HBA/HONOURS SPECIALIZATION IN GEOGRAPHY AND ENVIRONMENT

The combined degree programs are administered on behalf of the Richard Ivey School of Business and the Department of Geography and Environment in the Faculty of Social Science.

The combined program is a five-year program leading to a BA in Honours Business Administration (HBA) and a BA Honours Specialization in Geography. In Years 1 and 2 students are registered in the Department of Geography and Environment and follow the normal curriculum for the Honours Specialization module. In Year 3, students are registered in the HBA program. Students are registered in the combined program in Years 4 and 5. Admission requirements for the combined program are outlined below.

Admission Requirements

To be eligible for consideration for admission to the combined program, in the first two years students must complete a minimum of 10.0 courses including Business Administration 2257. In Year 1 they must complete the admission requirements as specified in the current Academic Calendar for entry into the Honours Specialization module offered by the Department of Geography and Environment.

In Year 2 students must enrol in the Honours Specialization in the Department of Geography and Environment and satisfy the minimum progression requirements for the second year of that Honours Specialization. Under certain conditions, students who enrol in a Major in Geography in Year 2 may be eligible for admission to the combined degree program, but they will have to transfer into an Honours Specialization module in the Department of Geography and Environment if they are accepted into the combined degree program. Such a transfer is possible only if they have received the marks needed to transfer into an Honours Specialization module. Students must be able to complete all of the requirements of the combined degree program for that module, including breadth requirements and completion of essays.

In the first two years, students must attain a minimum weighted average of 78%, a minimum mark of 70% in Business Administration 2257, and no mark less than 60%. They also must gain admission to the HBA program through the regular application process. In addition, students must normally attain a minimum weighted average of 78% in the first year of the HBA.

Students apply for the combined degree program during the HBA 1 year, typically their third year of University. Applications to the combined program must be

made in writing to the Undergraduate Program Advisor of the Department of Geography and Environment and to the HBA Program Office by the deadlines published by the Richard Ivey School of Business. Entrance to the program may be limited.

HONOURS SPECIALIZATION IN GEOGRAPHY AND ENVIRONMENT/HBA

The combined degree programs are administered on behalf of the Richard Ivey School of Business and the Department of Geography and Environment in the Faculty of Social Science.

The combined program is a five-year program leading to a BA in Honours Business Administration (HBA) and a BA Honours Specialization in Geography. In Years 1 and 2 students are registered in the Department of Geography and Environment and follow the normal curriculum for the Honours Specialization module. In Year 3, students are registered in the HBA program. Students are registered in the combined program in Years 4 and 5. Admission requirements for the combined program are outlined below.

Admission Requirements

To be eligible for consideration for admission to the combined program, in the first two years students must complete a minimum of 10.0 courses including Business Administration 2257. In Year 1 they must complete the admission requirements as specified in the current Academic Calendar for entry into the Honours Specialization module offered by the Department of Geography and Environment.

In Year 2 students must enrol in the Honours Specialization in the Department of Geography and Environment and satisfy the minimum progression requirements for the second year of that Honours Specialization. Under certain conditions, students who enrol in a Major in Geography in Year 2 may be eligible for admission to the combined degree program, but they will have to transfer into an Honours Specialization module in the Department of Geography and Environment if they are accepted into the combined degree program. Such a transfer is possible only if they have received the marks needed to transfer into an Honours Specialization module. Students must be able to complete all of the requirements of the combined degree program for that module, including breadth requirements and completion of essays.

In the first two years, students must attain a minimum weighted average of 78%, a minimum mark of 70% in Business Administration 2257, and no mark less than 60%. They also must gain admission to the HBA program through the regular application process. In addition, students must normally attain a minimum weighted average of 78% in the first year of the HBA.

Students apply for the combined degree program during the HBA 1 year, typically their third year of University. Applications to the combined program must be made in writing to the Undergraduate Program Advisor of the Department of

Geography and Environment and to the HBA Program Office by the deadlines published by the Richard Ivey School of Business. Entrance to the program may be limited.

However, a student who has met the progression standards of either the HBA or Geography program will be allowed to proceed to the next year of that program. If the progression standards of both individual programs have been satisfied, the student may continue in either program and may petition the School or Faculty whose program was not selected for permission to complete that program at a later date. A student who is required to withdraw from the combined program and wishes to pursue either of the individual programs or both programs through a combined degree, must complete all the degree requirements of the individual program or combined programs in order to graduate from that/those program(s).

Dean's Honour List

At the Richard Ivey School of Business, students are considered for the Dean's Honour List during their first year of HBA. Students enrolled in Years 4 and 5 of the combined program are considered for the Dean's Honour List in Year 5 only. Only grades obtained in 4000-level Business courses will be used in calculating averages for the purposes of determination of Dean's Honour List standing. Courses taken outside the Business School are excluded. Calculations for Ivey Scholar and Gold Medals are completed in the same way.

In Social Science, students will be considered for the Dean's Honour List in the usual way in Years 1 and 2, and at the end of Year 5 by considering all Social Science courses that have been taken in Years 4 and 5. Students who take at least 2.0 Social Science courses in Year 4 will be considered for the Dean's Honour List in that year on the basis of those courses.

Graduation

Upon completion of this combined program, students will receive a BA with Honours Specialization in Geography and a BA in Honours Business Administration.

Graduation with Distinction

Eligibility to graduate "With Distinction" for each degree is determined by each Faculty.

HONOURS SPECIALIZATION IN URBAN DEVELOPMENT/HBA

The combined degree programs are administered on behalf of the Richard Ivey School of Business and the Department of Geography and Environment in the Faculty of Social Science.

The combined program is a five-year program leading to a BA in Honours Business Administration (HBA) and a BA with Honours Specialization in Urban Development (Geography). In Years 1 and 2 students are registered in the Department of Geography and Environment and follow the normal curriculum for the Urban Development module. In Year 3, students are registered in the HBA program. Students are registered in the combined program in Years 4 and 5. Admission requirements for the combined program are outlined below.

Admission Requirements

To be eligible for consideration for admission to the combined program, in the first two years students must complete a minimum of 10.0 courses including Business Administration 2257. In Year 1 they must complete the admission requirements as specified in the current Academic Calendar for entry into the Honours Specialization module offered by the Department of Geography and Environment.

In Year 2 students must enrol in the Honours Specialization in Urban Development in the Department of Geography and Environment and satisfy the minimum progression requirements for the second year of that Honours Specialization. Under certain conditions, students who in Year 2 enrol in a Major in Geography may be eligible for admission to the combined degree program, but they will have to transfer into the Honours Specialization in Urban Development module in the Department of Geography and Environment if they are accepted into the combined degree program. Such a transfer is only possible if they have received the marks needed to transfer into the Honours Specialization module and are able to complete all the requirements of the combined degree program for the module.

In the first two years, students must attain a minimum weighted average of 78%, a minimum mark of 70% in Business Administration 2257, and no mark less than 60%. They must also gain admission to the HBA program through the regular application process. In addition, students must normally attain a minimum weighted average of 78% in the first year of the HBA.

Students apply for the combined degree program during the HBA 1 year, typically their third year of University. Applications to the combined program must be made in writing to the Undergraduate Program Advisor of the Department of

Geography and Environment and to the HBA Program Office by the deadlines published by the Richard Ivey School of Business. Entrance to the program may be limited.
