

“...[setting] goals for increased representation among members of equity-deserving groups.”

“...[increasing] diversity among our faculty and staff, including the recruitment and retention of Indigenous Peoples and members of equity-deserving groups.”

IMPORTANCE OF GRADUATE TRAINEES AT WESTERN:
Graduate trainees are the foundational labour and academic pillars that will assist WesternU achieve increased student retention and graduation rates. However, without sustainable resources to acquire adequate and affordable student housing for Master’s and PhD students, the advancement and/or completion of graduate trainee education will be jeopardized. Furthermore, the capacity of graduate students to support and enhance undergraduate trainee education/completion at the university will be diminished.

In order to achieve the university’s mandate to uphold the deliberate intention of equitable and inclusive enrolment in areas of demand and societal need, WesternU must prepare for the wave of unique intersectional inequalities found in the graduate student population.

If the university does not offer greater housing and food support, increased financial pressure will be exerted on student-run advocacy organizations’, such as SOGS, that are supporting a variety of underfunded and overused resources -- food banks, emergency loans, UHIP subsidy, childcare subsidy, and more -- that help offset the impact of high housing and food costs in London, and stagnant funding packages at WesternU. Student unions cannot continue to fill the financial- and service-based gaps that the university either chooses to neglect or fails to address in the blueprints of planning.

DEMOGRAPHIC
WesternU’s goal of reaching 50,000 students enrolled by 2030, will likely lead to a further increased spike of 1- or 2-year coursed-based Master’s degrees. Furthermore, this spike in non-funded Master’s students will reinforce the pause of federal funding to Tri-Council scholarships to supplement graduate student income and funding packages, as well as
encourage the continued increase in international graduate student enrolment at WesternU. As a result, future graduate students will face worse housing and food insecurity challenges than those reported by survey respondents. Graduate students will be further displaced and marginalized due to: 1) problems acquiring affordable and accessible housing in London (private sector) and 2) the lack of on-campus housing for graduate students due to the turnover of existing affordable university apartments into first-year (undergraduate) only residences (i.e., London Hall, Alumni Hall, and Lambton Hall).

**HOUSING**
Without adequate financial and support infrastructure offered by WesternU, the current and incoming wave of graduate students facing intersections of inequalities, such as lower socioeconomic status, identifying as black/indigenous/person of colour/queer, living with disability and will be further marginalized. Moreover, the graduate trainees of today will reflect the faculty and staff of tomorrow.

To compensate for their pre-disposed inequities, graduate students will seek additional employment opportunities external to their academics to afford the increasing cost of living within London, Ontario. This in turn will reduce student retention, completion, and overall student well-being. Furthermore, this inadvertently creates and promotes a social hierarchy and divide in higher education.

**FOOD SECURITY**
As the housing crisis amplifies, food insecurity has become a chronic issue across both domestic and international student populations at WesternU. This issue has been exacerbated by not only the 2022 post-pandemic goods and services inflation, which has driven food costs up by approximately 12% in grocery stores (citation), but also the drastic surge in housing prices in London over the last few years. This year, the Province of Ontario saw inflation rates jump to 7% for goods and services, resulting in an increase of the cost of basic necessities like food, hygiene products, and clothing (up 10%) in retail stores. Compounding the issue of inflation has been the drastic surge in real estate prices that have, in turn, dangerously increased rental rates. Unfortunately, graduate student funding packages rates at WesternU have not been recently increased to better combat the financial stressors graduate students are facing.

Ontario food banks gathered data from April 2021 to March 2022 to illustrate the challenges and trends observed in food bank usage and funding. This is the sixth consecutive year where Ontario food banks witnessed an all-time high utilization of their support service with approximately 400,000 visits per month (20% increase to the previous year and 56% increase compared to pre-pandemic numbers). The number of first-time visitors to the food bank increased by 64% compared to pre-pandemic years. 70% of food banks users have reported to use 68% of their monthly income towards rent which is more than double the affordable housing cost range (30% of their monthly income). These food bank usage trends combined with stagnant graduate student funding packages that are not reflective of current living costs, will lead to an escalated use of student- and city-run food bank services.
SOGS Initiatives

The Society’s operational budget is solely supported by mandatory membership fees, with no financial or material contribution from WesternU to better support graduate students. Supporting approximately 6,800 students with unique challenges, the Society’s mandate has always been to fill in the service and support gaps that the university has failed to acknowledge (i.e., funding packages do not reflect the cost of living) or take responsibility for (i.e., turning on-campus grad student housing into undergraduate only housing). The Society has launched several financial aid programs to support students in extenuating circumstances, such as the food bank program as well as the childcare and UHIP subsidies.

SOGS NON-TA FOOD BANK:

In 2017, SOGS created the Non-TA Food Bank program to support members in extenuating financial circumstances who were facing food insecurity. To date, the SOGS Non-TA Food Bank has supported 471 graduate students. The Food Bank program is open to all non-TA graduate students (approximately 5000 students), designed to recognize the additional challenges students when they do not have an income stream coming from a funding package (i.e., a TAship). Over the last 5 years SOGS has more than doubled its funding to this Food Bank program to better support the growing food insecurity experienced by graduate students.

Our current Food Bank funding model involves providing $75 to each applicant with an additional $25 per dependent (spouse and/or children). SOGS provides members with President’s Choice (PC) Optimum gift cards that can be used at Loblaw-owned stores (Loblaws, No Frills, Shopper’s Drug Mart, and Value Mart). This gift card type allows applicants to purchase not only food but essential items tailored to their own needs (such as toiletries, home items, and clothing).

SOGS NON-TA FOOD BANK YEAR TO DATE:

SOGS budgeted $8,000 in Food Bank funding for the 2022-2023 academic year and has already spent approximately 95% of the funds as of the end of Fall 2022 Term. To keep the Food Bank program operative for the remainder of the year, SOGS launched a Donation Campaign via SGPS and received approximately $7,240 in donations from faculty, individual staff, and student-run events. Furthermore, given the high utilization of the SOGS Non-TA Food Bank, the Society voted to modify the policy of the Food Bank from $75 with an additional $25/dependent to a flat rate
of $100 per successful application in order to not only make the program more equitable, but also more accessible.

This was not the first time the SOGS Non-TA Food Bank experienced a high utilization. In 2019, the Society requested financial aid from university stakeholders to support the food bank. WesternU's Student Experience provided $5,000. Furthermore, this is one of many SOGS services designed to help members with short-term or temporary financial aid issues that has been chronically used by graduate students.

REPORT OF THE PRESIDENT

To: Senators
From: Alan Shepard
Date: March 10, 2023
Re: Monthly report for March 2023

Dear Senators,

Following are some noteworthy developments since my last written report to Senate of February 9, 2023.

**Western joins new research hub for pandemic preparedness:** Western is one of 80 partners in the Canadian Hub for Health Intelligence and Innovation in Infectious Diseases (HI3), funded by the federal government and created to develop life-saving vaccines, therapeutics, and processes that target existing and emerging infectious diseases. Anchored at the University of Toronto, HI3 is a multidisciplinary coalition linking the resources of eight Ontario universities and six research hospitals with regional and national commercialization, biomanufacturing and pharmaceutical partners. Western’s participation in the hub is led by Prof. Miguel Quiñones-Mateu and will leverage the world-class facilities and expertise at the Imaging Pathogens for Knowledge Translation lab (ImPaKT) located at our Schulich School of Medicine & Dentistry.

**New fund implemented to support graduate students:** As announced by Provost Strzelczyk on February 16, Western has established a $500,000 fund to aid graduate students. Needs-based bursaries provided through the fund will be allocated over the next three years with advice from the Society of Graduate Students and School of Graduate & Postdoctoral Studies. The investment represents twice the amount initially requested by SOGS. Western is also developing plans to augment housing options for graduate and upper-year undergraduate students that will be presented to the Board of Governors for approval later this year.

**Western announces new partnership focused on clean energy:** On February 14, Western formalized a new partnership with Canadian Nuclear Laboratories (CNL) and the Atomic Energy of Canada Limited (AECL) that will advance research in health and environmental sciences, clean energy and nuclear safety. The agreement will leverage Western’s strengths in areas including imaging and radiopharmaceuticals; cybersecurity; high-performance computing and artificial
intelligence; hydrogen; materials science and degradation; decommissioning and waste management as well as advanced and small modular reactors, fuels and power grids. Students will also benefit from the partnership through increased experiential learning opportunities, internships and scholarships, and new pathways to employment opportunities in related industry.

**New federal guidelines focus on national research security:** On February 13, Minister of Innovation, Science & Industry Jean-Yves Duclos announced that Canada’s federal research granting agencies and the Canada Foundation for Innovation are implementing new measures aimed at protecting Canadian research and intellectual property from foreign interference, espionage and theft. The new policy entails refusing funding for collaborative research projects involving researchers who are affiliated with a university, research institute, or laboratory that is connected to military, national defence, or state security entities or foreign state actors that pose a risk to Canada’s national security.

In his letter to the U15 and Universities Canada announcing the policy change, Minister Duclos writes that the government will “work with the research community on implementing this guidance in a manner that is risk-targeted and minimizes administrative burden.” Details of the *National Security Guidelines for Research Partnerships* are available [online](#).

ITEM 4.0 Report of the Provost

ACTION: ☒ INFORMATION ☐ APPROVAL ☐ DISCUSSION

Florentine Strzelczyk, Provost & Vice-President (Academic) will provide a verbal report.
ITEM 5.1 – Amendment to the Terms of Reference of the Nominating Committee

ACTION: ☒ APPROVAL ☐ INFORMATION ☐ DISCUSSION

Recommended: That the Operations/Agenda Committee recommend to Senate that the Terms of Reference of the Senate Nominating Committee be revised as shown in Item 5.1, effective July 1, 2023.

EXECUTIVE SUMMARY:

At its March 9, 2023 meeting, the Nominating Committee approved a motion to recommend to Senate, through the Operations/Agenda Committee, that the Terms of Reference of the Nominating Committee be revised as shown, effective July 1, 2023.

Composition

The current composition of the Senate Nominating Committee includes only one graduate student and ex officio, the Chair, Western Student Senators. There is no requirement that the Chair of the Western Student Senators be an undergraduate student. As well, the Western Student Senators are not formally recognized as a group by Senate.

Members agreed to remove all alternate members and not to expand the size of the Committee. There was general consensus that the current size of the committee is appropriate for the work that the committee does.

Proposed changes to the Composition of the Nominating Committee include:

- A change to the Composition of the Committee to equate undergraduate and graduate student representation with expanding the number of elected members to include an undergraduate student and reduce the ex-officio members of the Nominating Committee.
- A change to the Composition of the Committee to eliminate all alternate members.

Mandate

The Nominating Committee discussed the need for the Nominating Subcommittee to Select a Senate Representative from the General Community (the Subcommittee) and considered whether the work of the Subcommittee could be performed by the Nominating Committee instead.

The Subcommittee’s mandate is to select two community members to serve as Senators, and in most cases, one of whom shall be active in or associated with the field of secondary school education (UWO Act, section 24(g)). It was noted that in a typical year, the Subcommittee appoints one individual and fulfills its mandate in the spring by electronic means.
There was consensus among the Nominating Committee members that the Nominating Committee could accomplish this work, rather than populating a separate Subcommittee to do so.

The proposed change to the Nominating Committee’s Terms of Reference is to add the mandate of the Subcommittee. The Nominating Committee would then disband the Subcommittee and rescind its Terms of Reference.

*Amendment to the Terms of Reference of the Nominating Committee*
NOMINATING COMMITTEE

Effective Date: July 1, 2023
Supersedes: December 2016; July 2008
Date of Next Review: Spring 2024

TERMS OF REFERENCE

To nominate members for standing and ad hoc committees of the Senate (except for the Nominating Committee) and Senate representation on other bodies as requested by Senate.

To select representatives from the general community to serve on the Senate in accordance with Section 24(1)(g)(ii) of the UWO Act 1982 (as amended in 1988).

PROCEDURES

The committee will normally be informed of positions to be filled 10 days prior to each meeting of the committee. Information about vacancies will also be made available to the University Community.

The committee shall only consider nominations accompanied by a paragraph of not more than 100 words outlining the reasons for nomination and the candidate’s suitability for the position.

It is the responsibility of members of the committee to ensure that there are sufficient nominees for consideration for positions being filled and to confirm that any nominees consent to the nomination.

The committee shall consider all nominations it receives without regard to the source of the nomination.

Foundational to the work of the committee is a commitment to ensure that candidates represent the breadth of the university’s academic community in the diversity of indigeneity, race, gender identity/expression, ability, sexual orientation and religion. Diversity of our community is one of our strengths and is integral to the decision-making and governance of our institution.
The committee will present nominees for the positions to be filled in the agenda materials circulated in advance of each Senate meeting. At the Senate meeting, the Chair of the committee will call for any further nominations for any of the vacancies to be filled.

The committee shall elect a Chair and Vice-Chair annually.

**Ex officio (voting):**

- President & Vice-Chancellor
- Provost & Vice-President (Academic)

ITEM 11.0 – Report of the Academic Colleague

ACTION: ☐ APPROVAL ☒ INFORMATION ☐ DISCUSSION

The COU Academic Colleagues met on February 7 and 8, 2023. The February 7 meeting included a presentation from Benoit-Antoine Bacon, President and Vice-Chancellor, Carleton University entitled “Conversation on Mental Health and Wellness in the University Context”. Dr. Bacon shared his reflections on the meaning of a healthy and successful institution, and the distinction between being functional and being well/thriving in the context of individuals and universities as institutions and communities.

The February 8 meeting included updates from COU which may be of interest to Senators:

International: in June 2022, COU created a working group on international education to provide Executive Heads with recommendations on policy and advocacy issues. On January 26, 2023, Executive Heads indicated support for a series of recommendations from the working group on issues including agent management, tuition predictability/transparency, advocacy with Immigration, Refugees and Citizenship Canada on visa processing, the International Student Recovery fee policy, expanding eligibility for experiential and work-integrated learning opportunities to international students, and sector data collection and analysis.

Financial Sustainability & the Auditor General’s Recommendations: As ongoing follow up to the Auditor General’s Value-for-Money Audit on Financial Management in Ontario Universities, COU will: continue advocacy related to tuition and revenue flexibility, collaborate with the Ministry on its new financial accountability framework and provide further input on some of the details of their plan, provide information to the Ministry on themes including financial sustainability and system design and continue to promote and communicate the sector’s leading practices in university board governance in consultation with Board Secretaries and other groups.

Blue-Ribbon Panel: the Ontario Ministry of Colleges and Universities announced the formation of a blue-ribbon panel to “to provide advice and recommendations for keeping the postsecondary education sector financially stable and focused on providing the best student experience possible.” The members include “leaders from the academic and business communities [with] expertise in postsecondary education, research and innovation, financial management, and economic development.”

Quality Council: the annual report of the Ontario Universities’ Council on Quality Assurance is available here. It contains discussion of the revised Quality Assurance Framework and a list of the 63 new programs approved in 2021-22, including three at Western (Primary Healthcare Nurse Practitioner GDip; Major in Creative Arts and Production BA; Artificial Intelligence Systems Engineering MESc).
Microcredentials: The Ministry has announced its intention to create a Microcredentials Quality Assurance Framework for the province. The Provincial Educational Quality Assessment Board will lead stakeholder consultations to develop key principles and an implementation approach. University sector stakeholders to be consulted include the Quality Council and the COU Microcredentials Working Group.
ITEM 12.0 – The Unanimous Consent Agenda

**ACTION:** ☒ APPROVAL  ☐ INFORMATION  ☐ DISCUSSION

**Recommended:** That the items listed in the Consent Agenda be approved or received for information by the Senate by unanimous consent.

The Senate’s parliamentary authority - *American Institute of Parliamentarians Standard Code of Parliamentary Procedure* (formerly called *Sturgis Standard Code of Parliamentary Procedure*) - explains the consent agenda:

> Organizations having a large number of routine matters to approve often save time by use of a *consent agenda*, also called a *consent calendar* or *unanimous consent agenda*. This is a portion of the printed agenda listing matters that are expected to be non-controversial and on which there are likely to be no questions.

> Before taking the vote, the chair allows time for the members to read the list to determine if it includes any matters on which they may have a question, or which they would like to discuss or oppose. Any member has a right to remove any item from the consent agenda, in which case it is transferred to the regular agenda so that it may be considered and voted on separately. The remaining items are then unanimously approved *en bloc* without discussion, saving the time that would be required for individual votes.

A number of Canadian university governing bodies have employed the consent agenda format to include not only routine approval items, but also information items. One reason for using this format is to allow the governing body to focus on major items of business. While approval of an omnibus motion saves time at meetings, members will want to review the agenda materials carefully in order that they properly discharge their responsibilities.

**How it works for Senate:**

In consultation with Committee chairs and principal resource persons, the University Secretary identifies action and information items that are routine and/or likely non-controversial. Action and information items on the agenda that are not noted on the consent agenda will be presented singly for discussion and voting (when appropriate).

When members receive their meeting agendas, they should review all reports in the usual manner. **If any member wants to ask a question, discuss, or oppose an item that is marked for the consent agenda, they can ask to have it removed from the consent agenda** by contacting the University Secretary (at senate@uwo.ca) prior to the meeting or by asking that it be removed before the Chair calls for a mover and seconder for the motion to approve or receive, by unanimous consent, the items listed.

At the Senate meeting, before the unanimous consent motion is presented for approval, the Chair of Senate (1) will advise the Senate of items that are to be removed from the list based on prior requests from Senate members; and (2) will ask if there are any other items that should be removed from the list. The remaining items are then unanimously approved *en bloc*.
without discussion. Those matters that have been struck from the consent agenda will be handled in the usual way.

The minutes of the Senate meeting will report matters approved as part of the consent agenda as "carried by unanimous consent". Information items received as part of the consent agenda will be reported as received.

ITEM 12.2(b) – Faculty of Health Sciences, School of Kinesiology: Revisions to the Program Requirements of the Honours Specialization in Clinical Kinesiology

ACTION: ☒ APPROVAL ☐ INFORMATION ☐ DISCUSSION

Recommended: That on the recommendation of ACA, Senate approve that effective September 1, 2023, the program requirements of the Honours Specialization in Clinical Kinesiology offered by the School of Kinesiology in the Faculty of Health Sciences be revised as shown in Item 12.2(b).

EXECUTIVE SUMMARY:

The Honours Specialization in Clinical Kinesiology launched 5 years ago, in 2017. The School of Kinesiology is making these changes primarily to provide students with more flexibility in terms of course selection, while still satisfying the requirements outlined by the College of Kinesiologists of Ontario (COKO). This is particularly important in the second year of the program, as second-year students have historically had little choice in the courses that they take. This rearrangement of the courses in the module also allows students some flexibility in the areas of interest that they may wish to pursue in the future. Finally, the re-arrangement of courses across picklists allows students to select from amongst 14 additional courses, which will increase the variability of the course offerings that students will have in their module.

Notably, most students graduating from a 4-year Kinesiology program in Ontario are eligible to write the COKO’s Registered Kinesiologist exam. Students graduating from programs that are similar to Kinesiology (e.g., physical and health education) must submit an Academic Assessment Form with certain core courses to be eligible to write the exam. The proposed changes to the Honours Specialization in Clinical Kinesiology will still satisfy the requirements outlined in the Academic Assessment Form.

Note: The Honours Specialization in Clinical Kinesiology is a limited enrolment program. More competitive academic standing may be required when demand exceeds enrolment capacity. In the event demand exceeds enrolment capacity a student’s term average will also be taken into consideration. Admission to the module is restricted to students registered in the School of Kinesiology.

Module

ITEM 12.2(c) – Don Wright Faculty of Music, Department of Music Research and Composition: Revisions to the Admission and Program Requirements of the Specialization in Music Administrative Studies

ACTION: ☒ APPROVAL ☐ INFORMATION ☐ DISCUSSION

Recommended: That on the recommendation of ACA, Senate approve that effective September 1, 2023, the admission and program requirements of the Specialization in Music Administrative Studies offered by the Department of Music Research and Composition in the Don Wright Faculty of Music be revised as shown in Item 12.2(c).

EXECUTIVE SUMMARY:

The proposed revisions to the Specialization in Music Administrative Studies will bring the module into alignment with the current modular system practices and remove Music 4720A/B/Y from the module requirements. Music 4720A/B/Y will be withdrawn from the offerings of the Don Wright Faculty of Music in a subsequent submission to the Subcommittee on Undergraduate Academic Courses (SOC). With the exception of the removal of Music 4720A/B/Y, all other program requirements as well as program learning outcomes remain unchanged: the revisions streamline the program for Academic Calendar copy.

The rearrangement of the courses brings the module into alignment with University policy. Additionally, the revision will reduce the module from 20.0 courses to 10.0 courses (years 2-4), mirroring current practices in other Specializations across campus. The removal of Music 4720A/B/Y will have no impact on the program learning outcomes or the way the Specialization has been offered. Music 4720A/B/Y has only been offered once in 10 years, and students have been guided toward other Don Wright Faculty of Music courses. The rationale for changing the 5.0 course requirement from Music Research and Composition to 2.5 from Music Research and Composition and 2.5 from the Don Wright Faculty of Music is to allow students more choice within the Music curriculum.

ITEM 12.2(d) – School of Graduate and Postdoctoral Studies: Revisions to the Master of Arts (MA) in Art History and Curatorial Studies and the Doctor of Philosophy (PhD) in Art and Visual Culture

ACTION: ☒ APPROVAL ☐ INFORMATION ☐ DISCUSSION

Recommended: That on the recommendation of ACA, Senate approve that effective January 1, 2023, the Master of Arts (MA) in Art History and Curatorial Studies and the Doctor of Philosophy (PhD) in Art and Visual Culture be revised as described in Item 12.2(d).

EXECUTIVE SUMMARY:

The Department of Visual Arts is proposing to remove the second language requirement for students enrolled in the Master of Arts (MA) in Art History and Curatorial Studies and the Doctor of Philosophy (PhD) in Art and Visual Culture.

Requiring a second language for graduate students is problematic from an Equity, Diversity, Inclusion, and Decolonization (EDID) perspective. In practice, it has tended to require the learning/knowledge of a colonial language in institutions that have yet to adequately acknowledge and counter processes that threaten the preservation of Indigenous languages. It has also been an issue for students at a lower socioeconomic status, disadvantaging further those who have not had the same opportunities as their more privileged peers to acquire a second language.

Testing proficiency in a second language is also no longer necessary from a pedagogical perspective. First a “Major Research Paper” (MRP) and indeed even an MA Thesis in a one-year program often does not require knowledge of a second language to successfully complete. In cases where it does, as in a PhD in Art History, the supervisor will continue to advise the student to acquire the necessary language skills to complete the research. A translation test or registration in a course is not necessary to confirm proficiency. This does not prevent students from enrolling in such courses if they wish to and the Department will continue to support students who decide this is of benefit to their research. In other words, second language acquisition will certainly be supported where necessary, just not tested or required as a program milestone.

In the past ten years, only two of over 50 theses/MRPs would have benefitted from a second language, and, in both cases, the students had already acquired proficiency in the language in question (acquired independently in one case and as a native speaker in the other). The same is true for the three out of 33 PhD dissertations completed since the inception of the doctoral program. In all cases, the student was a native speaker. For the remaining dissertations that benefitted from consulting scholarship in a second language, the student had already previously acquired proficiency.
Students who require proficiency in a second language to complete their research will be advised by their supervisor to take the necessary steps to acquire a working knowledge of the language in question.

The program learning outcomes for the MA in Art History and Curatorial Studies and the PhD in Art and Visual Culture will be updated to remove the demonstration of reading knowledge of a second language.

ITEM 13.0 - Items Removed from the Consent Agenda

ACTION: ☐ APPROVAL ☒ INFORMATION ☐ DISCUSSION

EXECUTIVE SUMMARY:

The following item has been removed from the Consent Agenda by request:

12.2(d) – School of Graduate and Postdoctoral Studies: Revisions to the Master of Arts (MA) in Art History and Curatorial Studies and the Doctor of philosophy (PhD) in Art and Visual Culture.
ITEM 14.0 – Discussion and Question Period

Zoë Sinel, Senator:

The following question has been submitted to ITEM 12.2(d) - School of Graduate and Postdoctoral Studies: Revisions to the Master of Arts (MA) in Art History and Curatorial Studies and the Doctor of Philosophy (PhD) in Art and Visual Culture programs.

1. The first reason given for the removal of the language requirement for students enrolled in the Master of Arts (MA) in Art History and Curatorial Studies and the Doctor of Philosophy (PhD) in Art and Visual Culture is that “requiring a second language for graduate students is problematic from an Equity, Diversity, Inclusion, and Decolonization (EDID) perspective.” This rationale seems to assume a) that English is a default first language for students in equity-deserving groups; b) that the requirement to learn an additional language amounts to a requirement to learn French, which is, like English, another colonial language; c) that second language learning threatens the preservation of Indigenous languages; and d) that students of lower socioeconomic status tend to know only English or have more difficulty accessing second language instruction. All of these assumptions are not only faulty or downright incorrect, they also play into stereotypes and misconceptions about the very equity-deserving groups the rationale claims to serve. I ask that the Department of Visual Arts consider changing this executive summary to better reflect the reasons for which they are making this change, and to avoid promoting ideas about language learning that are harmful and wrong.

Jane Toswell, Senator:

1. I notice that in the media in early March there was discussion of a national risk assessment tool for gender-based violence, to be available for use later this year. I wonder if Western plans to make use of this tool. And, since gbsv continues to be an important issue on this campus, I am surprised to learn (I ask students about this daily) that the new anonymous reporting tool for sexual violence that the London Police have rolled out has not been made broadly available to our students. It is an app called "Speak Out" which should be provided to all our students by us as a university; although the reporting is anonymous, my understanding is that those who use the app receive a reference code they can use to activate the report should they later choose to pursue the case.

2. The provost's report at the February Senate meeting indicated that the undergraduate research internship program would be running again this year. I noticed last year, the first year of this program (to my knowledge) it had rolled out very late, in March for employment to begin in research venues on campus at the beginning of May. When I was a student myself and in need of summer employment to return to university each fall, the latest point at which I could happily find my next summer job was January; I would never have been able to wait until mid-March to apply. As a result, I've been wondering why this program is so late, and the provost's announcement provided a clue. If the program is year-to-year, then it is not built into our budget, and Western Research cannot advertise undergraduate student research internships in October or November (which would make sense) but has to roll the program out at speed in the spring. Is this the case? Are these research internships being fully awarded each spring? Have they rolled out yet for this year? Are faculties now identifying chosen
students and perhaps giving them advance information so as to ensure they get their
share of this largesse? Is this the right way to get undergraduates involved in research
internships?
3. Our first-year numbers continue to increase but we do not at the moment appear to
have enough residence rooms for them (despite having ejected graduate students at
short notice in 2022). Will we be giving up the first-year residence guarantee in
2023? Will we also be giving up the first-year guarantee of courses chosen?

Excerpt from Senate’s Adopted Policies and Procedures:

4.1 Purpose

The Discussion Question Period has two functions:

4.1.1 To allow members to ask questions about the progress of current Senate business,
re-open matters previously dealt with by Senate, and raise questions on other
matters within Senate’s mandate.

4.1.2 To provide time for open discussion and debate of issues related to Senate’s
mandate that are not on the agenda but may be of interest or concern to Senate
members or their constituencies.

4.2 General Regulations

4.2.1 No motions may be put or considered during this period on the agenda.

4.2.2 The length of the Discussion and Question Period is limited to 30 minutes unless
extended by a majority vote of Senate.

4.2.3 Questions or issues will be dealt with in the order in which they are received,
although related questions or issues received in advance of the meeting may be
grouped together by the Secretariat. Questions or issues submitted in advance of
the meeting will be dealt with before questions or issues raised from the floor.

4.2.4 Members who submit more than one question or issue will be asked to indicate
their order of precedence. At the Senate meeting, second and subsequent
questions or issues presented by any member will be dealt with after all other
members have an opportunity to have their first question or issue discussed.

4.2.5 At the Senate meeting, questions or comments should be directed to the Chair who
will call upon the appropriate individuals to answer or direct the discussion
thereafter.

4.2.6 In order to ensure that all those who wish to raise a matter have the opportunity to
do so, presentation of issues and questions should be brief and to the point.
Members are discouraged from reading or reiterating the material that has already
been presented in written form.
4.2.7 If there are issues or questions that have not been put at the end of the 30 minute period or any extension, and there is no further extension, the remaining questions or issues will be carried forward to the Discussion and Question Period of the following meeting of Senate, unless withdrawn by the members who initially submitted the questions or issues.

4.3 Process

4.3.1 Questions

(a) It is suggested, though not required, that members who wish to ask questions at this point in the agenda, submit them to the University Secretary at least 48 hours prior to the meeting at which they are to be raised. Questions received within this time frame will be included in a reposted agenda in advance of the meeting.

(b) The Secretary will forward questions submitted at least 48 hours prior to the meeting to the appropriate individuals for preparation of responses and every effort will be made to have responses available at the meeting.

(c) Questions not submitted at least 48-hours prior may need to be deferred to the next meeting for response.

(d) If after an answer is received, there are concerns or issues remaining that are within Senate’s mandate, those issues will be referred to the appropriate Senate standing committee for review and a report will be made back to Senate. If the concerns or issues remaining are not within Senate’s mandate, the Chair will refer the matter to the appropriate vice-president.

(e) A member who has submitted a question is entitled to ask one supplementary question relating to the response.

4.3.2 Issues for Discussion

(a) It is suggested, though not required, that members who wish to raise an issue for discussion at this point in the agenda, submit the issue to the University Secretary at least 48 hours prior to the meeting at which it is to be raised. Notice of issues for discussion received within this time frame will be included in a reposted agenda in advance of the meeting.

(b) Members are responsible for preparing any background documentation they wish to distribute related to the issue they are raising. The Secretariat must be provided with an electronic copy of such documentation for Senate’s records. Documentation received at least 48 hours before the meeting will be circulated to members of Senate with the notice of the issue to be discussed.

(c) If at the end of the 30 minute period there are still members who wish to speak on an issue under discussion, and the period is not extended, discussion will be resumed at the following meeting of Senate as part of that meeting’s Discussion and Question Period.
(d) If after discussion of an issue is concluded, there are concerns or issues remaining that are within Senate’s mandate, those issues will be referred to the appropriate Senate standing committee for review and a report will be made back to Senate. If the concerns or issues remaining are not within Senate’s mandate, the Chair will refer the matter to the appropriate vice-president.
